

DULUTH EVENING HERALD.

TENTH YEAR.

MONDAY, FEBRUARY 13, 1893.

FIVE O'CLOCK EDITION.

THREE CENTS

A Duluth Clothing Store Exclusively Owned and Controlled by Duluth Men
ESTABLISHED 1881.
Evening Except Mondays and Saturdays.

Didn't you
You
It would be a Famous
February Here?

Didn't we tell you we'd make this dull month step on its shadow? This was too, you may have your choice of any pair of pants in the house

For \$4.98.

We have several hundred pairs—very fine quality—Trousers more than we need, and wish to sell them now. That's why you're getting a choice of \$8.00 and \$7.50 trousers at \$4.98.

We have a special line of Clay worsted Men's suits in both sacks and frocks—the \$22 and \$20 kind. You may have this week

For \$12.98.

Boys' Clothing 20 Per Cent Off!

Boys' Overcoats 20 per cent discount, Boys' Suits 20 per cent discount, Boys' knee and long pants 20 per cent discount, Boys' caps 20 per cent discount, Boys' Underwear 20 per cent discount, Boys' Shoes 20 per cent discount. A few weeks ago we consolidated a great lot of suits that were \$8 and \$7.50 and made the price \$5.50. All that are unsold go at 20 per cent discount.

Large bargains in all kinds of Men's Overcoats and Ulsters. 20 per cent discount throughout the entire line. Spring overcoats included this week.

It's bright, long-headed buyers that are pocketing the \$5, \$10 and \$15 here these days.

The BIG DULUTH
WILLIAMSON & MENDENHALL, Props.
Wholesalers and Retailers of Lumbermen's, Miners and Explorers' Supplies.

BARGAIN AFTER BARGAIN!

TO REDUCE stock as much as possible before taking inventory I am offering exceptional Bargains in

Chairs, Rockers, Sideboards, Lounges, Suites, Etc.

Carpetings!

Odds and ends of the various grades of Carpetings at greatly reduced prices to close. Economical buyers will do well to examine my stock of these goods.

F. S. KELLY,
710 and 712 WEST SUPERIOR STREET.

Everything for the Home, Everything for the Office, ON EASY PAYMENTS.

J. M. GEIST,
THE LEADING HOUSE IN
Fine Watches, Diamonds, Jewelry, Etc.

SOLE AGENTS
HATS AT Cate & Clarke's,
333 SUPERIOR STREET WEST.

HOME RULE BILL

Great Crowds Attended the Session of the British Parliament Today and Room at a Premium.

The Crush at the Entrance Was Very Great and an Aged Member Was Trampled Upon.

Mr. Gladstone's Appearance Was the Signal for Loud Cheering by Liberals and Irish Nationalists.

The Irish Home Rule Bill Introduced by Mr. Gladstone Who Spoke Clearly and Strongly.

LONDON, Feb. 13.—Upon inquiry at Downing street, it has been learned that Mr. Gladstone is in admirable form and looking forward with pleasure to the exertion of the day. He slept well during the night and began work at 9:30 this morning, assisted by his secretaries. The early morning scene in the palace yard, Westminster, has been of the most animated description, groups of people assembling to watch the arrival of the members.

P. J. Foley, the Nationalist member from Connemara, was the first to make his appearance, closely followed by David Sheehy, secretary of the Irish National Federation and brother of Father Sheehy, one of the persecuted patriots of the Forster regime. Mr. Sheehy is member for South Galway and is grateful to Mr. Gladstone for having introduced the Home Rule Bill, which he has long been working for.

"Honest John Roche," Nationalist member for East Galway, was also among the first arrivals, as well as Charles Tanner, M. P. for Cork, one of the most forceful, popular and kind-hearted of the Nationalist leaders. Mr. Gladstone arrived at 10:30, and was met by the representatives of the Irish cause at the door of the house, and before 10 o'clock sixty members were waiting for admission.

When noon arrived, the inner lobby was packed with members and the approaches crowded, and when the doors opened there was a disorderly rush for seats, the members shouting and struggling like a mob of excursionists on a bank holiday, to get into the house. The veteran Caleb Wright, Liberal M. P. for South West Lancashire, who is 82 years of age, was unable to hold his own in the crush and fell down in the doorway. Others were pushed on him by the eager headless throng and he was trampled upon more than once before the vigorous and resolute labor representative, John Burns, came to his rescue. The melee settled down at last and all got safely to their seats. Every seat in the house, except the government benches was occupied.

Mr. Gladstone entered the house of commons at 3:30 o'clock. Every Liberal and Irish Nationalist in the house stood up and greeted him with prolonged cheers. When Mr. Gladstone arose at 3:43 to introduce the home rule bill there was another fine demonstration so earnest, so enthusiastic and irrepressible that it was several minutes before he could be heard.

Mr. Gladstone spoke as follows, in a clear, strong and resonant voice: "I may, without impropriety, remind the house that the voices which usually pleaded the cause of Irish self government in Irish affairs, have been in the walls during the last seven years, been almost entirely mute. I return, therefore, to the period of 1886, when a proposition of this kind was submitted on the part of the government of the day, and beg to remind the house of the version then taken by all of the promoters of the measure. We said that we had arrived at a point in our transactions with Ireland where the two roads parted.

"On the one hand, we said, to choose one or the other. One is the way of Irish self government, according to the constructions I have just referred to; the other is the way of coercion. That was our contention. It will be the recollection of the house that this contention was most stoutly and largely denied. It was said over and over again by many members opposite: 'We are no coercionists; we do not adopt that alternative, and neither can we adopt it.' (Ministerial cheers). That assertion of theirs was undoubtedly sustained by the proposals, especially from dissenting Liberals, of various plans dealing with Irish affairs. Those plans, though they fell entirely short in principle and in scope of Irish self government, yet were of no trivial or mean importance. They went far beyond what has heretofore been usually proposed in the way of local self government for Ireland.

"Well, what has been the result of the dilemma, as it was then put forward on this side of the house and repelled by the other? Has our contention that the choice lay between autonomy and coercion been justified or not? (Liberal cheers). What has become of each and all of those important schemes giving Ireland self government in provinces and giving her even a central establishment in Dublin with limited powers? All vanished in the thin air, but the reality remains. The roads were still to autonomy or coercion. The choice lay between them, and the choice made was to repel autonomy and embrace coercion.

"You can not always follow coercion in an absolutely uniform method. In 1886, for the first time, coercion was imposed on Ireland in the shape of a permanent law, added to the statute book. This state of things created an offering against the harmony and traditions of self government. It was a distinct and violent breach of the promise on the faith of which union was obtained. Permanent system of repression inflicted upon the country a state of things which could not continue to exist. It was impossible to bring the inhabitants of the country under coercion into sympathy with the coercion power.

Mr. Gladstone proceeded to dilate at length upon the circumstances under which the act of union was passed, the promise of equality in the laws and of commercial equality under which union was effected. "It was then prophesied confidently," he said, "that Irishmen would take no part in the cabinet of the United Kingdom, but it had been his honored destiny to sit in cabinets with no less than sixty or seventy statesmen of whom only one, the duke of Wellington, was an Irishman, while Castlereagh was the only other Irishman who had sat in the cabinet since union. I felt it promised equal laws when the union was formed, but the broken promises made to Ireland were unbrokenly written in indelible characters on the history of the country.

"Coming to 1832, when the insurrection of the people began and thence down to 1838, Ireland could present only a small minority in favor of restoring to her something in the nature of constitutional rights and practical self government. It is to be regretted that a little weight is attached by many to the fact that before 1886, before 1885, indeed, Irish wishes of self government were represented only by a small minority. Since 1885, when the wide extension of the franchise was protected by the secret ballot, Ireland's position has been improved in parliament. In 1885 there were eighty-five Nationalists, or more than five-eighths. (Cheers). They have been reduced from eighty-five to eighty, under circumstances somewhat peculiar. (Hear, hear). I must own frankly to myself among others, for reasons totally and absolutely unintelligible. (Loud cheers).

"Let us now look at the state of the case as it now stands. There are 80 out of 101, that is to say, the wishes of the Irish people are represented in parliament. Since 1885, when the wide extension of the franchise was protected by the secret ballot, Ireland's position has been improved in parliament. In 1885 there were eighty-five Nationalists, or more than five-eighths. (Cheers). They have been reduced from eighty-five to eighty, under circumstances somewhat peculiar. (Hear, hear). I must own frankly to myself among others, for reasons totally and absolutely unintelligible. (Loud cheers).

"Let us now look at the state of the case as it now stands. There are 80 out of 101, that is to say, the wishes of the Irish people are represented in parliament. Since 1885, when the wide extension of the franchise was protected by the secret ballot, Ireland's position has been improved in parliament. In 1885 there were eighty-five Nationalists, or more than five-eighths. (Cheers). They have been reduced from eighty-five to eighty, under circumstances somewhat peculiar. (Hear, hear). I must own frankly to myself among others, for reasons totally and absolutely unintelligible. (Loud cheers).

"It is said by the party opposite that the Irish people are not ready for self government. I say that Ireland is a fact of great moment. In truth, we are Ireland united, anything that can render Ireland formidable would be a boon to the British Empire. Were Ireland united, all opposition would vanish as a shadow. If Ireland is not united it is in this sense, that in one portion of the country a majority of the population are of the higher classes, but a considerable popular feeling is opposed to the present national movement. I will not attempt to measure the numerical strength of the minority.

"It is said by the party opposite that the Irish people are not ready for self government. I say that Ireland is a fact of great moment. In truth, we are Ireland united, anything that can render Ireland formidable would be a boon to the British Empire. Were Ireland united, all opposition would vanish as a shadow. If Ireland is not united it is in this sense, that in one portion of the country a majority of the population are of the higher classes, but a considerable popular feeling is opposed to the present national movement. I will not attempt to measure the numerical strength of the minority.

"The history of genuine national sentiment in Ireland is the history of the last century, through the medium mainly of range lodges and through religious animosity, there was an alternation of feeling, but the Protestants of Ireland, during the period of the independent parliament were themselves not only willing, but zealous supporters of Irish nationality.

HELD UP IN CLEVELAND.
A Milkman Robbed in the Central Part of the City.

CLEVELAND, O., Feb. 13.—At about 4 o'clock this morning Wm. Brooks, a milkman, while driving along Giddings avenue, in the central part of the city, was held up by two highwaymen, and ordered to hand over his money. He refused, and one of the robbers shot him in the side. They then took what money he had, an insignificant sum and made good their escape. It is feared that Brooks' wound may prove fatal.

Will Get Nothing.
ROCKFORD, Ill., Feb. 13.—In the famous case of O. L. Larkins, in which \$100,000 is involved, Judge Bailey has decided to allow a copy of the will to be probated which divides the estate among the four daughters. The original will was lost or stolen. The other heirs in Chicago, Canada and Nebraska contested the copy of the will and fought bitterly against having it probated. They will now get nothing.

THREE WERE DROWNED

Two Young Men and a Boy Broke Through the Ice in the Mystic River.

A Crowd Rushed to Rescue Them But the Ice Cracked and All Quilt But One.

John Blake Plunged Into the Water But Too Late to Save One of the Three.

BOSTON, Feb. 13.—Three unknown persons, supposed to be two young men and a boy, were drowned yesterday in the Mystic river, near the foot of Baldwin street, Charlestown. Several hundred persons were skating in this vicinity when several boys playing near Tufts' wharf came rushing up, screaming at the top of their voices. Three persons had been seen to venture out on the thin ice over the channel of the river, and the boys said that they were in the water. The crowd rushed for the spot, headed by John and Frank Blake.

When within seventy-five feet of the channel the ice began to crack under them and all stopped but John Blake, who carefully picked his way two feet further, from where he saw a young man, apparently about 20 years old, struggling to keep his head above water. No sign of the other man and the boy could be seen, and it is thought that they went down almost instantly. Some of the crowd had procured a rubber hose, which was passed to Blake. He threw it towards the drowning man, but it fell short. A young fellow then tied a life preserver around him and fastened a rope to it, the other end being held by the crowd on the shore. He jumped into the water and pushed a plank to the man, who was unable to retain his hold upon it. Blake, with a rope fastened about him, then swam to the man, but just as he reached him the man sank for the last time. Blake was hailed out. The bodies of the drowned men have not been recovered.

EXHIBITS FOR THE FAIR.
Marble Statuary and Paintings Have Arrived From Italy and France.

FORTRESS MONROE, Va., Feb. 13.—The United States ship Constellation arrived at Hampton Roads yesterday afternoon from an interesting cruise in the interests of the Columbian Exposition. The Constellation left Norfolk early in October for the purpose of transporting to the United States from France and Italy various works of art designed for the World's fair.

The voyage has been a successful one both as to the excellent time made in the passage and as to the works collected. She sailed 12,800 miles in ninety-four days. The cargo taken at Naples consisted of marble statuary and paintings, principally the work of American artists in Italy, while that taken on board at Havre consists of plaster casts of the statues in the Trocadero, works of French colonists, the whole amounting to six hundred tons bulk, and taxing the ship to her utmost capacity.

The Constellation put into Hampton Roads owing to stress of weather, and will probably proceed in a few days to New York to discharge her cargo, after which she will again return to the naval academy for service at that institution.

TODAY'S HOUSE PROCEEDINGS.
Conference Report On the Fortification Bill Agreed To.

WASHINGTON, Feb. 13.—After a brief fight between the committee on the District of Columbia and the committee on appropriations, the former came out victorious and proceeded to call up bills of a local character. On motion of Mr. Dalzell the senate bill was passed authorizing the Union Railroad company of Pennsylvania to construct a bridge across the Monongahela river in Allegheny county, Pa. The conference report on the fortification appropriation bill was submitted and agreed to.

The Wyoming Senateship.
CHEYENNE, Feb. 13.—The twenty-second senatorial ballot which was taken today was without definite results. J. H. Barren, Republican, 22; George W. Baxter, Democrat; 6; George F. Beck, Democrat; 2; John E. Osborne, Democrat; 5; John C. Thompson, Democrat; 11; A. C. Breckwith, Democrat; 1, and William Brown, Populist, 1.

Died From Malpractice.
NEW YORK, Feb. 13.—Margaret Manzoni, who has been lying ill with peritonitis, the result of criminal malpractice, died early this morning at the residence of Dr. Sanders, where she has been lying since her removal from the care of the female physician, who is under arrest. Nothing has been heard as yet of Florence Donavan, the man who is accused of being responsible for her condition.

Trolley Patent Sold.
SPRINGFIELD, O., Feb. 13.—O. S. Kelly has sold the patent controlling all overhead trolley wire electric street railways to the General Electric company, New York. The patent was bought from a poor man, now dead, for a trifle, and is now valued at \$1,000,000.

Could Not Stand the Cold.
LYNN, Conn., Feb. 13.—Stories of the most terrible cold in the latter part of the winter, caused by the recent cold weather, come from the colony of Russians at Chesterfield. About sixteen months ago the colony was established, over 400 Russian families settling on small farms. During last summer they did little work and in the fall the crops were very poor. The suffering among the colonists has been very great.

THREE PER CENT BONDS.

An Issue for the Maintenance of Specie Resumption.
WASHINGTON, Feb. 13.—The senate committee on finance will probably take up at its meeting tomorrow Senator Sherman's resolution to authorize the treasury, in case of necessity for the maintenance of specie resumption, to issue three per cent five year bonds. An accidental omission in an item previously published on this subject resulted in a statement that "our present four per cent bonds were carrying a premium of 28 per cent or over." As the context would probably indicate to all familiar with the subject and with the market quotations, the sentence should have read: "Our present four per cent bonds if renewed for forty years were capable of carrying a premium of 28 per cent or over."

WILL NOT BE SUSPENDED.

Shipments in Bonds Through Canada Between Duluth and the Eastern States Can be Continued.

MARQUETTE, Mich., Feb. 13.—[Special to The Herald.]—A telegram has just been received at the offices of the Duluth, South Shore & Atlantic from the Canadian Pacific, stating that they have advised from Washington informing them that a new man will be appointed for Smith's Falls to continue arrangements as heretofore. This means that the system of bonding merchandise between Duluth and the Eastern States over the South Shore and Canadian Pacific roads will be continued.

NERVY ACT OF A BOY.

He Deliberately Cut off a Finger That Was Useless.

GREEN BAY, Wis., Feb. 13.—Paul Rurth, a lad 17 years of age, who recently arrived from Germany, took a position with a sawmill company a few miles north of this city, and while working about the mill he fell, striking a saw, losing the thumb and two first fingers off the left hand, and so mangle the little finger that it also had to be amputated. This left the boy with one finger. Finding that the finger would always be stiff and useless he deliberately sawed it down, and taking his razor, cut the flesh from about the joints of the finger, and then cut the bones off and sewed up the wound. He is again at work, none the worse for his nervy act.

READY TO MAKE A MATCH.

Corbett Says His Manager Will be in New York Wednesday.

ST. PAUL, Feb. 13.—In reply to Jackson's ultimatum issued this morning, saying that Corbett must accept his challenge within ten days or Jackson's money would be withdrawn, Corbett said this afternoon: "My representatives will be in New York Wednesday to make a match with Mitchell or Jackson. Mr. Brady and Mr. Delaney leave for New York at 5 o'clock this evening. They have power to make the match with either Mitchell or Jackson; Mitchell first and Jackson second. I am not going to do any talking on paper. Money will talk when my manager gets to New York."

FOR THE WORLD'S FAIR.

Fourth Provision For the Expenses of the Exposition.
WASHINGTON, Feb. 13.—The senate committee on appropriations has made the following provision for the World's fair in the Sunday civil appropriation bill.

For government exhibits, \$20,750; for the completion and equipment of a brick ship, \$10,000; World's Columbian commission, \$25,575, \$68,112 of which is for the use of the board of lady managers and \$35,000 of which is made immediately available. It also provided that \$100,000 of the appropriation shall be issued to the ladies of the board in 25-cent souvenir coins.

For awards of judges, examiners, etc., there is an appropriation of \$70,880, of which \$100,000 is to be devoted to expenses of managers and members of boards appointed by the lady managers.

In North Dakota.

BISMARCK, N. D., Feb. 13.—The forty-fifth ballot for United States senator resulted: H. F. Miller, 22; J. W. Miller, 14; Roach, 13; Walsh, 7; Stevens, 10; Muir, 3; Hodgson, 2; Dobbin, 5; Gregory, 1; Oliver, 2; Cronin, 1.

The Nicaragua Canal.

WASHINGTON, Feb. 13.—Mr. Frye closed a speech today by expressing the hope that the crowning glory of the American republic would be the completion of the Nicaragua ship canal before the dawn of the twentieth century. He was warmly applauded on the floor and in the galleries. Mr. Morgan then addressed the senate on the same subject.

Carnegie Is Better.

NEW YORK, Feb. 13.—Andrew Carnegie, who has for several days been suffering from the effects of a severe cold, was said at his home, No. 5 West Fifty-first street, to be improved.

Lost Her Glasses.

The board of health this morning received notice that Mrs. Martha M. Davis has presented her liege lord, Thomas J. Davis, the prominent attorney, a son and heir. Under the head of "remarks" on the card was the following: "The girl reported this morning is a boy—nurse lost her glasses." Other births were reported as follows: Frances and Isabella Soular, 22 West Fifth street, a son, Edward M., and Eva Kollenbach, 112 West Fourth street, a daughter, Joseph and Georgiana Marten, 1146 Garfield avenue, a daughter.

OPOSES ANNEXATION.

Ex-Minister George W. Merrill, Now of Los Angeles, is Strongly Opposed to Annexation of Hawaii.

Says the Scheme Has Always Been Agitated by American Speculators Interested in the Islands.

Privileges of a Naval Station and a Cable Will Accomplish All That is Desirable.

SAN FRANCISCO, Feb. 13.—In the next number of the Californian Illustrated Magazine ex-Minister Geo. W. Merrill, now of Los Angeles, has an article on the annexation of Hawaii, which puts in very vigorous style the chief objections to annexation by the United States. Mr. Merrill traces the efforts of annexationists back for fifty years, asserting that the scheme has always been agitated by American speculators interested in the islands, and has been considered unfavorably successively by Secretaries Webster, Evarts and Marcy. The danger of interference in the affairs of Hawaii by any European government is so remote, Mr. Merrill says, that annexation cannot be justified on that ground. The American population is but 2000 in a total of about 90,000, made up largely of Chinese, Portuguese and Japanese. He believes such an action would be a source of weakness in case of a foreign war, would be no protection to our Pacific coast and would be hard to defend.

He calls attention to the contract labor laws, which the government would be compelled to enforce, and concludes: "To anyone acquainted with the influence and wants of the native race, the aggressiveness of the Asiatic, the requirement of the staple industries and the labor conditions of that country, it must be apparent that Hawaii is far below us, while on the other hand, so long as the United States maintain their present attitude embracing the group within the Monroe doctrine and with the eagle poised in the direction of Hawaii the privileges of a naval station and a cable will accomplish for us all that is desirable."

LIKE A FEUDAL CASTLE.

Krupp's Exhibit For the World's Fair Has Arrived.

CHICAGO, Feb. 13.—The first section of the long heralded Krupp gun exhibit arrived Saturday at the World's fair grounds. The installment required twenty-one flat cars for its transportation. The Krupp exhibit will be given a separate building resembling a feudal castle with many turrets and towers, from each of which a gleaming barrel will next summer protrude, ominously glistening in the sun.

Wants Re-election.

MILWAUKEE, Feb. 13.—The Journal prints a telegram from Providence, R. I., today stating that it developed there during the official visit of Commander-in-Chief Weissert, of the U. S. A. R., that he is a candidate for re-election at Indianapolis next September. The paper verifies the report by interviews with local members of the order who say they have known of Col. Weissert's candidacy for some time, but that it was the program to keep it secret until later.

President Green Dead.

LOUISVILLE, Ky., Feb. 13.—Norvin Green, president of the Western Union Telegraph company, died at his home in this city at 7:30 o'clock yesterday morning. His death was caused by diarrhoea, from which he had been an acute sufferer for just one week.

A Fatal Fall.

DES MOINES, Ia., Feb. 13.—Mrs. Mary E. Nash, widow of the late President Nash, of Des Moines college, died last night from effects of injuries sustained by a fall in a neighbor's yard four hours before.

Mantle Leads Now.

HELENA, Mont., Feb. 13.—The ballot for United States senator was as follows: Clark, 23; Mantle, 25; Dixon, 12; Sanders, 2; Couch, 2; Carter, 1; no choice.

EGHT HUNDRED DOLLARS.

John Burns Gets a Big Verdict Against the Manillo Brothers.

At opening of the district court session before Judge Ensign this morning the jury delivered a lengthy charge to the jury in the suit of John Burns vs. Carlo and Litretto Manillo for \$200 damages in a civil action for assault. After being out for some time the jury returned a verdict for the plaintiff giving him \$800. A thirty days stay was granted.

HE HAS DECLINED.

Dr. Johnson Will Not Become Pastor of the First Presbyterian Church.

H. W. Coffin has received a very courteous letter from Rev. Henry Johnson, D. D., of South Bend, Ind., to whom the call was extended some time ago to the pastorate of the First Presbyterian church of Duluth. The reverend gentleman declines the call with regret and states, as his principal reason, that in the midst of important church work in South Bend which he does not feel like relinquishing until it is completed. The call, people say, was such a disappointment at Dr. Johnson's refusal and have at present no other person in view.

WILL BE CONFIRMED

Senate Committee Will Report Favorably on Howell Jackson for Judge of the Supreme Court.

The Democrats Withdrew Their Opposition in the Committee But May Fight in the Senate.

A Decision Reached by the Republican Senators to Vote Solidly for Mr. Jackson's Confirmation.

WASHINGTON, Feb. 13.—The senate judiciary committee this morning in a very brief session decided to report favorably the nomination of Judge Howell E. Jackson to be one of the associate justices of the supreme court of the United States. When this nomination came up one week ago today, the Democrats entered a formal protest to its consideration, and under the rules, the matter went over until the next meeting of the committee which was today.

The Republican members in the meantime decided that they would brook no further delay, inasmuch as there were no charges of any kind, and the determination was reached that the nomination should be acted upon this morning. When the committee met the Democratic members stated that they would no longer oppose the report to the senate, but intimated that they reserved the right to take such steps as they saw fit when the question of confirmation came before the senate itself.

The committee will make a favorable report on the nomination at the next executive session, possibly this afternoon, and if there be any serious Democratic opposition it will then have the opportunity to make itself manifest. It is understood that the Republicans will vote as a unit for confirmation.

JUSTICE LAMAR'S SUCCESSOR.

Why President Harrison Appointed a Democrat to the Supreme Bench.

From former Louisiana justice emerges the true distinction of being the first man appointed to the supreme bench of the United States by a president elected by the opposite party and apparently without regard to political considerations as such. It is true that precedents for such action are cited, but they are apparent rather than real. President Washington's administration

HOWELL EDMUNDS JACKSON.

tion was meant to be nonpartisan, and his experience with Chief Justice John Jay and other judges was in keeping with the general design. President Jackson's administration was confessedly a time when parties were reforming on new lines, and similarly all other alleged exceptions are found to be merely apparent rather than real.

The selection of Judge Jackson stands out boldly as a real exception. It clearly indicates that President Harrison fully appreciated that new issues are hereafter to divide parties, and the appointment is therefore destined to mark a great epoch in American political history.

Judge Jackson has been a lawyer ever since he was old enough for admission to the bar and a judge during much of his adult life. Even the early years of the civil war he was a judge rather than a partisan. He served with rare ability in the civil service of the Confederate government, and when the Democratic cause in Tennessee divided on the question of the state debt, he took high ground in favor of paying dollar for dollar according to the original contract.

He was born at Paris, Tenn., April 8, 1829, was graduated from the West Tennessee college in 1848 and from the law school of the Cumberland university in 1849, and in 1850 located in Memphis, which city has since been his home. He served in the state legislature and supreme court and the 26th of January, 1881, was chosen to represent Tennessee in the United States senate after a long and rather heated contest in the state legislature. He entered the national senate as a "State Credit Democrat" of Tennessee on the same day Ben Harrison entered it as a "Hard Money Republican" of Indiana. Their views on finance were the same, and on other fiscal issues they differed but little if at all. It is just fair to conclude that President Harrison had all these things in mind when he appointed Judge Jackson to the supreme court. In 1889 President Cleveland appointed Senator Jackson circuit judge for the sixth circuit (Kentucky, Michigan, Ohio and Texas), to succeed the late Judge John Baxter.

POLITICS CAUSED IT.

The Decision in the Panama Case Changed at the Last Moment.

LONDON, Feb. 13.—The Paris correspondent of the Times reiterates his statement that the trial and decision in the Panama cases were influenced by political considerations and quotes current gossip in Paris to prove the correctness of his belief. The decision was altered, he says, after the speech of M. Cavaignac, so that it might weaken the effect of the speech by surpassing M. Cavaignac's declarations on integrity, honor and national pride.

On Thursday, hours before the reading of the decision, M. Eiffel was informed that he had been acquitted. The decision had been completed originally the night before, but was so hastily and generally altered shortly before it was delivered that Judge Perrier could hardly read it.

To See His Father.

PARIS, Feb. 13.—The Figaro says that

Chas. De Lesseps has received permission to see his father. He will be taken to Lachennay today, guarded by detectives, and will return to prison in the evening.

EVERY SENATOR WAS ABSENT.

The Chaplain Prayed in An Empty Senate Chamber Today.

WASHINGTON, Feb. 13.—The chaplain had the unique experience this morning of beginning his prayer for a legislative body, not a member of which was present to get the benefit of it. Before the invocation for light and wisdom was concluded Mr. Faulkner (Democrat from West Virginia) strayed into the chamber, and when the chaplain retired called attention to the absence of senators.

The roll was called and in the course of half an hour there were enough senators present to constitute a quorum. An explanation was made by Mr. Faulkner of his purpose in calling attention to the absence of a quorum. It was to the effect that he did not desire legislation to proceed while there was not a Republican senator in the chamber. Finally a quorum appeared, and the journal of Saturday was read.

The senate refused to consider the New Mexico statehood bill in the morning. Vets, 14; nays, 30.

Mr. Teller gave notice that he would tomorrow ask the senate to take up and dispose of the McGarran bill.

Mr. Chilton (Republican of Illinois) introduced a joint resolution to transfer to the state of Illinois (at the close of the Columbian exposition) the naval exhibit of the United States government as a naval armory for the use of the naval militia of Illinois, and asked to have it considered and passed.

Mr. Cockrell (Democrat of Missouri) objected, saying that this was simply the entering wedge of Chicago to get everything that would be sent there for exhibition. The joint resolution was referred to the committee on naval affairs.

VERY IMPROBABLE YARN.

Colored Men Said to be Going to Texas to Avenge the Outrage.

PARIS, Tex., Feb. 13.—A letter was received here yesterday to the effect that 2500 colored citizens of Chicago were coming here to avenge the burning of Henry Smith and would only be satisfied when they had wiped Paris off the face of the earth.

It is not believed that they will come, but if they do there will be a good time. The colored people here are anxious to entertain them. It is not unlikely that some act of violence will be done yet. The people here stand by what was done and will allow no man to challenge their good name.

Saturday night some hoodlums made some remarks regarding the lynching in the presence of a United States marshal and were roughly handled.

WILL NOT ATTEND TO IT.

The Prosecution of the ex-Officials of Illinois Is Deferred.

SPRINGFIELD, Ill., Feb. 13.—Although Attorney General Moloney refused to talk for publication about the order of Acting Governor Gill desiring him to bring prosecution against ex-officials, it can be positively stated that he will pay no attention to the order, for the present at least.

When the order was received by the attorney general, he endorsed it as having been tendered, making a memorandum showing the hour and the date of the tender and then filed it away in a pigeon hole, where it will certainly remain until after Governor Aligold's return.

The North Galveston Brick Plant.

The kiln of red pressed brick that was opened a few days ago at North Galveston, Tex., revealed a quality of material which was pronounced by experts as fully equal in density, durability and color to the best St. Louis pressed brick.

The North Galveston Brick company is a pretty big concern. The machines, buildings, yards and general capacity equals some of the best plants in the country. More factories being built, a steady increase in population and an abundant influx of capital seems to be the present record of this thrifty young city.

For particulars call or address Holwick & Youngblood, 327 West Superior street, Duluth, Minn., the local agent, or address the North Galveston association, box 953, Minneapolis, Minn.

Mr. Harvey Heed

Laceyville, O.

Catarrh, Heart Failure, Paralysis of the Throat

"I Thank God and Hood's Sarsaparilla for Perfect Health."

"Gentlemen: For the benefit of suffering humanity I wish to state a few facts: For several years I have suffered from catarrh and heart failure, getting so bad I could not work and

Could Scarcely Walk

I had a very bad spell of paralysis of the throat some time ago. My throat seemed closed and I could not swallow. The doctors said it was caused by heart failure, and gave me medicine which I took according to directions, but it did not seem to do me any good. My wife urged me to try Hood's Sarsaparilla, telling me of Mr. Joseph C. Smith, who had been cured of the same disease.

At Death's Door

but was entirely cured by Hood's Sarsaparilla. After talking with Mr. Smith, I concluded to try Hood's Sarsaparilla. When I had taken two bottles I felt very much better. I have continued taking it, and am now feeling excellent. I thank God, and

Hood's Sarsaparilla

and my wife for restoration to perfect health. HARVEY HEED, Laceyville, O.

ALL ARE TREATED FAIRLY.

The Ill-Natured Criticisms of New York Papers on the World's Fair.

CHICAGO, Feb. 13.—The Tribune this morning devotes a page to the refutation of the story printed in New York that New York and other Eastern exhibitors have been unfairly treated in the allotment of space by the World's fair management.

The trend of the articles has been that this discrimination has resulted in the withdrawal of many of the exhibitors, and that others are to follow. It is denied by the Tribune that the director general and his chiefs have discriminated against New York exhibitors in allotting space in the various buildings at Jackson Park, and the assertion is made that such withdrawal has assured the management that it was on personal grounds, and not because the space assigned and the location was not satisfactory.

Secretary of the Interior.

NEW YORK, Feb. 13.—The Press correspondent at Lakewood, N. J., says that Hoke Smith, of the Atlanta, Ga., Journal, has been offered the portfolio of secretary of the interior, and that his letter of acceptance was accepted by President Cleveland yesterday.

Resorts in Florida and the Gulf Coast are reached by the Chicago & Eastern Illinois railroad, "Evansville Route," six hours quicker than by the other lines. Limited vestibular trains leave Chicago daily at 4 p. m. For full information apply to C. W. Humphrey, No. pass, apt. 170 E. Third street, St. Paul, Minn., Chicago city ticket office, 304 Clark st., or to Charles L. Stone, gen. pass. and ticket agent, Chicago.

Light.

The grandest sentence in any book in the world is this, in Holy writ: "And God said, let there be light; and there was light." Natural science can tell you in detail how absolutely indispensable light is to the continuance of any form of life on our globe. It is not the purpose of this paragraph, however, to discourse upon the benefits of natural light, but to present some curious facts connected with it, and the numerous artificial means of illumination invented by the ingenuity of man. The ancients thought that objects were made visible by something projected from the eye, and it was not until about 350 years before the Christian era that men began to ask—Why can we not see in darkness? It then dawned upon somebody that light falling upon an object was what made it visible, and that the eye was only a machine for receiving the rays of light and transmitting to the brain the impressions they gave as to the size, shape and color of external things. The first artificial light was probably a burning brazier, then a reed saturated in oil, then the tallow dip, the candle, the oil lamp, the kerosene lamp, gas, and last and greatest, the electric light. Intellectual light is another thing—the light needed to guide our actions, and that is furnished by the experience of ourselves or others. If you want light on the subject of travel, everybody's experience is clear as the sun that the Burlington route is the best for all travelers. For information, tickets, maps, etc., address W. J. C. Kenyon, Gen. Pass. Agent, St. Paul, Minn.

Offices For Rent.

Elegant ground floor offices for rent in the New Herald building, 220 West Superior street. Ready for occupancy Feb. 1. Inquire at Herald office in Heralderson block, Fifth avenue west and Superior street.

DR. SPEER & CO., SPECIALISTS.

NERVOUS AND CHRONIC DISEASES! Main office New York block, corner Fourteenth street and Tower avenue, West Superior, Wis. 2 minutes of the medical department of Harvard University, class of '74, and is registered as such in both institutions.

YOUNG MEN Who have been suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this chance.

DR. SPEER & CO. Will guarantee a perfect cure in all cases of weakness or private disease of any kind or character they undertake or forfeit \$500. There are many of the age of 30 to 50 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting sensation and weakening of the system, in a moment of the cause, which is the second stage of weakness.

LADIES finding it not convenient to call at the office can be treated by mail by sending a full description of their cases. Perfect cure guaranteed in all such cases. Examination and advice free. Remember the place, NEW YORK BLOCK, COR. FOURTEENTH AND TOWER AVENUE, WEST SUPERIOR, WIS. Railroad fare deducted from the price of treatment.

LARGEST CIRCULATION IN DULUTH.
Entered as the postoffice at Duluth, Minn., as
second-class mail matter.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.
Feb. 13.—A storm of slight energy is central over
South Dakota, moving slowly northeast, accom-
panied by a warm wave, and no precipitation is
expected. An area of light barometer is moving
down from the far Northwest, accompanied by a
cold wave of slight energy, and will follow in the
rear of the Dakota storm.

Over the valley of the Missouri river the
weather is unusually warm, the thermometer
ranging in the thirties. The coldest place this
morning is Ellington, N. W. T., 34 below zero.
The warmest, Knoxville, Tenn., where it is rain-
ing and 48 above zero.
It is probable that the storm now approaching
will affect this section somewhat, probably in the
shape of a snow storm, but not a heavy one
unless the conditions change very decidedly.
The cold wave over the far north should reach
this section by tomorrow and lower the tem-
perature considerably.

The thermometer reached the highest point
here yesterday that it has since the 23d of last
month, 32; the lowest during the night was 20.

DULUTH, Feb. 13.—Fair, probably followed by
snow; slightly warmer, followed by colder Tues-
day; winds shifting to northwest.
J. H. Josselyn,
Local Forecast Official.

WASHINGTON, Feb. 13.—Forecast till 8 p. m.
tomorrow: For Minnesota: Light snows, fol-
lowed by local snow; generally northerly winds
and a cold wave.

The World's Fair on Sunday.

In another column will be found a
communication from a subscriber to The
Herald protesting against the opening
of the World's fair on Sunday. It is
claimed it would undermine the only pro-
tection workmen "have against
the greed of their employers,"
overlooking the fact that it is the
workmen who have specially asked that
the fair be opened on Sunday, the Amer-
ican Federation of Labor, the great
national organization of workmen, hav-
ing resolved in favor of Sunday opening
and appointed President Compers to
appear before congress and urge that
the request be granted.

This correspondent says that "Sunday
is the only day that visitors can see in
beautiful sanctuaries, parks, etc., how
we can enjoy the secret of America's
greatness." Admitting such to be the
case, why cannot we show them in Jack-
son park on a still grander scale than
the American people can enjoy them-
selves on Sunday in a peaceable and
instructive manner? If it is deemed
proper to open on Sunday the doors of
our public libraries, museums and art
galleries, and throw wide the gates of
our public parks, upon what substantial
foundation can an argument be rested
for refusing to open the doors of the
great exposition of all the representa-
tive products of the world in art, in
science, in manufactures and in natural
resources? The American people are,
as a rule, a sober, peaceable and law-
abiding people, and it is safe to say that
no more orderly place could be found in
the wide world than would be found in
the World's fair on Sunday.

It is indeed a puerile argument to
assert that because "last year we had
cases of lynching and five of the victims
were women," therefore the World's fair
should be closed on Sunday. As well
might we claim that, because a score
of Sunday school superintendents have
gone wrong in the past few years, there-
fore the Sunday schools should be abol-
ished. This would be absurd, but more
so than the claim of this correspondent.
If it be true that "prohibition can-
not be enforced in Jackson Park dis-
trict," then what shall be said of the
densely populated sections of Chicago
whither the crowds would be driven on
Sunday, if the fair's gates were closed?
Would there not be greater opportunity
in the latter case for violating the Sun-
day law, would there not be greater
temptation to evade it? It is in the in-
terest of temperance and morality that
the fair be thrown open on Sunday, and
no one who has watched and studied the
tendency of great crowds of visitors in a
great city can truthfully deny it.

The Pension Lists.

A revision of the pension lists seems
likely to be one of the important subjects
that will be undertaken by the next con-
gress. The country is now paying out
\$180,000,000 per year for pensions, while
the lists are being increased almost daily
and hundreds of thousands of applica-
tions are on file at Washington seeking
to be placed on the roll. It is any won-
der, therefore, that a demand for a
thorough revision of the pension lists is
becoming louder and louder?

The last number of the Grand Army
Gazette, of New York, joins in the de-
mand for a revision so that the list may be
freed from the "coffee coolers," deserters
and deadbeats who have made the roll
of honor the subject of sneers, ridicule
and contempt. The Gazette believes
in an honest, square pension roll, grant-
ing what is properly due to those who
won it by service. Nothing, in its esti-
mation, is too good for the gallant boys
who met the shocks of battle and cam-
paign, and if the roll were simply to
comprise these, then what that intrepid
officer, Gen. Garfield, said twenty-five
years ago would prove true, the pension
amount would not exceed \$55,000,000
per year. It was an assertion based
upon what he knew was equity,
right, justice. It was based upon a
knowledge of the soldier, the true sol-

dier, with a wall of iron against the
buns and pernicious laws. The lines
were to be restricted under even broad
laws, and this was immediately
after the conclusion of the war. Since
then a hundred thousand of those
who would have been entitled to ben-
efits have been carried to their graves,
and yet the pension list has been grow-
ing and growing in volume until now it
seems like a cyclone darkening the sky,
terrifying the inhabitants of a peaceful
country.

The result is that the list has passed
the bounds of justice and legitimacy, and
it must undergo revision so that the right
may be separated from the wrong. It is
claimed that 2,700,000 soldiers enlisted
during the war, but the fact is not more
than 700,000 men were actively engaged
in fighting. Every old soldier knows
this. As the Grand Army Gazette points
out, regiments that numbered 1000 men
were reduced in six months to one half,
not by battle, but from all sorts of causes.
In a year, if a battle regiment, it had
gone to 250; and how many a regiment
of splendid fighting record, can recall
that its fighting ability never extended
over the limit of 200; and this would
fluctuate to 125 and the 200 limit kept it
in fighting condition. Yet on its rolls it
would bear from 250 to 400, but where
were they? In hospital, scattered, never
on hand, never for a battle.

From the 700,000 are to be deducted
the 110,075 killed or mortally wounded
and died; and those who died from any
and every cause during the war, aggre-
gating 350,238. This would leave about
350,000 soldiers, record survivors. To
the fighters should be given the honors
declared the Gazette, and to this senti-
ment every patriotic citizen will heartily
subscribe. Not simply the date of en-
listment and discharge should be re-
cived from the war department of every
applicant for pension, but his company
roll should be carefully examined and
his history therefrom given. The mal-
igners, the deadbeats, the coffee cool-
ers would be discovered and they should
be mercilessly dealt with. It would take
time, but millions would be saved by
looking up records now. The deadbeats
would be eliminated and the pension
list made a roll of honor in fact as well
as in name.

A Series of Deceptions.

The News Tribune has again turned
its attention to the relative merits of the
bills presented by the two bridge com-
panies, and of course it finds much to
commend in the measure favored by its
owners, Messrs. Hartley and Menden-
hall, while it cannot find words suffi-
ciently strong to denounce the other.
The provisions made in the Commercial
Improvement company for sale to the
cities of Duluth and Superior are specially
condemned by this uncontrolled and im-
partial organ.

Now, what are the facts? The Hartley
bill, as the Duluth-Superior Bridge com-
pany's bill is familiarly known, does not
contain any provision whatever under
which that company would be compelled
to sell to the cities at any time. It
merely says the company "may" sell at
the end of five years on certain terms, but
if the company then decided not to sell,
the cities could not force a sale. Indeed
the News Tribune a few days ago as-
serted that any selling clause, no mat-
ter how stringent and mandatory, could
not be enforced. Yet today it criticizes
the Commercial Improvement company's
bill on this point and lauds its master's
bill to the skies.

But while the Hartley bill is purposely
meaningless and deceptive so far as
selling to the cities is concerned, the
Commercial Improvement company's
bill is very clear, as it provides that "the
Commercial Improvement company
SHALL * * * sell to said cities at the
expiration of ten years from the date of
its first operation," etc. These are clear
and unmistakable words, and they show
that the Commercial Improvement com-
pany has no desire to deceive the people
of the two cities by ambiguous language
such as is employed in the Hartley bill.

The unfairness of the News Tribune
is also illustrated in the publication of
an alleged Washington dispatch today.
It was clipped from the Sunday Pioneer
Press, repeated and palmed off on the
News Tribune's readers as original. But
this was not the only deception. The
following sentences, which appeared in
the original dispatch to the Pioneer
Press, were erased before the republica-
tion in the News Tribune:

"Members of the delegation have se-
cured from Duluth what purports to be
a resolution of the common council
passed unanimously in favor of the Com-
mercial company's bridge. The copy
sent to Senator Washburn and attested
to by the city clerk was mailed at 4:30 in
the afternoon, although the meeting at
which the resolution was said to have
passed did not occur until 8 o'clock in the
evening of the same day. Hartley &
Mendenhall have received assurances
from Duluth that no such meeting ever
occurred."

The News Tribune did not dare to
publish the above, because it would have
shown that its owners were staring in
Washington what is not correct in re-
gard to the council meeting. The fact
is that the meeting of the council was
held in the morning, and the records
show that the resolution in question, pre-
sented by the special committee, was
adopted unanimously.

Sioux City, "the Corn Palace City of
the World," is arranging to hold another
of its unique and peculiar festivals this
year. The date of opening is fixed for
September 20, continuing until October

THE DULUTH EVENING HERALD: MONDAY, FEBRUARY 13, 1893.

18, 1893, and the management promises
attractions that shall far surpass any-
thing heretofore presented. It is ex-
pected that many of the thousands who
will attend the World's fair can be in-
duced to extend their visit to Sioux City
and view the marvels in cereal decora-
tion which will be so perfectly shown,
and at the same time gain a correct idea
of the greatest corn producing territory
on the globe.

The Herald has received a copy of the
Chicago Daily News Almanac and Po-
litical Register for 1873, which is replete
with new and fresh material. One val-
uable feature of this publication is its
non-partisan character, and the accuracy
of its statistics is thus assured. The
publishers state that no pains or expense
have been spared to secure completeness
and trustworthiness and a perusal of its
425 pages shows that this claim is well
founded. The election tables cover
more than 100 pages and give the vote
in every county (state and territorial)
last November.

The presence of President James J.
Hill, of the Great Northern road, at the
jobbers banquet on Wednesday evening
and his promise to speak on "The Rail-
road Situation," will add additional in-
terest to the gathering. Mr. Hill is a
good talker, and when he speaks his
remarks are worthy of close attention.
He will probably have something to say
on this occasion regarding Duluth's rail-
road system, present and prospective,
especially the latter.

A bill has been introduced in the leg-
islature for the protection of the grip-
men and motormen on the electric cars.
This is a good measure and it should be
passed for humane reasons. The front
and rear platforms of the interurban
cars, running between St. Paul and Min-
neapolis, are enclosed with glass, and
there is no good reason why the motormen
and conductors on all street cars
should not be similarly protected.

The News Tribune made a boast yester-
day that on Jan. 1 it stated that the
Great Northern would build an air line
from Crookston to Duluth next summer.
That was not much to brag about. The
Herald made a similar announcement a
month previous to that date and on
Dec. 12 it published a detailed descrip-
tion of the route which had been select-
ed between Fosston and Duluth.

The senate has smothered the anti-
cigarette bill by referring it to the judi-
ciary committee. The senators should
have remembered that the dudes do not
vote—"it's too deucedly vulgar, don't
you know?"

When asked whether he is to be the
next secretary of state, Judge Cresham
smiles and says nothing. What a great
railroad official the judge would make.

A BRIDGE TO SUPERIOR.

**A Citizen's Protest Against the Street Car
Company's Blocking Game.**

To the Editor of The Herald:
The question of a bridge between Du-
luth and Superior, that has been agitat-
ing the public for a few days, past, is of
such surpassing importance that I trust
it will afford sufficient excuse for giving
you my views upon it, which, I trust, I
can learn from scores of other disinter-
ested citizens is the opinion of our en-
tire population.

This opinion is, in short, that the plan
put forth by the Commercial Bridge com-
pany meets with the approval of the
public and the dog-in-the-manger scheme
hatched in the selfish minds of the pro-
motors of the Duluth-Superior Bridge
company is a scurvy trick to balk an en-
terprise of public necessity for the nar-
row conquest of personal greed and gain.

The clauses, as I understand them, in
the bill of the Commercial Bridge com-
pany have regard to the public welfare
as they should in a matter which is of
such vital public interest. The clauses
in the bill of the Duluth-Superior Bridge
company are simply a series of poorly
wrought films which insult our
intelligence by trying to hide their true
meaning of snatching from
the public every vestige of interest in
the bridge either in the present or future,
and practically barring everything from
passing over it except the street cars
owned by its fussy insinigators, Messrs.
Mendenhall and Hartley who compose
this company, should have christened
their conception the Duluth-Superior
street railway bridge company, for it
savors of no other interest, and so have
absolved themselves from a lot of tedious
explanation attempted by their laugh-
able, ill-tuned band organ, the News
Tribune.

It would not be so bad, possibly, if the
Duluth-Superior Bridge company had
submitted their proposition for public
consideration in an impartial and un-
prejudiced way but when they attempt
to force their bill down the people's
throats by having it incessantly cham-
pioned in the columns of the only morn-
ing newspaper, which everybody knows
they own and control, it passes beyond
the bounds of patience. If their bill was
just and fair and honest it would not
need such nauseating, interminable
boasting as it receives in the columns of
their infant industry, the News Tribune,
a paper which, by the way, seems to be
a grim combination of natural and ac-
quired defects, and is at once so dull and
weak and stupid that it appears to de-
velop more and more not as a newspaper
but as a curiosity. Its editor, if it has
any, or whoever produces its editorials,
at least, should be awarded a prize for so
nobly sticking to his post amid the
laughter and railings of the populace. He
evidently is some weak, uneducated
young man who is struggling to rise to
moderity, but he should stop and turn
his course away from mental parasites
and try and find out what God intended
he should be, for considering that his
editorials are the reflection of his peculiar
genius, it is not too much to say that he
is gifted with the most original way of
murdering the English language and
possesses the distinction of being prob-

ably the most timid, the most witless
and the most shallow incompetent that
ever wallowed about in an editorial chair
in the history of the world. Messrs.
Mendenhall and Hartley would bestow
an incalculable favor upon those
whose habits compel them to read a
morning paper if they would remove
this prodigy from his unnatural position
and put him in some capacity on one
of their street cars, where he unquestion-
ably would be more at home. But per-
haps it is a woman who is thus vexing
the public eye. If such be the case, my
gallantry prohibits my prescribing a
remedy.

The Commercial Bridge company's
bill, to resume, has received the ap-
proval of the secretary of war and would
very probably pass at this session of
congress for the brazen interference
of this other company who, for private,
parsimonious reasons, are checking the
possibility of our getting any bridge con-
nection with Superior at all. It is ridi-
culous that we should have no better
means of connection between Duluth
and Superior than we have at present.
There should be a bridge built at the
earliest possible day. The Commercial
Bridge company, as they call them-
selves, have gone ahead and prepared
what would be a public benefit.
Messrs. Mendenhall and Hartley
step in at the last moment and spit in
the face of public interest and opinion
by trying to defeat the erection of a
bridge unless they can control it for
their own monopolistic use. The
citizens of Duluth should send a petition
to congress to ignore the flagrant at-
tempt of Messrs. Mendenhall and
Hartley to smash measures for the pub-
lic benefit and flaunt their personal
schemes, instead, in the teeth of the
people.

The bill of the Commercial Bridge
company should be passed at once.
Its delay is a block to the advancement
of the city and the convenience of the
people. The Herald has championed
this bridge, which might justly
be termed a public necessity, ably and
faithfully. The citizens of Duluth
should take the matter up now and in-
sist upon its passage before it is too
late. It is a question of vital and far-
reaching importance. Vox Populi.

Wedding Rings

are always in demand, and espe-
cially so at this time of the year.
Conquered swains are
now in the ring to become ben-
edicts, and we are in it too, not
as possible benedicts, but to
supply those beautiful hoops of
gold which are the symbols of
hearts bound together. Our
rings are warranted 18 karats
fine, and are the finest to be
seen in Duluth or elsewhere.
Many fair fingers are encircled
with them now, but many more
are left, both of rings and brides
expectant. While Hymen rules
and bridal fingers claim their
own, our stock must be in de-
mand. The rings are in the
store now. Come before they're
gone.

Chamber Suits!

And make room for our new stock which is coming in we have determined to apply our celebrated "Sliding Price Plan" used by us so effectively one year ago which was so successful in clearing our warehouses of nearly every odd chamber suit we had.

Therefore on Monday, Feb. 13th, we put on exhibition in our large show window a **Fine Oak Chamber Suit** placarded as follows:

The actual cash value of this chamber suit is \$100.00. It has never been offered for less money.

Beginning with Monday, Feb. 13th, we shall reduce its price \$5.00 every day it remains unsold until it reaches a price at which you think it is cheap, when it does come in and give us your order.

FIRST WEEK.

Monday, Feb. 13.....Price \$85.00
Tuesday, Feb. 14.....Price \$80.00
Wednesday, Feb. 15.....Price \$85.00
Thursday, Feb. 16.....Price \$80.00
Friday, Feb. 17.....Price \$75.00
Saturday, Feb. 18.....Price \$70.00
Etc., Etc. If not sold by March 6th it won't cost you a cent. 5 per cent added if sold on the easy payment plan.

SECOND WEEK.

Monday, Feb. 20.....Price \$65.00
Tuesday, Feb. 21.....Price \$60.00
Wednesday, Feb. 22.....Price \$65.00
Thursday, Feb. 23.....Price \$60.00
Friday, Feb. 24.....Price \$55.00
Saturday, Feb. 25.....Price \$50.00
Etc., Etc. If not sold by March 6th it won't cost you a cent. 5 per cent added if sold on the easy payment plan.

We Sell on Easy Payments When Desired.

Do you need accommodation? Have you given this method of our business your consideration?

It is honorable.

It is just and equitable.

Our books contain the names of the best citizens of Duluth, who have availed themselves of its advantages.

We ask a payment of \$5.00 on \$20.00 bought.

\$5.00 on 40.00 bought.

\$10.00 on 50.00 bought.

\$20.00 on 100.00 bought.

The Home Rule Approval

Regarded as a Great Which Was Years

The Main Improvement is Freedom For the Irish Government to Control Its Own Revenues.

The Present Financial Proposals and the Provision Regarding the Land Question Are Not Approved.

LONDON, Feb. 14.—Wm. O'Brien, M. P. for Cork city, said this morning in an interview regarding the home rule bill: "It seems to me that the main principles of the bill provide for a better settlement of the home rule question than the bill of 1886. Our chief reservation is on the financial proposals. It remains to be seen whether Mr. Gladstone's surplus of half a million pounds is real. Mr. Sexton, Mr. Dillon, Mr. Blake and others of our friends fear that the full extent of Irish local charges have not been taken into account.

"The proposed contribution for the support of the police will involve a formidable drain for the first few years. Irishmen will hold their opinions on such matters at present and do the best they can. We are able to heartily examine and understand. Nevertheless, the main lines of the bill are a noble and sufficient settlement of the national claims. We are able to heartily recommend Irish acceptance of the measure. It gives substantial control over our domestic affairs.

"We should be justified in resenting the provisions giving the minority adequate representation and providing for a veto by the crown and the supremacy of the imperial parliament. The police arrangements," added Mr. O'Brien, "are practically those agreed upon with Mr. Parnell at Boulogne. The bulk of the present force would doubtless be re-engaged under Irish authority. The checks upon the appointment of judges and the appointment of the main principles are now too many judges in Ireland, but the chances are that the more rapid of these will retire.

"It is a sacrifice to demand that Irishmen should be debarr'd from touching the land question for three years. We recognize that the bill is a sacrifice, but must press for power to check the present land commissioners in the meantime from saddling lease holders with rack rents. Irishmen will probably assent to a reduction of the membership at Westminster."

Mr. Gladstone spent an excellent night and arose at a usual hour in hearty condition, afterward proceeding to the house of commons to listen to his leading Conservative antagonist, the Right Hon. A. J. Balfour. The following is a summary of the contents of the home rule bill which has been officially handed to a correspondent.

"The bill offers Ireland a legislature, a free deal in all Irish affairs and an executive government responsible to its leading members. In all the main principles and in the political machinery, it is provided much better than the bill of 1886. The Irish parliamentary party, at a meeting specially summoned to their country, delivered Mr. Gladstone's great speech, cordially accepted the new home rule legislation as a satisfactory scheme of Irish national self government, subject to endeavors in committee to improve the proposed financial arrangements and to have the time shortened wherein the land question is to be withheld from the purview of the Irish national legislature. We are authorized by the party to transmit this resolution to the friends and supporters of Irish liberty in the United States and Canada.

(Signed) JOHN DILLON, MICHAEL DUFFY.

John Dillon, in an interview, said that the main fact was an admission on all sides that the bill was a great advance on the home rule bill of 1886. "Hence," he added, "the Irish feel that, although they cannot approve the present financial proposals and the provision regarding the land question, they are bound to recognize in the heartiest manner the noble courage and fidelity of Mr. Gladstone in offering this constitution to their country. The main improvements in the bill are, first, the disappearance of the receiver general and consequent perfect financial freedom for the Irish government, which will be able to collect and control its own revenues.

"The second improvement is the constitution of the second chamber, which makes the legislature a thoroughly workable and democratic body. The third improvement is in the veto power, which is provided for in a better manner than in the bill of 1886. The fourth improvement is Irish control of the police and of the land question after a limited number of years.

"In regard to the re-election of Irish members at Westminster, it may be mentioned that this was accepted by Mr. Parnell years ago. I see no objection to a reduction of number of Irish representatives in the imperial parliament and I accept the religious restrictions heartily. I believe the bill will pass the house of commons."

The comments in the evening newspapers on the subject of home rule are on the same line as in the morning papers. The Conservative journals reject the bill in toto, while the Liberal papers approve it, although at the same time picking small flaws in certain provisions of the bill.

The prince of Wales was the first to congratulate Mr. Gladstone yesterday in a private room at the house of commons, after his address producing the home rule bill.

NEW ORLEANS CARNIVAL.

The City Is Crowded With Strangers To Witness the Pageant.

NEW ORLEANS, Feb. 14.—The city is crowded with visitors to enjoy the carnival season. They are here from all parts of the country. Although the Chicago fair and the inaugural ceremonies at Washington have served to keep many away, the attendance of strangers is not much smaller than usual, and the hotels and boarding houses are taxed to their utmost.

The streets at noon today were packed with people, and every gallery along the river was covered with a sea of faces, while the royal colors were displayed in every direction. The decorations in special cases were of a most elaborate character.

The Rex pageant started shortly after 11 o'clock. The subject treated this year is one permitting much latitude in the matter of artistic decorations and color. There were nineteen floats and they treated of fantasies.

Notwithstanding the cloudy weather which served to dim the floats the pageant was a superb one and called forth the commendation of visitors.

John Potevant, a wealthy lumberman, was the king and Miss Ella Sinnott, a beautiful belle, was the queen.

The carnival will come to a brilliant close this evening with the payment of Comus, and there is every promise that the oldest of Mardi Gras organizations will eclipse all previous efforts in the line of night displays.

Rex and Comus both gave balls, the former at Washington artillery hall, and the latter at the Grand Opera house. There have thus far been no accidents to mar the carnival of 1893.

WASHINGTON, Feb. 14.—The relations of the United States with other powers, growing out of the protection of the interests of the United States and its citizens in the islands of the Pacific ocean, have been the subject of considerable correspondence that will appear in the forthcoming volume of "Foreign Relations." Some of this correspondence is particularly interesting at the present juncture of affairs.

Mention has been made of the fact that at the time Capt. Davis, of her majesty's ship, Royalist, visited the British flag over the Gilbert Islands, June 11, 1892, his treatment of Adolph Rick, the commercial agent of the United States at Buanariki, was such as to call forth a protest from Secretary Foster, which was filed with Lord Rosebery on the 16th of November last, by Henry White, secretary of the American legation in London.

From the correspondence it appears that Capt. Davis refused to recognize Mr. Rick as consular representative until he should be accredited to her majesty, the queen, and he demanded that the British government should send a consular agent to the islands, and that the letters were carried by Capt. Davis in the original form presented to him.

The correspondence also shows that Capt. Davis, in a private and unwarranted manner, undertook to try A. J. Kusel, an American trader on the island of the Gilbert Islands, for an alleged assault upon a native of the island some months previous to the date of the raising of the British flag over the islands.

It is pleasant to note that Mr. Rick refused to comply with the demand and that the letters were carried by Capt. Davis in the original form presented to him.

The correspondence also shows that Capt. Davis, in a private and unwarranted manner, undertook to try A. J. Kusel, an American trader on the island of the Gilbert Islands, for an alleged assault upon a native of the island some months previous to the date of the raising of the British flag over the islands.

NATIONAL GATHERING

The Builders' Association of America began its seventh annual convention at Baltimore this morning.

Buffalo delegates are actively at work for Charles A. Rupp for the second Vice Presidency.

According to the Unwritten Law Vice President Ira G. Hisey, of Baltimore, will become President.

St. Louis, Mo., Feb. 11.—The seventh annual convention of the National Association of Builders was called to order at 10 o'clock this morning in Odd Fellows hall by President Anthony Litter, of this city. Rev. Dr. J. C. Larned delivered an impressive prayer, after which Mayor Noonan tendered the delegates the freedom of the city.

President Litter made his annual address. After appointing a committee on credentials, the convention took a recess until this afternoon. There are about 150 delegates in attendance. The Buffalo delegation consists of twenty-five members, and they are actively electing in the interest of Charles A. Rupp, their candidate for second vice president. There is an unwritten law in this association that the convention goes to the city each year in which the president resides.

Another rule is that the second vice president is promoted to the first vice president and the first vice president to president. According to this, Anthony Litter, the present president, will be re-elected. Ira G. Hisey, vice president, of Baltimore, taking his place.

THE INSURANCE TRUST.

It appears to be as strong in the East as in the West.

New York, Feb. 11.—The Herald has a lengthy article declaring that a giant fire insurance trust exists in New York which controls rates for all big Eastern cities.

Rates are held at an excessive rate. All the insurance men, it is charged, operate entirely through a secret tariff association, which has an iron clad constitution binding the members to maintain the rates, as regulated by the secret tariff association.

Competition under this arrangement is impossible, and has been effectually stifled. Though preserving separate organizations it is claimed, the companies are all powerful to take individual action in any case and cannot take a risk at a lower rate than the trust makes.

British capital, it is alleged, is in control of the companies, and small rivals have been gradually crushed out by favorable legislation obtained in the state legislature by the diligent agents of the trust.

FOUR BLOWN TO ATOMS.

Iowa Miners Killed by an Explosion of Powder in the Mine.

CRESTON, Ia., Feb. 14.—A serious accident occurred at Lucas, a mining town sixteen miles east of here, Saturday. Four men were killed outright and several others badly injured.

There were about 100 men employed in the mines, and but for the fact that they had gone about for dinner, there would have been a terrible fatality.

The four men were blown to atoms. The explosion was due to an oversight, which ignited several kegs of powder. The men killed were John Ryan, Patrick Doyle, John Maroney, Michael Cronchite.

A PRIVATE SECRETARY.

Mrs. Cleveland Will Have One for Her Large Correspondence.

New York, Feb. 14.—A special from Washington says that Mrs. Cleveland is to have a private secretary.

She has been in correspondence with Mrs. Toumey, of this city, who was recommended for the work by Mrs. Whitney. Mrs. Toumey is a widow who has traveled a great deal and who is the mistress of several languages besides the English.

It is said that she has arranged with Mr. Cleveland to attend to the voluminous correspondence of the social side of the White house for the sum of \$2000. She is to be engaged between the hours of 9 and 2 each day.

Judge Schofield Dead.

MAKESHALL, Ill., Feb. 14.—Judge John Schofield died at his home in this city yesterday at 12:15 p. m., of peritonitis. Judge Schofield enjoyed the distinction of being the only man in the nation who had ever declined the office of chief justice of the supreme court of the United States. This position was tendered him by President Cleveland, but he declined on the grounds that he did not consider himself competent to discharge the duties of the position.

Mr. Blaine's Will.

AUGUSTA, Me., Feb. 14.—The will of the late James G. Blaine was filed for probate yesterday. It was executed in Washington, Jan. 7, 1893, and gives practically his entire estate to his wife in fee simple. Mr. Blaine's children are bequeathed \$50 each and each of his grandchildren \$25. Mrs. Blaine is named as executrix, and is not required to give any security. The name of James G. Blaine, the third, is not mentioned in the will.

The Company Must Pay.

New York, Feb. 14.—Several years ago New York City brought suit to compel the Manhattan Elevated Railway company to pay into the city 5 per cent of its net earnings. The case has been bitterly fought, but yesterday justice Ingraham decided that the company must pay the 5 per cent of net earnings for the ten years from 1880 to 1890. The city authorities will now press the collection of the money due.

Quinn Will Join the Browns.

St. Louis, Feb. 14.—Joe Quinn, the crack second baseman of the Chicago Boston club, is to meet Mr. Von der Ahe, president of the St. Louis Browns, and Quinn will be signed formally without a doubt.

My Sweetheart's Face

KIRK'S WHITE RUSSIAN SOAP

She is always recommending Kirk's soaps to her friends—says she is through with experiments—has just what she needed to make labor easy, and ensure perfectly clean clothes. She knows what she's talking about—don't forget it.

JAS. S. KIRK & CO., Chicago.

Dusky Diamond Tar Soap. The Soap for Cuts, Wounds and Bruises.

BIG RUN ON A BANK.

Anxious Depositors Rushed for Their Money and Got It.

BEAVER FALLS, Pa., Feb. 14.—The big run on the Economy bank on Saturday was only a slight warning of what was to follow yesterday. Before the bank opened, the stone steps leading to the building were crowded with people, all with anxious faces waiting to draw out their money.

The published statements of Cashier Reeves regarding the solidity of the concern only increased the fears of those who had money in the bank. All morning the entrance to the bank was jammed. The cashier, assistant cashier, teller and clerks were settling accounts, while precipitation streamed down their faces.

In the midst of the rush, Cashier John Reeves stated, as before, that all accounts would be paid and that they had more than enough money for all depositors. As on Saturday the greater part of these drawing out their accounts were women and children.

At noon the crowds still continued. Despite the run, many of the larger depositors have no fears. One merchant deposited over \$1000 yesterday morning and others deposited large amounts. They say they have no fears and would deposit all the money they have without the least hesitation.

THE MILLERS' BIG TRUST.

A Combine Formed to Control the Price of Flour.

MINNEAPOLIS, Feb. 14.—In regard to the alleged millers' trust, a reporter learned from a gentleman, who claims to have personal knowledge, that for more than three months the leading spring wheat millers in the belt bounded by Buffalo, St. Louis and Minneapolis have been trying to form an organization looking to the control of the price of flour.

The scheme is said to have originated with Mr. Hubbard, of Mankato, Minn., and the meetings have been held at Chicago. Most of the spring wheat millers in Buffalo, Chicago, St. Louis, Milwaukee, Minneapolis and tributary points have finally gone into the organization, which is now under full headway, with all the necessary officers and committees.

ON THE SILVER QUESTION.

Message Said to Have Been Sent by Mr. Cleveland to Democratic Congressmen.

WASHINGTON, Feb. 14.—Joseph Quincy arrived in Washington yesterday and had a talk with several Democrats in congress on the silver question. Not much interest appears to be taken on this subject in the house, nearly all the members being of the opinion that last week's vote settled the question for this congress.

There were some inquiries as to whether or not Mr. Quincy bore any message from Mr. Cleveland, chairman of the committee which had charge of the recent attempt to repeal the Sherman bullion purchase law, saw Mr. Quincy, but said that if he bore any message from the president-elect it was not delivered to him (Bacon).

SPRING COMPANY WON.

A Victory for the Water Supply Company at Waukesha.

WAUKESHA, Wis., Feb. 14.—Judge Fish yesterday denied the demurrer of the attorneys of the village of Waukesha to the petition of the Wisconsin Water Supply company to have a commission appointed to examine property to allow them to lay pipes out of the village.

This is a substantial victory for the spring company, and the beginning of the end of the fight which has waged so fiercely between the spring people and the citizens of Waukesha. A plea of prejudice was introduced and further developments are expected.

Approved by the President.

WASHINGTON, Feb. 14.—The president yesterday approved the act in relation to the testimony before the interstate commerce commission, and the resolution authorizing the loan for exhibition at the World's fair of the picture entitled "The Recall of Columbus."

A NEW DEPARTURE.

The Adjusted Rate Plan of Life Insurance.

The nearer the standard of a first-class risk, the less the cost. The most desirable for the people. The best for the agent. Progressive, successful company. Good territory. Top contracts. Managers, general, local and special agents wanted. For particulars address

Fifty men wanted to chop wood and clear land. Apply at 1033 West First street, H. D. Eble.

PARTY LINES SHATTERED.

Maj. Baldwin Says a Political Revolution is in Progress.

A Washington special to the St. Paul News says: Maj. Baldwin said to the News correspondent: "Almost every important public event that has come under my knowledge since I came to Washington shows that parties are disintegrating, falling apart and preparing to reform on new lines. I hardly expected to live long enough to see it, but the war seems to be actually over at last."

"Have you seen any great measure pending in either house this winter where the vote has been on party lines? Anti-Union, the silver question, even on questions that touch no tariff party lines have been drawn. And now President Harrison has nominated a good, pronounced, states right Democrat to the supreme bench, and the hesitation as to his confirmation, we are told, does not come from the Republican, but rather from the Democratic side of the senate chamber."

"Then, look at the pension question in the house. The Democratic members of the pension committee agree upon a radical change in the laws, and rock-ribbed Mr. Holman refuses to join the Democratic brethren, but rather from the Democratic side of the senate chamber."

"Late seems to have come the crowning test. Mr. Cleveland seems to have offered to Judge Gresham the position of premier in his cabinet. Did you ever hear anything like it? And only four years ago Mr. Gresham was a pronounced candidate for the Republican nomination for president."

"There's how poor Mr. Clarkson is assailed by the newspapers of his own party for differing with the action of President Harrison in appointing Judge Jackson to the supreme bench. I tell you the Farmer's alliance and People's party movements have, insensibly, perhaps, but nevertheless effectually, wrought a revolution in the party politics of the United States. I firmly believe that President Harrison is the last chief executive that will ever be elected by the Republican party. If the Democrats are wise, conservative and judicious we may retain power in the nation for an indefinite period. Mr. Cleveland is leading in the right direction. He is opening the door into the old party for all disaffected Republicans. If Gresham can come, and men like Judge Ren, of Minneapolis, what is to prevent an army of the disaffected from following them?"

"I tell you there is a political revolution in progress. It is a wise man who sees it and trims his sails accordingly."

Dyspepsia's victim's find prompt and permanent relief in Hood's Sarsaparilla, which tones the stomach and creates an appetite.

Dangers of the Season.

The sudden changes in weather in the latter part of the winter and early spring are a source of colds and coughs. This season is a particularly dangerous one for persons with weak lungs or of feeble constitution. A slight cold is likely to become a serious one, and the cough that follows is the one great cause of the many deaths from consumption in the early spring. Never neglect a cold or cough. Keep a reliable remedy on hand and check the first cough, that may lead to consumption. As such a remedy the medicine called Kemp's Balsam is strongly recommended. For every form of throat and lung disorder, including the grippe cough, croup and cold, and in the first stages, it probably has no equal anywhere. Get a bottle today.

Joseph V. Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good, but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know that the remedy was so sure. He has stated for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by druggists.

Mr. C. F. Davis, editor of the Bloomfield, Iowa, Farmer, says: "I can recommend Chamberlain's Cough Remedy to all sufferers with colds and croup. I have used it in my family for the past two years and have found it the best I ever used for the purposes for which it is intended. Fifty cent bottles for sale by druggists."

The quickest route to Hurley, Ironwood and Bessemer. Is via the South Shore line. Train leaves Duluth, Union depot, at 11:02 a. m., and arrives at Hurley 4:18 p. m., Ironwood 4:25 p. m., Bessemer 4:47 p. m., Waukegan 5:05 p. m.

ALMOST BEYOND BELIEF.

Things Often Happen that We Can Scarcely Credit.

This is One of Them, and We Give it to Our Readers.

It May Seem Remarkable, But We Know that it is All True.

A strange tale comes to us from Champlain, N. Y., where the principal in this absorbingly interesting account came very near not being alive to tell the story.

It would seem that a well-known resident of the town, Barney Wilson by name, fell ill. Now illness is a common thing, but not so that of Mr. Wilson, as he says himself, now that the danger is over.

"I cannot describe how I felt or what I suffered. It seemed to be at first mostly in my head. I could not think easily; my head felt dull and strange, and I was tired and weak all over."

"I knew my nerves were weak and prostrated; that I had dyspepsia terribly. Why, I could scarcely eat anything from one day to another."

"I could not sleep nights, and woke mornings feeling weak, tired and dragged out. It came near being my death stroke, I tell you, and we did not know what the end would be."

"Can you believe it, I lived and suffered like this for a whole year!"

MR. BARNEY WILSON.

"And then, when I had become about hopeless, I saw the advertisement of a medicine, Dr. Green's Nervina blood and nerve remedy. I procured some from the druggist at once, and before I had taken two bottles I was so much better that I was astonished."

"I continued its use and now I am feeling as well and sound as I ever was in my life. I can truly say that had it not been for Dr. Green's Nervina blood and nerve remedy I should now be in my grave."

"I have recommended this wonderful remedy to all of my stockholders, and speak too highly of this great medicine, and I earnestly recommend it to all who are suffering from disease."

"Besides it is purely vegetable and harmless. The great physician and specialist in nervous and chronic diseases, Dr. Green, of 35 West Fourteenth street, New York, discovered it, and he and other physicians prescribe and recommend it. The doctor also can be consulted free of charge in regard to any case, personally or by letter."

Notice is hereby given that the first annual meeting of the stockholders of the Consolidated Nickel and Iron company of Duluth, Minn., will be held at 7:30 p. m., Tuesday, Feb. 21, 1893, at rooms 1, 2 and 3 DuSable.

We Have Just Bought Another Bankrupt Stock at 40 Cents on the Dollar

And the first installment goes on sale Wednesday morning at 8 o'clock, Feb. 15th, and every day after we will place new bargains on our counters as fast as we can make room for them. Our room is limited and this week we were obliged to pack away our Carpets and Curtains to make room to show our immense stock of Cloaks, but Monday morning, Feb. 20th, we will devote plenty of room to this department and open up the balance of Kahn's stock and 162 pieces of Ingrain, Brussels, Velvets and Moquettes purchased this week at prices ONE-THIRD TO ONE-HALF LESS THAN REGULAR PRICES.

This week we offer you your choice of 800 Cloaks at prices that would hardly pay for the cost of the making, let alone the cost of material and trimmings. You can well afford to buy now and keep them until next winter.

Remember, you can get \$2.00 worth for \$1.00 in any line of goods at DAWKINS, First avenue west and First street, DULUTH.

BIG PORK SYNDICATE

Philadelphia Men Have Formed a Big Concern to Compete with the Chicago Pork Trust.

Arrangements Have Been Completed for the Starting of the Works in the Coming Month.

Products Will be Shipped Directly to the Continent, Where a Big Trade is Expected.

PHILADELPHIA, Feb. 14.—Chicago's mammoth pork trust will have a competitor in the shape of a big syndicate in this city after March 1. Arrangements have already been made for the starting of the concern, and a contract has been closed with the Baltimore & Ohio railroad which will give material aid to the venture.

The gentlemen backing the new industry, who are nearly all Philadelphians, have raised a capital of \$300,000 to begin with. The contracts call for the starting of the works on March 1. The concern has also made arrangements for shipping its products directly to the continent, and expects to reap a big trade from this source, especially in view of the withdrawal of some of the foreign restrictions on the importation of American pork.

STRUNG UP BY ROBBERS.

Strange Tale Told by a Chinaman Regarding Loss of His Money.

NEW YORK, Feb. 14.—A strange story of the robbery of a Chinese farmer's hut was told yesterday to the Long Island city police. According to the narrative three masked men entered the place and suspended the man by a rope from a beam while they ransacked the hut.

There is a colony of Chinese farmers on the outskirts of the Steinway section of Long Island City. The men live in small huts and raise their native vegetables, which they sell to their countrymen in this city. Charlie Tang's farm is on the Old Ivorys Bay road at the intersection of Ditmars avenue.

According to the story told the police he was aroused about 1:30 o'clock Saturday morning, when three masked men sprang into the room and, seizing him, dragged him to the floor. They put a gag in his mouth, blindfolded him with a handkerchief and tied his hands behind his back with an old piece of clothes line.

Then they made a noise with a new piece of clothes line, and, putting it around the Chinaman's neck, hung him to a beam in the roof of the hut. His toes barely touched the floor. The men took Tang's money and after ransacking the house left. Tang succeeded in freeing himself after the men had departed. He says he was too exhausted to make any outcry, and was too fright-

ened to attempt to follow the robbers. He remained in his hut until late in the morning, when he came to the city.

WAS HELD UP BY ROBBERS.

A Freight Train Stopped in Missouri, But Nothing Was Obtained.

JEFFERSON CITY, Mo., Feb. 14.—Freight train No. 3, on the Missouri Pacific railroad, which left Kansas City at 7 o'clock last night, was held up between Little Plac and Pleasant Hill by a gang of masked robbers. The robbers obtained nothing, but it was undoubtedly their intention to rob the eastbound passenger train which left Kansas City at 8:30 p. m.

They flagged the freight with a lantern, and, discovering their mistake, tried to make a run. A train on the caboose. Information of the attempted robbery was wired to Kansas City, and a posse of eight armed guards was placed on the train and proceeded to make the robbers a warm reception in case they renewed the attempt. Nothing more was heard of them and the guards left the train at Little Plac.

"TEXAS JACK'S" IDENTITY.

It is Now Claimed That He is Really Dave Spears.

DENISON, Tex., Feb. 14.—Police Officer Hackney of this city has returned from Albuquerque, N. M., with evidence that Le Roy, alias "Texas Jack," now in jail at Sherman, charged with the murder of seven women here last fall, is Dave Spears, a brother of Tom Spears, of Denison. If this is established in court the great murder mystery will be cleared up.

Rescued at Sea.

NEW YORK, Feb. 14.—Capt. Frazer, of the steamer Neptune, which arrived this morning from Montego Bay, reports that on Saturday, Feb. 11, at 10 a. m., in latitude 24° 19' N., longitude 74° 10' W., he sighted the Norwegian bark Knudsvig, Capt. Evensen, of Norway, and bound from Belize, Hon., to Genl. Eng, with a cargo of logwood. She was lying signals of distress. The Neptune bore up to the bark and found her leaking badly and in a sinking condition. The captain and his crew of ten persons were taken off.

World's Fair Opening.

WASHINGTON, Feb. 14.—This was the regular day of meeting of the World's fair committee, but the members did not get together. Those in favor of the Sunday opening proposition have decided upon another method of procedure which will be inaugurated today, when Mr. Hunt, of Ohio, will introduce in the house a measure providing for the opening of the fair after 12 m. Sundays. It will be referred to the World's fair committee and taken up for action.

Struck by a Train.

WATERLOO, Ia., Feb. 14.—An Illinois Central train ran into a sleigh at a crossing about three miles north of this city last evening. Mr. and Mrs. Fairchild, the occupants of the sleigh, were found on the plot of the engine after the collision. Mrs. Fairchild was fatally injured and her husband was seriously hurt.

Cullum, dentist, 702 Palladio building.

ONLY TWO BACHELORS.

But Two Unmarried Men in the House of Representatives.

Minneapolis Times: It is said that there are but two unmarried men in the house of representatives and it seems that if this statement be true they are the largest and the smallest men in the house. It should be said, however, that there are one or two others about whom there is doubt. Big Daniel Hopkins is the heavy weight bachelors and there are no present prospects which would indicate that Daniel will ever be anything but a bachelor, although it is said that he does possess the persons in all the daily papers with great regularity.

The other known bachelor is little J. B. Cotton, of Duluth, who, though small, is mighty in some ways. He can't be "phased." If he makes up his mind to do a certain thing, all the powers of the earth couldn't stop him from doing it. As for instance, his vote on the pool room bill. Duluth has a nice little driving park and the Duluth people would probably have waited long and loud if they had been compelled to give this up by the passage of the bill. Cotton, however, was not afraid of any passing from his constituents, and when his name was called just after Jim Boggs had voted, so he seemed to put on extra steam as he shouted out "yes."

It might be said that there is a rumor in circulation that Mr. Cotton will not trot in the same class with Hopkins longer. It is reported on good authority that perhaps even before the legislature adjourns he will take unto himself a wife, but it is believed he will escape the numerous congratulations by waiting until the legislature has adjourned and he has received his salary in full.

Decidedly Shaky.

A trembling hand, an uncertain step, fidgetiness, indicated by restless shifting from one place or posture to another, usually mental annoyance at unexpected noises, are among the indications of extreme nervousness. These seem trifling, but the health of men or women in this condition is "decidedly shaky," liable to be overthrown disastrously by causes which the vigorous might defy. To fortify the nervous system, general vigor must, through the medium of reinforced digestion, and a renewal of an impaired power of sleeping at night, be raised to a beautiful standard. A guarantee of this is Hostetter's Stomach Bitters, which re-establishes digestion, bile secretion and the habit of body on a permanently regular basis, thus renewing that bodily equilibrium, which is followed by a gain of strength and nerve tranquility. For kidney complaint, rheumatism, neuralgia, and as a preventive of the first attack or subsequent return of malarial disorders, this medicine is without a peer. Thrice daily take a wineglassful.

He Hanged Himself.

BEVILL, Tex., Feb. 11.—Augustine Gonzales, sentenced to death for wife murder, hanged himself yesterday afternoon in jail here.

Cheap Excursion to North Galveston, Tex., on the 18th.

See Holwick & Youngblood for full particulars, 327 West Superior street.

Wirth's Sarsaparilla is the best blood medicine.

Winter Tourist Rates. Are now in effect via the "St. Paul & Duluth R. R.," to principal resorts in Florida, Georgia, Alabama, Mississippi, Louisiana, Texas, California and Mexico, including Jacksonville, St. Augustine, Indian River points in Florida, Galveston and Houston, Texas, Los Angeles, San Diego and San Francisco, Cal., at lowest rates, with choice of variable routes. For particulars and rates, call at

City Ticket Office, 438 West Superior street, The Spalding, F. B. Ross, Nor. Pass. Agent.

Try Wirth's German Lung Balsam.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last winter, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and speak well of it." Fifty cent bottles for sale by druggists.

Cullum, dentist, 702 Palladio building.

For Sale. Nine room hotel, only five blocks from the postoffice, with all modern improvements; city water, furnace, electric light; at \$500. \$500 cash; balance in monthly payments to suit the purchaser. Call at 109 Palladio building.

Doctors? Pah! Take BRECHAM'S PILLS.

SHERIFF'S EXECUTION SALE.

Under and by virtue of an execution issued out of and under the seal of the district court, of the state of Minnesota, in and for the Eastern judicial district, and county of St. Louis, on the 25th day of January, 1893, upon a judgment rendered January 25th, 1893, in a judicial sale, of the city of Duluth, state of Minnesota, and docketed in said district court and county of St. Louis in an action thereon, wherein Wells-Sutton Mercantile Co., a corporation, was plaintiff and Edmund Land & Iron Co., a corporation, defendant in favor of said plaintiff and against said defendant, for the sum of four hundred and 50 cents, which said execution has to me, as sheriff of said St. Louis county, been duly directed and delivered. I have served upon and will sell at public auction, to the highest cash bidder, at the front door of the court house in the city of Duluth, in and county of St. Louis, on Saturday the 24th day of March, 1893, at ten o'clock in the forenoon of that day all the right, title and interest that the above named judgment debtor had in, and to the real estate hereinafter described on the said judgment, the description of the property being as follows, to-wit:

The northeast-quarter (nw 1/4) of section twenty (20).

The southeast-quarter of the northeast quarter (se 1/4 of nw 1/4). The west one-half of the southeast one-quarter, 3/4 of sec. 23. The northeast-quarter of the southeast one-quarter of the southeast one-quarter (ne 1/4 of se 1/4 of se 1/4) north range 15 east, T. 11 N., R. 15 E., according to government survey thereof.

All said lands lying and being in the county of St. Louis and state of Minnesota.

Dated Duluth, Minn., Feb. 14, 1893.

W. J. SHERIFF.

Sheriff St. Louis County, Minn.

By H. B. ABERNETHY, Deputy.

WHITE & HUNTER, Attorneys for judgment creditor.

LARGEST CIRCULATION IN DULUTH.
Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

The Weather.
Feb. 14.—The storm that was over the South-
west yesterday has moved northeast and now
extends in the form of a narrow trough from
Lake Superior to Missouri, with two centers,
one over Minnesota and the other over the
Missouri river. It is falling along the eastern
side of the storm and the heaviest rain is
precipitation has been scattered over the
country and has not been confined to any particular
section. The heaviest snow to have been over
Missouri and Arkansas, while the fall over West-
ern Minnesota amounted to about two inches.
A decided fall in temperature has occurred
over the country to the north and west of here,
and a similar fall may be expected in this sec-
tion before tomorrow morning. The zero line
runs through Western Minnesota, nearly south
to the center of South Dakota, and then north
to the west, through Wyoming and Southern
Montana. The lowest temperature reported is
20 below at Fort Buford and Silver City.
Others below zero are: Harro, Mont., 12; Hel-
ena, 18; Vincent, 12; Bismarck, 12; and Min-
neapolis, 17. The warmest places are Rapid, Minn.,
and Fort Smith, Ark., at above zero.
At Duluth and St. Louis it is 10, while at Knox-
ville, Tenn., it has fallen to 34.
The storm will pass this section today and be
followed by fair weather tomorrow, and the
temperature may be expected to fall very
decisively by tonight. The heaviest here yesterday
was 30; the lowest last night 21.

DULUTH, Feb. 14.—Light snow, followed by
drizzle this afternoon; fair Wednesday; de-
cisively colder; winds shifting.
R. H. Haggren,
Local Forecast Official.

WASHINGTON, Feb. 14.—Forecast till 8 p. m.
tomorrow: For Minnesota: Generally fair
Wednesday; prevailing winds from the west;
in eastern portion: westerly winds; cold wave
in eastern portion Wednesday morning; rising
temperatures.

Transmission of Power.
Some time ago The Herald published
an article on the developments which
have taken place in recent years in the
transmission of power by electrical
methods, and prophesied that the day is
not far distant when the great water
power of the St. Louis river will be
transmitted in this manner to Duluth,
which will result in the greatest in-
dustrial growth ever seen at the head
of the lakes, the extent of which cannot
even be conjectured at this time. Re-
ference was made to the successful ex-
periments which have been made in this
line at Frankfort, Germany, and to the
more recent utilization of the water
power at Niagara Falls, which is being
transmitted to Buffalo and neighboring
points.

In the last number of the Age of Steel
there is an article on the same subject,
in which it is pointed out while the
transmission of power by electrical
methods is by no means matured, it has
so far been developed as to make it
in point of efficiency, in cases of long dis-
tance, superior to any of the purely me-
chanical systems as yet in practice. Its
further extension in that direction is
simply a matter of time and intelligent
experiment. It is not to be expected
that our knowledge of so lately applied a
force is as yet thorough in its research
or equipment, while it is equally certain
that whatever its possibilities may be,
they will in time be ultimately appropri-
ated. In the transmission of power its
opportunities of service are multifarious
and important, and it is in this direction
as much as in any other that its final
embodiment of practical good will be
realized.

In purely mechanical methods, as the
Age of Steel points out, we have the ser-
vice of belts and shafts for limited dis-
tances, with the use of the wire rope
where the distance exceeds the capacity
of the agents named. Transmission by
steam, by hydraulic means and pipe
distribution is not in every way favor-
able, though in an economic sense its
operation when in connection with gas
as fuel is not without its advantages. In
the transmission of power by compressed
air its availability for greater distances
is in its favor, its efficiency being in-
creased about 20 per cent if the air be
heated.

In the matter of electrical transmis-
sion different methods are avail-
able. As before stated, the full
development of the electric
system is as yet unattained, though
science is practically in touch with every
suggested possibility. These threads as
yet unweaved in the loom are in sensitive
search for practical use, and will drop
into place as science pines its deft and
ceaseless shuttle. We have the Ni-
agara example, the Frankfort demon-
stration and the Swiss installations, each
and all of which are but the inception
or nucleus of greater accomplishments.

Science is so far assured of available
efficiency that a European firm has sub-
mitted plans for the carrying of horsepower
power from a specially designated motor dy-
namo it is made possible to transmit
energy from otherwise inaccessible
sources to considerable distances and
for any desired purpose. By what is
technically known as the tri-phase cur-
rent, many of our large water powers now
going to waste could be utilized. The
whole matter is not a question of possi-
bility, but of perfected methods. These
will be worked out step by step, each
link of the chain revealing
the next of the series, till what are now
secrets and problems are understood and
applied facts.

With such a magnificent water power

as the dallas of the St. Louis, Duluth is
favorably situated for illustrating the
possibilities of transmitting power in
this manner, and with the rapid progress
that is being made in reducing what is
now a possibility into an exact scientific
fact, the time for this great event in Du-
luth's history cannot be postponed much
longer. Although the developments in
electrical methods appear great and
wonderful, this department of science is
yet in its infancy and the discoveries
which will yet be made in that direction
will undoubtedly be even more astonish-
ing.

Causes of Failures.
The last number of Bradstreet's con-
tains an elaborate study of the business
failures in the United States and Canada
last year, made in pursuance of a plan
to test credit ratings by commercial
agencies. The work involved an exami-
nation of the records of more than 1,181-
360 firms, individuals or corporations re-
corded in 1892 as possessing a distinct
place in the business world. To carry
out this work information has been se-
cured from more than 100,000 corre-
spondents at 77,917 cities and towns,
covering 3,600,000 square miles of ter-
ritory in the United States and Canada.
Notice was taken only of failures which
resulted in loss to creditors.

Duluth, the answer is that loss from
failure of another was practically guard-
ed against in 93 instances out of every
100 failures in 1892; for 93 per cent of
the 11,932 concerns which failed in the
United States and Canada had no credit-
rating, or only very moderate credit. It
is worth noting also that this proportion,
93 per cent, shows some improvement in
the work of the institution recording
credits, because like indications in 1891
comprised only 92 per cent, in 1890
only 91.0 per cent, in 1889 only 92 per
cent, in 1888 only 91 per cent, and in
1887 only 91.3 per cent.

The element of insufficient capital
constituted a primary cause of failure in
the United States, the total for 1892 be-
ing 3343 out of an aggregate of 10,750, or
32 per cent, though it is gratifying to
note the proportion is smaller than in
previous years, it having been 39 per
cent in 1891 and 38 per cent in 1890.
Liabilities of those failed last year from
this cause aggregated \$29,376,000, or less
than one-half of the corresponding total
in 1891 and only two-thirds of the like
aggregate in 1890.

Failures due to incompetence, irre-
spective of other causes, have not varied
as much within three years as have those
due to lack of capital, as they numbered
1916 last year, or 18 per cent of the whole
number as compared with 16 per cent of
the total failures due to that cause in
1891 and 19 per cent in 1890.
Under the head of disaster,
which includes commercial crises, crop
failures, fire, etc., there were 1974 fail-
ures in 1892 as contrasted with 167 per
cent in 1891 and with 127 per cent in
1890. The record of ravages from this
cause (or series of causes) is thus seen to
have been an increasing one of late.

The record of business failures in the
United States in 1892 due to fraudulent
disposition of property is not an en-
couraging one, comprising as it does 103
per cent of the whole number in that
year, compared with 7 per cent in 1891
and only 4 per cent in 1890. Liabilities
due to fraudulent failures in 1892 aggre-
gated \$10,191,000, out of a grand total of
liabilities of all failing traders of \$105,
\$200,000, about 9 per cent. In 1891 the
total was \$13,130,000, or nearly 7 per
cent, and in 1890 the total was \$175,932,
000, about 4 per cent.

Heavy decreases in total liabilities
from 1890 to 1892 have been in failures
caused in the last instance by lack of
capital 35 per cent, due to disaster 33
per cent, to failure of others 65 per cent,
to speculation 65 per cent, and to grant-
ing credit unwisely 36 per cent. Li-
abilities of those failing due to fraudulent
disposition of property show, on the
other hand, an increase from \$5,612,000
in 1890 to \$10,191,000 in 1892, after hav-
ing aggregated \$13,130,000 in 1891.
Bradstreet's has performed a great ser-
vice to the commercial world by the col-
lection and classification of these im-
portant statistics.

The Festival of Cupid.
It is a happy custom that is associated
with the celebration of the festival of St.
Valentine. Just how Cupid became con-
nected with the day is not very clear, be-
cause the saint whose birth is thus com-
memorated is not known to have been
looked upon with favor upon the god of love.
Valentinus, in fact, was a bishop and a
martyr, and his thoughts were probably
largely concentrated on things not ter-
restrial.

It may be claimed, however, that love
itself is "not of the earth, earthy," but is
a condition of a more exalted nature,
and some young ladies have even been
heard to murmur that it is "a heavenly
state." Hence Valentinus, when regard-
ed in the light of the common views en-
tertained respecting bishops and mar-
tyrs, may be greatly misjudged and he
may, indeed, have been a great admirer
of Cupid and one of his most daring
aides in the siege of the hearts of the
fair maidens who dwell in ancient Rome.
Sometimes Love breaks the hearts of
the unduly susceptible, while in other
cases he heals the wounds of a cardinal
nature. In Germany and Italy, we are
told, St. Valentine is now invoked as a
curing power in cases of epilepsy and
cognate afflictions, and if Cupid is able
to give the world fits of intense affection
why should not the patron saint also

have the power to remove the afflic-
tion?
But no matter what was its origin, St.
Valentine's day will always hold a prom-
inent place on the calendar, and the
world-admired lovers, regardless of the
character of the saint for whom the day
is named, will continue to send tender
missives to each other at this time. The
happy custom will be perpetuated as
long as Love's rule continues, and it cer-
tainly would be a cheerless world with-
out the tinge of romance thrown around
its social life by Cupid's merry pranks.

Mr. Hill Might Explain.
Some of the Duluth jobbers are quite
curious to know whether James J. Hill
in his address on "The Railroad Situa-
tion" at the jobbers' banquet tomorrow
night will explain away that arbitrary
charge of \$3 per car which is made on
every car of commodities shipped out of
Duluth on his line. At points where
competition arises because of the entry
of other roads into the carrying arena,
this charge is not made, or else it is ab-
sorbed, but to points which are purely
local on the Great Northern line the Du-
luth jobber must pay \$3 more for the
Superior jobber.

This includes the coal companies, the
salt men, the cement men, the iron men
and others. Very frequently the profit
on a carload of salt, for instance, is at
the low rate of 2 or 3 cents a barrel, or
about \$3 a car, hence the Duluth jobber
is forced, in order to get that \$3 differ-
ential, to score his salt or other commodi-
ties on the Superior side. The Great
Northern probably has 200 local to one
competitive point, and at all of these
places the Duluth jobber has to grin and
bear the \$3 extortion.

The News Tribune reiterates that the
committee report on the bridge question
was not adopted by the council, and
quotes President Hugo in support of its
statement. If Mr. Hugo be correct,
then the city clerk and the two reporters
who were present at the meeting must
be seriously mistaken, because they
assert most positively that the report
was adopted, and several aldermen ex-
press a similar belief.

In another column will be found an
interesting little interview which a
Washington correspondent had with
Maj. Baldwin. It is in reference to the
disintegration of parties, and cites many
facts to show that the great political par-
ties are now in process of reorganiza-
tion. Party lines are shattered and
the parties are reforming on new lines.
The war is over, and the issues raised
by that great event in the nation's history
are dead and buried.

Charles W. Gardner, Rev. Mr. Park-
hurst's "agent" in the suppression of
vice in New York, has been convicted of
blackmailing the keeper of a disorderly
house. Mr. Parkhurst's crusade was a
serious mistake on his part. When he
invaded the dives as a detective and re-
former, he weakened his power in the
pulpit.

The New York Herald has just dis-
covered that there is an insurance com-
pany in the East that controls rates ab-
solutely and crushes companies that op-
pose it. This is an old story to the
West, where there are almost daily ex-
emplifications of the combine's exist-
ence.

The secretary of the North Galveston
bridge company has returned the
Duluth-Superior bridge company's bill
to the senate committee, with certain
amendments recommended by the en-
gineering corps, and on the strength of
this the News Tribune asserts that the
bill "has been approved by the secretary
of war."

The morning paper, which is controlled
by Messrs. Mendenhall and Hartley,
praises the bridge bill fathered by
Messrs. Mendenhall and Hartley and
denounces all other bridge bills, and
then it asks the public to consider it an
impartial critic! Fough!

The North Galveston Brick Plant.
The kiln of red pressed brick that was
opened a few days ago at North Galves-
ton, Tex., revealed a quality of material
which was pronounced by experts as fully
equal in density, durability and color
to the best St. Louis pressed brick. The
North Galveston brick company is a
very big concern. The machines, build-
ings, yards and general capacity equals
some of the best plants in the country.
More factories being built, a steady in-
crease in population and an abundant
influx of capital seems to be the present
record of this thirty young city. For
particulars call or address Holwick &
Youngblood, 327 West Superior street,
Duluth, Minn., the local agent, or ad-
dress the North Galveston association,
box 663, Minneapolis, Minn.

Miles' Nerve and Liver Pills.
Act on a new principle—regulating the
liver, stomach and bowels through the
nerves. A new discovery. Dr.
Miles' Pills speedily cure biliousness, bad
taste, torpid liver, piles, constipation.
Unexcelled for men, women and chil-
dren. Smallest, mildest, surest! Fifty
doses, 25 cents. Samples free at all
druggists.

**RADFIELD'S FEMALE
REGULATOR**
has proven an infallible
specific for all irregu-
larities peculiar to the
female system, such as
womb and ovarian dis-
eases, and in fact it
regulates and promotes
healthy action of all func-
tions of the generative
organs. Young ladies at
the age of puberty, and
older ones at the meno-
pauze, will find it the
highest recommendation from promi-
nent physicians and the best
written book "To Women," mailed free. Sold
by all druggists. RADFIELD REGULATOR CO.,
Proprietors, Atlanta, Ga.

WOMEN IN POLITICS.

**Mary E. Bartlett Has Achieved Some Dis-
tinction in Wyoming.**
Wyoming has had woman suffrage as
territory and state for 23 years, and during
all that time no woman has held any office
of high grade. In truth, so far as respon-
sibility is concerned, a justness of the
peace has been the highest, but they have
held many offices of a clerical nature, and
now Mrs. Mary E. Bartlett has received five
votes in the legislature for United States
senator.

The lady was born about 40 years ago in
Chicago, where her father, Zebina East-
man, was a prominent antislavery man and
personal friend of Abraham Lincoln. Their
parent named him in honor of Bristol,
England, at which place he remained many
years, and there his daughter was educated.
She went to Wyoming in 1878 and has
since resided in Laramie county, where she
has a husband and four children. She went

MARY E. BARTLETT.
into politics as a Republican and organized
a woman's Republican league, but early
in the last campaign she became a Popu-
list.

When the present legislature convened,
her husband, Mr. I. S. Bartlett, was a candi-
date for the house clerkship. That body
defeated him and gave the place to his wife.
It was something of a joke, but she has
filled the place most creditably, and when
the deadlock over the United States sena-
torship had continued for some time the five
Populist members cast their votes for her
and considerable applause in the galleries.
Of course she had no hope of being elected,
but felt highly complimented by the vote.
It is a singular fact that so little is
known by the country at large as to the ef-
fects of woman suffrage in Wyoming, and
that the testimony thereon is so contradic-
tory. As that commonwealth has had 23
years' experience, while its neighbors—Col-
orado, Montana and Idaho—retain the old
system, it would seem that we should by
this time have some basis for comparison.
Yet it is certain that the women of Wy-
oming desire to retain the suffrage, and Mrs.
Bartlett is among the most positive on the
subject. She has contributed political ar-
ticles, sketches, short stories and transla-
tions to the press, has made several politi-
cal speeches and is now writing a story of
the Wyoming cattle war for publication.

Dan Rice and His Circus Jokes.
Dan Rice, the ex-circus clown, has cele-
brated the 70th anniversary of his birth.
Some of the circus jokes, which are still in
use and with which Rice was wont to bring
laughter half a century ago, might appar-
ently be included in the exhibit of 1893
relics at the World's fair.

Strong Evidence.
Mamie—Why do you think he's en-
gaged to her?
Maud—He takes her to the theater in
a street car now, and he used to have a
carriage every time.—Chicago News-
Record.

Fair Warning.

and you'll wish you had let me alone.—
Life.

Wedding Rings

are always in demand, and es-
pecially so at this time of the year.
Conquered swains are
now in the ring to become ben-
edicted, and we are in it too, not
as possible benedicted, but to
supply those beautiful hoops of
gold which are the symbols of
hearts bound together. Our
rings are warranted 18 karats
fine, and are the finest to be
seen in Duluth or elsewhere.
Many fair fingers are encircled
with them now, but many more
are left, both of rings and brides
expectant. While Hymen rules
and bridal fingers claim their
own, our stock must be in de-
mand. The rings are in the
store now. Come before they're
gone.

The New!

"If I had anything at all, I
would have something new
—if it were in the line of
wearing apparel," said my
lady.

Now, a thing may be new
and not good, yet must be
new to be good.

They're In!

That is, the World's Fair
Traveling Caps.
See Them. SECOND
FLOOR.

Em- broidery And Linen Time!

What a getting of Embroid-
eries and Linens—neither
line was ever more beautiful
or more moderate in price.
The narrow edgings in Em-
broideries are selling in ex-
cess of other widths. We
suppose it is owing to the
demands of the little ones;
they must have the very
daintiest and nicest, you
know.

Household Linens.

Everyone seems to have
needed Linens at once—and
nice Linens, too. Solid Irish
and German Damasks are
selling very speedily, while
there is a goodly buying of
India Linens and Butchers'
Linens, and of course the
Towels in all grades are be-
ing purchased very freely.

A Few Choice Gingham's, That is, Imported Gingham's, Are In.

Get your Organdies and such
gowns now, and thereby not
only have the choice of the
season, but the advantage of
making them up to have
ready.

NOTICE OF MORTGAGE SALE.
Whereas default has been made in the con-
ditions of a certain mortgage duly executed and
delivered by (unnamed) Hartman General
Electric Company, to William E. Lucas mortgage,
bearing date the 1st day of October, A. D. 1891,
and with a power of sale therein contained,
duly recorded in the office of the register of
deeds in and for the county of St. Louis, state
of Minnesota, on the 26th day of October,
A. D. 1891, at 2 o'clock and 30 minutes p. m., in
book 56 of mortgages, on pages 81, 82, 83 and 84;
which said mortgage was thereafter duly as-
signed by said William E. Lucas to L. S.
Leonard, by an instrument of assignment duly
recorded in the office of the register of deeds in
and for said St. Louis county, on the 31st day
of October, 1891, at 9 o'clock a. m., in book 72
of mortgages on page 57.

And whereas said mortgage and the principal
not thereby secured, contain provisions that if
any default be made in the payment of any in-
stallment of interest, or of any of the interest
coupon notes thereby secured, or any part
thereof, on the day whereon the same is made
payable and such default continue for the space
of ten days, then and in every such case the
whole of the principal sum hereby secured, and
all accrued interest thereon, shall immediately
become due at any time thereafter, due and
payable at the option of the legal holder of
said note, notice of said option being therein
waived.

And whereas default was made in the pay-
ment of the semi-annual installment of interest
upon said note and mortgage, due January 1,
1892, and the interest coupon note given for the
same, amounting to the sum of twenty dollars,
the payment of which was secured by said
mortgage, and such default has continued for
more than ten days after the same became pay-
able, by reason whereof the undersigned, legal
holder of said note, has elected to exercise and
option, and has declared, and does hereby de-
clare, the whole principal sum secured by said
note and mortgage, with all accrued interest
thereon, to be now due and payable.

And whereas there is therefore claimed to be
due, and there is actually due, upon said mort-
gage debt, at the date of this notice, the sum
of five hundred twenty-three and 25/100 (\$523.25)
dollars, principal and interest, and fifty dollars
attorney's fees stipulated for, in said mortgage
in case of foreclosure thereof.
And whereas in action or proceeding at law
or otherwise has been instituted to recover the
debt secured by said mortgage or any part
thereof,
Now, therefore, notice is hereby given, that
by virtue of the power of sale contained in said
mortgage, which has become operative, the sum
of the default above mentioned, and pur-
suant to the statute in such case made and pro-
vided, the said mortgage will be foreclosed by a
sale of the premises described in and covered
by said mortgage, viz: All the tracts or por-
tions of land lying and being in the county of St.
Louis, state of Minnesota, described as follows:
To-wit: All of lot numbered thirteen (13) and
fourteen (14), in block numbered two hundred
ninety-four (294), West Duluth, Fourth division,
as recorded in the recorded plat thereof on file
of record in the office of the register of deeds in
and for said St. Louis county, Minnesota;
which said premises, with the hereditaments and
appurtenances, will be sold at public auc-
tion, to the highest bidder for cash, to pay said
debt and interest, and the taxes (if any) on said
premises, and fifty dollars attorney's fees, as
stipulated in and by said mortgage in case
of foreclosure and sale of the premises, and
whereof said sale is to be held on the 1st day
of March, A. D. 1893, at 10 o'clock a. m., of that day, subject
to redemption at any time within one year from
the day of sale, as provided by law.
Dated January 31st, A. D. 1893.

THE DISTRICT COURT

The Grand Jury Completes Its Labors, Receives the Usual Thanks and is Discharged.

Six More Indictments Are Returned—Lizzie Weathers Pleaded Not Guilty to Murder.

The Case of La Page vs. Richards Lumber Company Has Gone to the Jury.

The members of the grand jury visited the poor farm, the hospitals, jails and lockups yesterday and handed in their report together with six more indictments in the afternoon. They were thanked and discharged. The new indictments are as follows: Al Ryan, alias Garrington, grand larceny in the second degree; John Coughlin, same charge; J. Herman, same charge with two counts.

This morning the case of the St. Paul and Duluth Railway company vs. the city of Duluth was continued on motion of the defendant, because the city attorney was otherwise engaged and the complainants would not suffer by reason of the delay. The case of O. G. Traphagen et al vs. J. D. Howard is still on trial.

Before Judge Searle, in room 2, the case of Joseph La Page vs. B. B. Richards Lumber company has reached the jury and will be determined today. The next case before Judge Searle will be W. E. Ashin vs. J. C. K. Charest, and the case of O. G. Traphagen et al vs. John D. Howard will be the next issue tried before Judge Ensign. It is similar to the action now being heard.

Yesterday afternoon Lizzie Weathers, indicted for murder in the first degree, pleaded not guilty, through her attorney, J. C. Hollenback. A. W. Scamman, indicted for grand larceny in the second degree, pleaded not guilty, and Moer, Towne & Harris will defend him. Geo. Gilman pleaded guilty to grand larceny in the second degree, through E. F. Alfred, his attorney.

The case of the St. Paul & Duluth railway vs. J. G. and A. L. Howard was continued by consent. The case of Mary K. Frost vs. Asa D. Frost was settled and stricken from the calendar. Juries were waived in the following cases and the actions placed on the court list: The matter of the estate of E. L. Emery, deceased; Andrew Swanson vs. W. C. Doherty et al; F. H. Quinby et al vs. H. Shearer et al. The case of J. H. Sheridan et al vs. Chandler Iron Co. et al was passed to the foot of the jury calendar.

Endorsed by Wallace.
The preliminary preparations for the spectacular pantomime "Ben Hur" are being made and the managers and drill masters will be here soon to train the men who will take part. This is the only exhibition of "Ben Hur" which is endorsed by Gen. Lew Wallace, the author, and Messrs. Clark & Cox are the sole proprietors.

A Point for the Ladies.
Intelligence Exchange, Boston: It is very gratifying to notice the decline of the custom of sending abroad for merchandise, which has been brought about by ladies discovering the fact that they have been prey to a monster imposition. In truth it has not been an age ago, when it was quite the proper thing to say: "I have all my clothes made abroad," etc., by pretentious dressers. But today such assertions are only heard from those who really have a studied experience in dressing, or in other words one or two Paris orders usually is quite a sufficiency. "La Belle Americaine" is the name for Parisians since the war was. The mail order business done by Boston shops with Western ladies is a good illustration of how nicely the scheme works to dispose of passe stuffs.

One of our leading merchants is authority for the statement that through their Western mail order business they have an outlet every season for everything carried over from the previous seasons business, and we suppose many Western ladies pride themselves upon the fact that they order their things from Boston and New York, when more than likely they have a merchant at home where they could obtain new things, as it is as easy for him to obtain the extreme wares as any one else as the manufacturers both at home and abroad have placed themselves in touch with all retailers West and East.

The above clipping we consider should be read over twice by all the ladies of Duluth and tributary localities. Theatrical people, tourists and Eastern people visiting Duluth all say that Haynes & Co. certainly show the latest creations in ladies' merchandise, and even concede that prices are astonishingly low here.

WILL BE REBUILT.
B. F. Howard Says His Saw Mill Will be Running in Sixty Days.

B. F. Howard says his mill burned a few days ago will be rebuilt and running again inside of sixty days. He sent a crew of fifty men up to Mountain Iron on the Duluth, Missabe & Northern road this morning to commence work on his contract for sawing 5,000,000 feet of square timber for the Onondaga ore docks. He has two portable saw mills on the ground and will send up 100 additional men next week.

Stanford's electric fluid at Max Wirth's drug store.

Heart Disease Curable.
The truth of this statement may be doubted by many, but when Dr. Franklin Miles, the eminent Indiana specialist, claims that heart disease is curable and proves it by thousands of testimonials of wonderful cures by his New Heart Cure; it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, with stomach, pain in side or shoulder, smothering spells, fainting, drowsy, etc.

A. F. Davis, Silver Creek, Neb., by using four bottles of Dr. Miles' New Heart Cure, was completely cured after twelve years suffering from heart disease. This wonderful remedy is sold by all druggists. Books free.

WHEAT VERY DULL TODAY.
Trading Was Restricted Entirely to the May Future.

The wheat market was dull today. It opened easy with first trading in May at 4c below Saturday's close and sold off 1/4c more. After noon it recovered 1/4c and closed at Saturday's figures. Cash wheat was entirely neglected. The close was unchanged for May and July and 1/4c lower for September for cash and February, as follows:

May, 74 1/2c; July, 75 1/2c; September, 76 1/2c; No. 1 hard, cash, 70 1/2c; February, 70 1/2c; No. 2 hard, cash, 69 1/2c; February, 69 1/2c; No. 1 northern, cash, 71 1/2c; No. 2 northern, cash, 70 1/2c; No. 1 hard, 70c; No. 2 hard, 69c. On track—No. 1 hard, 70c; No. 2 hard, 69c. Receipts—Wheat, 14,000 bus. On track, 30,000 bus. Cars on track, 74; last year, 29.

Weekly Flour Statement.
Following is a statement showing the production, shipments and quantity of flour in store by the mills at Duluth and Superior for the week ended Saturday, Feb. 11, 1893:

Duluth Mills.
Barrell's Barrell's Barrell's
Superior mills 2,500 2,500 None
Totals 2,500 2,500 2,500

The flour market was heavy and dull all the week and sales were limited. The flour is in demand at outside prices. The mills at Duluth only a part of the time and at Superior but two days.

Weekly Statement.
Showing the stock of grain in store at Duluth (by grades) for the week ending Saturday, Feb. 11, 1893:

No. 1 hard wheat. Bushels.
No. 1 northern wheat. 12,877,003
No. 2 northern wheat. 1,822,583
No. 3 spring wheat. 181,430
No. 4 spring wheat. 15,442
No. 5 spring wheat. 67,820
No. 6 spring wheat. 107,650
Total wheat in store. 15,821,538
Afloat in harbor. 271,100
Total. 16,092,638

Outside Markets.
Chicago, Feb. 14.—The close: Wheat, February, 74 1/2c; May, 75 1/2c; July, 76 1/2c; October, 77 1/2c; No. 1 hard, 70 1/2c; No. 2 hard, 69 1/2c; No. 1 northern, 71 1/2c; No. 2 northern, 70 1/2c; No. 3 spring, 71 1/2c; No. 4 spring, 70 1/2c; No. 5 spring, 69 1/2c; No. 6 spring, 68 1/2c. On track—No. 1 hard, 70c; No. 2 hard, 69c; No. 1 northern, 71c; No. 2 northern, 70c; No. 3 spring, 71c; No. 4 spring, 70c; No. 5 spring, 69c; No. 6 spring, 68c.

New York Stocks.

STOLE THE DIAMONDS

The Show Window of a Jewelry Store in Cincinnati Broken and Precious Stones Stolen.

It Was a Bold and Desperate Job and the Perpetrators Easily Made Their Escape.

Among the Property Stolen Was a Diamond Stud Weighing Eighteen and a Half Carats.

CINCINNATI O., Feb. 15.—The show window of Simper Bros' jewelry store, No. 281 Vine street, was robbed of \$2000 worth of diamonds at 8 o'clock last night. At that hour S. G. Simper, who was sitting on a counter about twenty feet from the door, was startled by the crash of the big plate glass window. Before he could move, four hands closed upon a tray of diamonds and in a twinkling it gone.

Simper dashed out of the door and out on Vine street in hot pursuit of two men, who ran swiftly to the alley, a short distance down the street, and were soon lost to their pursuers in view of the darkness. When Simper reached the alley, it occurred to him that his store was left alone and he at once returned to it. A crowd of people were there in advance of him looking upon one of the boldest jobs of desperate robbers that Cincinnati has furnished in a long time.

There was a big hole in the glass about a foot in diameter but the entire pane was shattered, cracks that diverged from the hole appearing all over the surface. Inside the window the brick lay, where the diamonds had been. The work was so quickly done that nobody knows much about it. Detectives were put in possession of all facts and started in search of the thieves.

The property stolen included a diamond stud 18½ carats in weight, but which was valued at \$1,500 because of imperfections. Had it been perfect it would have been valued at something like \$6,000. Two \$100 rings and a \$150 stud were also among the stolen booty.

IS NOT A PERSONA GRATA.

Chile Excited Over a Report That Egan Will be an Arbitrator.

NEW YORK, Feb. 15.—The Herald's special correspondent at Valparaiso telegraphs that paper that there is great excitement in Valparaiso over the report that the United States Minister, Patrick Egan, is to be appointed one of the arbitrators on the part of the United States to settle the claims of citizens of that country against the Chilean government.

This information was conveyed in a cable message received by Minister of Foreign Affairs Errazuriz yesterday from Washington, in which it was intimated that Mr. Egan would be named as one of the arbitrators for the United States. Should Mr. Egan receive such an appointment as this, trouble from the Chilean government may be expected. Mr. Egan is not persona grata to the Chilean government, and his close relations with Dubies, who holds the leading claims against Chile, are believed to be such as to disqualify him from acting as an arbitrator. The protest, however, if it is officially made against his appointment, would be founded upon the charge that his attitude toward the Chilean government has been officious and insulting.

TO RECEIVE FOREIGNERS.

New York Committee to Entertain the Notables From Abroad.

NEW YORK, Feb. 15.—Alexander D. Orr, vice-president of the chamber of commerce, has appointed the following men as the committee authorized by the chamber on Feb. 2 to receive and entertain well-known foreigners who may visit this country to attend the World's fair:

Henry Villard, Carl Schurz, Woodbury Langdon, Morris K. Jessup, Chauncey M. Depew, John Bigelow, Charles S. F. Child, J. Pierpont Morgan, William Steinway, Abram S. Hewitt, Samuel D. Biscock, August Belmont, Oscar S. Strauss, John Austin Stevens, James W. Tappin, Vernon H. Brown, Seth Low, Charles S. Smith, Whitelaw Reid, John D. Rockefeller, John S. Kennedy, William K. Dodge, Horace Porter, Andrew Carnegie, J. Edward Simmons, Cornelius N. Bliss, George Rutledge Gibson, John Franklin, J. Seaver Page and Louis Windeler.

The men have consented to serve, and meeting of the committee will be held in the rooms of the chamber on Friday at 2 p. m. to organize and name sub-committees.

Farmer Killed Instantly.

STAPLES, Minn., Feb. 15.—John McGillivray, a farmer, who resided four miles south of this place, while driving his team across the Northern Pacific railroad tracks on the Sixth street crossing, was struck by a flat car, which was being switched. McGillivray and one of the horses were instantly killed. He leaves a wife and six children.

Whipped by White Caps.

CLARKSVILLE, Tenn., Feb. 15.—White Caps are at work in this part of the state again. Monday night a band of them visited two houses in the neighborhood of Lynchburg. At one place Sam Anderson and Thomas Mullins were taken out and violently whipped and maltreated. The White Caps then visited the house of Kelsor Smith and subjected him to the same treatment.

Stock Attached.

ISHPEMING, Mich., Feb. 15.—Fred E. Caboun, boot and shoe dealer, is in financial straits. Reynolds Bros. manufacturers, attached a portion of the stock on an execution. The stock is heavily mortgaged, and there are several preferred creditors. The extent of the liabilities is not yet ascertained.

DISEASE AMONG CATTLE.

Secretary Rusk Prohibits Shipments From a Certain Section.

WASHINGTON, Feb. 15.—Secretary Rusk has issued a circular to the managers and agents of railroad companies, notifying them that a contagious and infectious disease, known as splenic or southern fever, exists among cattle in a belt of country, which he describes in detail and which extends from Texas through portions of Kansas, Missouri and Tennessee to North Carolina, Virginia and Maryland.

From February 15 to December 1, 1893, no cattle are to be transported from said area to any portion of the United States northwest of the described land, except by rail for immediate slaughter.

GREAT NORTHERN WRECK.

The Through Train From the Coast Ditched and Nine Passengers Hurt. Two Quite Seriously.

GRAND FORKS, N. D., Feb. 15.—The eastbound Great Northern passenger train from the coast, with two engines, was ditched four miles west of Bartlett last night by a broken rail. The train consisted of six coaches.

The sleeper was overturned, the first class coach telescoped, mail and baggage cars badly smashed. Of the twenty-six passengers on board nine were hurt, two seriously. Mr. Cairns, of Bismarck, N. D., was badly bruised, perhaps fatally. An unknown man from Butte also badly injured and is unconscious.

WERE POOR AND DESPONDENT.

An Aged Couple in Indiana Committed Suicide With Arsenic.

FORT WAYNE, Ind., Feb. 15.—Early this morning hunters stopped for shelter at the farm house of John Oesterman near Maples, Ind., fifteen miles east of here. They pushed open the door and found an aged couple, man and wife, dead.

A package of arsenic was near by indicating suicide during the night. The bodies were not yet cold. Oesterman lived on a small rented farm, was poor and evidently despondent.

DASHED DOWN THE INCLINE.

The Cable Broke and Five Persons Received Severe Injuries.

KANSAS CITY, Mo., Feb. 15.—Five persons were hurt by an accident on the incline on the cable road of the Union depot. A car had started up the incline when the cable broke. The train started backward, the safety hook refusing to work.

The train crashed into the waiting room at the foot of the hill and demolished one side of it. George Rine, of Girard, Kansas, jumped before the train reached the bottom of the incline and was the last to get out. Annie and Florence McCoy, colored, were bruised about the body. Edwin Shogran and P. D. McCormick were cut and bruised.

ARRIVED FROM JAPAN.

A Quick Trip Made by the Canadian Pacific Steamer.

VICTORIA, B. C., Feb. 15.—The steamship Empress of China arrived from Yokohama last evening, having been but eleven days and twenty-three hours on the passage. Among the passengers are the Ceylon commissioners to the World's fair and a large party of Singapore.

The steamship brings news from Yokohama that the budget has failed to pass and the members of the Japanese government were thinking of resigning.

FIRE IN CHICAGO TODAY.

A Loss of \$50,000 Caused. Most of Which Was By Water.

CHICAGO, Feb. 15.—Early this morning fire visited the southeast corner of Adams and State streets. The loss is probably not over \$50,000, most of which was by water. The loss is distributed as follows: American Restaurant company, basement, \$30,000; damage to building, \$10,000; W. Hill, wholesale dealer in jewelry located on fourth floor, \$5,000; Dr. A. Owen, electric belt and scientific instruments, second floor, \$2,000; D. White, dealer in crochet goods, third floor, \$1,000; other small firms, \$2,000. All of the losers are covered by insurance.

EIGHT MEN WERE DROWNED.

The Captain and Seven Sailors of a Bark Perished.

LONDON, Feb. 15.—A serious marine disaster is reported. The bark Catalina, owned at Bremen, has been wrecked off the Nall of Galway, and the captain and seven of the crew drowned. Four were saved.

The Catalina was commanded Capt. Schutta, and left Wilmington, in the United States, on Oct. 27 last, for Bowling, a port on Clyde between Dumbarton and Glasgow, and has since been engaged in other traffic.

Satolik Must Settle the Row.

BERGEN POINT, N. J., Feb. 15.—The differences between Father Killen and Bishop Winger over St. Thomas church have been reopened with increased intensity and once more Monsignor Satolik, the apostolic delegate, will be appealed to settle the row.

The Panama Railway.

NEW YORK, Feb. 15.—The Herald special dispatch from Panama this morning says: It is reported here that the French stockholders of the Panama railway company have decided that M. Mange, representative of the Panama canal liquidator, shall be appointed general superintendent of the railroad to succeed Mr. Rives, after the annual meeting in April, when a new board of directors will be chosen.

A Noted Man Dead.

BERLIN, Feb. 15.—Prof. Lindenschmitt, the founder and director of the famous Roman-German museum, died today.

THE NEW GLASS BLOCK STORE

(PANTON & WATSON'S)

FIRST GRAND INTRODUCTION SALE!

Mammoth Bargains for Thursday, Friday and Saturday,

Everybody Invited to Visit Our Grand Bargain Emporium.

We have just finished our annual inventory and, as usual, we will celebrate our success for the past year by giving our thousands of patrons astonishing Bargains for the next three days. From February 1st, 1893, until January 31st, 1894, we are determined to do a business of ONE MILLION DOLLARS, which will make us the second largest consumers of merchandise in Minnesota. This enormous business can only be done by keeping ourselves before the public all the time, and by giving them goods or undisputed merits and at prices that will be without comparison.

FURTHERMORE, From this date we will ignore all would-be imitators and competitors. Our business will be conducted on principles that cannot help making all other merchants respect us as the leaders in our respective lines. But at the same time we will give such values in all departments that will make them envious of our PURCHASING POWERS.

Here are our Bargains for THURSDAY, FRIDAY AND SATURDAY; they ought to bring FIVE THOUSAND PEOPLE into our magnificent store each day.

Take Advantage of This Golden Opportunity!

SILKS.

In our Silk department we have already received many new choice things for early spring wear.

A BATTLE IN KANSAS

It Was Bloodless But Very Exciting During the Short Time That It Was In Progress.

Republican Representatives Storm the House Chamber and Batter Down the Doors to Gain Entrance.

The Populists Retreated and the Governor Has Now Called Out the Militia to Aid Them.

TOPEKA, Feb. 15.—A bloodless but exciting battle took place between the Republican and the Populist houses at the entrance to representative hall this morning. The Populists, who have had possession of the hall in the afternoon, adjourned yesterday until this afternoon, and as has been the custom since the beginning of the session the Republicans expected to hold their regular morning session today, but last night the Populists swore in a large number of sergeants at arms who were placed on guard and the doors and entrances to the hall were locked this morning.

None was admitted to the hall, excepting Populists and members of the press, and they were required to show a pass and run the gauntlet of a dozen guards. The Republicans were fully informed of all these preparations to exclude them from the hall, and last night a hundred men were sworn in as officers of the Republican house.

At 9 o'clock the members of the Republican house with their officers started from headquarters for the state house. They marched through the long corridors leading to representative hall unimpeded. The little column forced its way through the line of guards stationed at the foot of the stairs in the west wing and started up the stairs. On the first landing was a crowd of Populist house officers under command of Adj. Gen. Artz. They were armed, and the advancing Republican crowd went met with the muzzles of revolvers and Winchester.

The adjutant general commanded them to halt, but no stop was made and the advance guard pushed into the crowd of Populists. Three or four of them succeeded in passing the doorkeepers after a brief struggle, and getting into the hall, but the Populists succeeded in closing the door and barring it.

The Republicans on the outside demanded admittance, and when it was denied them, Speaker Douglas swung a large sledge hammer and began to batter the heavy door. The Populists on the inside, who were armed, began to beat a passage way through, but the doors finally gave way, and the Republican legislators surged in, and the hall was theirs. The Populists promptly retreated, and now the Republicans are in full possession of the hall.

Ever since the opening of the session the Populists have had the committee rooms, sergeant-at-arms' room and chief clerk's room. These were all locked and guarded from the inside, but after the house had been called to order, the Republicans battered down the doors and took possession of them. They were met by a line of Populists, each wearing a bright red ribbon, are demanding the aisles and lobbies. The Republicans and Populists are both swearing in officers as fast as possible, to be in readiness for an emergency. The governor is expected to call out the militia today.

With the Republicans in possession of representative hall the interest of the Populists centered about the governor's office. A guard was placed at his door and only faithful Populists were permitted to enter. He issued a call for three companies of militia immediately after the clash in representative hall, and will, when the forces arrive, order them to storm the hall and take possession of it.

Many of the militiamen openly declare that they will under no circumstances respond to the call of the governor and that they will not be a party to an assault on the Republican house. The governor made a demand on the sheriff to swear in deputies and assist him in preserving the peace, but the sheriff declined, saying that he did not propose to be a judge as to which of the claimants was the legal house of representatives. In a letter to the governor he said that if the governor proposed to protect the Dunmore house, that house itself had full authority to enlist all the officers that it required to protect itself without the assistance from him.

The captain of one of the militia companies stated to the United Press representative this morning that if his command came out at all, it would be to defend the Republican house of representatives. He said he would not obey any of the governor's orders which were in violation of law and order. Over 200 men took the oath of office as assistant sergeants-at-arms in the Republican house this morning, and the adjutant general was busy deputizing assistant sergeants-at-arms all day for the Populists.

The Populist house adjourned yesterday until 1:30 p. m., at which hour the next conflict is expected. Populists say they will take possession of representative hall at all hazards and Republicans say that they will not yield, even at the point of the bayonet. That a bloody conflict must come all admit. Perhaps

it will not be today, but there appears to be no way to settle the differences in any other way. As the Republicans took possession of the disputed territory by sheer force this morning, it places them on the defensive and the Populists will be compelled to assume the aggressive.

At 11 o'clock Governor Lewelling sent an order by telegraph to Capt. Willis, of the light artillery at Wichita, commanding him to bring his company with Gatling guns to Topeka and assemble in the state house and await further orders.

YESTERDAY'S SCENES.
Legislators Receive and Give Black Eyes and Bloody Noses.

TOPEKA, Kas., Feb. 15.—Speaker pro tem Herch, of the Republican house, yesterday introduced a resolution, which was unanimously adopted, instructing the speaker to cause the arrest of Hon. Ben C. Rich, clerk of the Populist house, for contempt and for interrupting the proceedings of the legal and regularly constituted house of representatives.

Rich got news of the proceedings and disappeared. Speaker Dunmore, of the Populist house, declared that any attempt to arrest Rich would be vigorously resisted.

The Republican house has also adopted a resolution declaring all the seats held by Populists vacant, unless the holders thereof by next Tuesday recognize the Republican house as the legal body.

Rich was arrested at the Dutton house about 1 o'clock. The news spread and a body of Populists gathered and a fight ensued, which resulted in black eyes and bloody noses. He was then taken in triumph to the hall and took his place at his desk amid applause.

WILL OPPOSE THE BILL.
Kittel Halvorsen Is Going to Oppose the Bill For the West Duluth-Superior Bridge.

WASHINGTON, Feb. 15.—[Special to The Herald.]—Representative Halvorsen, at the request of Maj. Baldwin, is going to oppose the Haugen bill providing for a bridge over the St. Louis river between West Duluth and Superior. Representative Lind, who reported the bill, said to The Herald correspondent today that he did not propose to make any great fight for the Haugen bill, and that he would not insist upon its consideration. As has heretofore been telegraphed there is little prospect for the passage of the bill.

Representative Halvorsen today introduced a bill providing for the construction of a bridge over the St. Louis river between the Wisconsin shore and Rice's Point. By the provisions of this bill the charter is to be granted to Douglas county in Wisconsin and to St. Louis county in Minnesota.

Business Property!
20 by 100 feet, alley corner, on First avenue west, \$10,000; one-third cash, balance 1 and 2 years at 6 per cent.
20 by 100 feet, Second avenue west, one-third cash, balance 1 and 2 years at 6 per cent. Free only \$10,000.

GEO. R. LAYBOURN,
14 PHOENIX BLOCK.

ANNEXATION OF HAWAII.
The Treaty is Ready For Transmission to the Senate.

WASHINGTON, Feb. 15.—The documents in connection with the Hawaiian annexation treaty are all ready for transmission to the senate, and, nothing unexpected arising to prevent, they will be sent to the senate this afternoon.

Accompanying the president's message and the text of the treaty are copies of much of the correspondence between the governments of the United States and Hawaii respecting the subject of annexation, dating back half a century.

The treaty, will of course be sent to the senate for consideration in executive session, but it is expected that the introduction of secrecy will be promptly removed by the senate and the documents given to the public.

The treaty is signed by John W. Foster, secretary of state, and Messrs. Thurston, Castle, Marsden, Wilder and Carter, commissioners on behalf of the provisional government of Hawaii. (For additional particulars see page 7.)

TO REPORT THE CONGRESSES.
Appropriation for Expenses of Reporters for the World's Fair Congress.

WASHINGTON, Feb. 15.—The senate committee on the quadricentennial celebration today decided to report favorably the amendment to the sundry civil bill, suggested by Chas. C. Bonney, of Chicago, appropriating \$50,000 to defray the expenses of reporting, translating and preparing for publication the proceedings of the various congresses and conferences that will assemble at Chicago under direction of the World's auxiliary congress.

FOR SILVER COINAGE

Resolution Passed the State Senate Today Favoring the Free and Unlimited Coinage of Silver.

Senator Daugherty Introduced a Bill By Which Duluth May Build the Ship Canal Tunnel.

The Measure Remedying the Piedmont Avenue Assessment Error Reported Favorably to the House.

ST. PAUL, Feb. 15.—[Special to The Herald.]—In the senate this morning Mr. Sanborn's silver resolution as follows was passed by a vote of 23 to 19:

Resolved by the senate, the house of representatives concurring, that the highest business interests and public welfare of the people of the United States at this time demand immediate repeal of all laws limiting or restricting in any manner free coinage of silver into legal money, and in place of such laws that enactments be passed providing for free, unlimited coinage thereof into money that shall be legal tender for all debts, public and private, and at a standard of weight and fineness of metal in all coins authorized by law to be coined, that in the judgment of congress is best likely to most nearly benefit and maintain the purely intrinsic or market value of the metal entering into and composing the various coins, whether the same be struck from gold or silver.

Resolved, that our senators and members in congress be and they are hereby requested to use by honorable means to secure such legislation as will give practical effect to the principles of the foregoing resolutions.

The following bills were introduced: By Streight, a bill providing for the creation of the office of state commissioner of agriculture, who shall prepare reports and give farmers good advice about raising crops.

Mr. Daugherty introduced the canal tunnel bill today. It provides that any city may construct a tunnel and provide for paying the cost of the same by assessing three-fourths of the cost to the property benefited and issue bonds for one-fourth. The common council is authorized to charge railroads using the tunnel sufficient to pay interest on the bonds for ten years and to create a sinking fund of sufficient amount to pay off the bonds. When the city is fully reimbursed, the tunnel is to be free.

By Mayo, a bill preventing debtors giving certain creditors preference.

By John Day Smith, to provide for the burial of old soldiers and marines who die without means.

By Barr, to amend the injunction law so that an appeal will not continue an injunction in force.

By Glader, to prevent making adulterated baking powder.

The senate today rejected the committee's report to the effect postponing the bill to reduce railroad freight 25 per cent, and placed it upon general orders.

A Duluth delegation consisting of the mayor, the president of the council and the president of the board of public works, were before the house today on municipal corporations last night and after a hard fight against the petition of almost averse property owners got unanimously favorable action in the bill for reassessment of property for improvements when errors were made in former assessments.

A bill passed the senate to pay the presidential electors.

Mr. Young protested against the house committee holding secret sessions and introduced a resolution enforcing his ideas which went over under notice of debate. The time of the house for the last few days has been taken up with introduction of about one hundred bills more or less, appropriating money to build roads and bridges.

By Gorman, a bill providing that the fiscal year of each county shall terminate on Dec. 31 each year.

By Koerner, providing for appointment of a land commissioner by the governor. The bill is designed to correct an error. The present plan of retaining the state land business under the control of the state auditor.

By Wahlund, a bill creating the office of the state commissioner of agriculture and providing for printing 10,000 copies of his report annually.

By Boggs, to provide for the establishment of a state fish hatchery. The state fish and game commission are authorized to select a site. An appropriation of \$25,000 is asked to carry out the provisions of the bill.

By Jacobson, a bill providing that all elevators at terminal points shall be declared public warehouses, except when application is made to the railroad and warehouse commission, certain bins in elevators may be used for drying, curing and otherwise doctoring grain.

GOOD ROADS COMMISSION.

Bills Introduced to Improve the Roads in the State.

ST. PAUL, Feb. 15.—Among the bills for state road improvement introduced in the house yesterday was one by Mr. Greer for the establishment of a state commission to work on the subject the next two years. This bill provides for the appointment of three commissioners, one of whom shall be an experienced and practical civil engineer.

The duties of the commission are to visit the several counties of the state, investigate the leading highways, ascertain as fully as possible the relative merits and defects of the present system and of our present system of road making, repair and maintenance of same as compared with the system of road making practiced in other states, and to ascertain the location of quarries and deposits of stone, gravel and other material which, in the judgment of the commission, may be suitable and proper for the construction and maintenance of firm and durable roads. To further inquire, investigate and determine whether the convicts confined in the penal institutions of this state can be employed in any practical way in the work of improving the common roads, or in the making of drain tile, other material or utensils generally used in the work of making or repairing common roads.

To make and fully report in detail the result of their investigation with their recommendation to the next incoming legislature.

Five thousand dollars, or so much thereof as is necessary, is to be appropriated to carry into effect the provisions of this act.

Senator Mott, for the good roads committee, introduced a bill proposing an amendment to section 1 of article 9 of the constitution, which would authorize counties and towns to adopt a system of assessing the cost of highways upon benefited property holders. The proposed amendment is as follows:

And further provided that the legislature may by general law authorize counties and towns to assess the cost of local highways, upon real property fronting upon such highways, or upon real estate to be benefited thereby, with regard to the cash valuation, and in such manner as the legislature may prescribe.

If the amendment carries, the governor shall within ten days after the result shall have been ascertained, make proclamation thereof and the amendment shall thereupon take effect and be in force.

SMASHUP ON THE BIG FOUR.
A Train of Empty and a Train of Merchandise Collided.

CINCINNATI, O., Feb. 15.—A big smashup occurred on the Big Four tracks between the old avenue baseball grounds and Cummingsville this morning about 5 o'clock. A blue line switch engine, hauling forty empties, collided with a Big Four car, which was being loaded with merchandise.

The locomotive went through two cars. The engineer, conductor and fireman, in jumping it on the edge of a thirty-foot embankment, and after being unable to regain their balance, tumbled headlong down the steep hill. All landed in a heap in the mud below, but with the exception of a few scratches none of the men were hurt.

The loss is estimated at \$7,000 to the rolling stock, to say nothing of loss in merchandise, which cannot as yet be estimated.

THE TREASURY STATEMENT.
The Condition of Uncle Sam's Finances Presented.

WASHINGTON, Feb. 15.—The treasury department's statement yesterday was: Net gold on hand Feb. 13, \$111,027,674; Feb. 14, \$108,906,248; decrease, \$2,121,426. Net legal tenders on hand Feb. 13, \$12,770,757; Feb. 14, \$10,167,672; decrease, \$2,603,085. Net silver on hand Feb. 13, \$7,853,971; Feb. 14, \$12,073,801; decrease, \$4,219,830. Actual cash in the treasury vaults over outstanding certificates, Feb. 13, \$13,066,605; Feb. 14, \$13,029,007; decrease, \$37,598. Deposits in bank Feb. 13, \$10,590,124; Feb. 14, \$10,101,034; decrease, \$489,090. Cash balances Feb. 13, \$14,251,120; Feb. 14, \$14,203,985; increase, \$47,135.

CHARGED WITH FRAUD.
Warrant Issued for the Former President of a Bank.

KANSAS CITY, Mo., Feb. 15.—Warrants were issued this morning by United States Commissioner Nuckols for the arrest of Homer Williams, late president of the defunct Continental National bank on the charge of having secured by fraud \$5,000 from the bank prior to its dissolution.

Other charges are also said to have been preferred against Williams, but the authorities refuse to disclose their nature.

Switchmen's Grievances.
St. Louis, Feb. 15.—The general grievance committee of the Switchmen's Mutual Aid Association of North America is holding an informal session in Havlin's theater this afternoon. Owing to the non-arrival of a number of the committee little business will be transacted at today's session. It is said that a chairman will be selected and adjournment taken until tomorrow, when the grievance of local switchmen will be submitted.

Has Gone Duck Shooting.
WASHINGTON, Feb. 15.—The president left Washington at 1 o'clock this afternoon for Benning, Md., to spend a few days in duck shooting.

Still No Choice.
HELENA, Mont., Feb. 15.—Today's ballot for United States senator resulted as follows: Mallette, 29; Clarke, 24; Dixon, 12; Couch, 3; Carter, 1. No choice.

Suffered Nine Years.
Physicians and Specifics Failed.

Kickapoo Indian Sagwa Completely Cured.

HIGHLAND, Ill., June 11. For over nine years I suffered untold misery from inflammatory rheumatism, from which physicians as well as various specific remedies afforded no relief.

At last I concluded to give Kickapoo Indian Sagwa a trial. With less than three bottles I have been completely cured, and have stayed cured. I keep the Sagwa in the house all the time, and I find it a great help to me at various times when I feel run down, and consider it the best tonic in the world.

MRS. NATALIE ZIMMERMAN.
KICKAPOO INDIAN SAGWA.

Sold by Druggists, only \$1 per bottle, 6 for \$5.

TO SUCCEED CARLISLE.
Judge Lindsay Declared Elected Senator from Kentucky.

FRANKFORT, Ky., Feb. 15.—Judge William Lindsay was declared elected United States senator at the joint session of the legislature at noon today. He will proceed to Washington on Saturday to take his seat in the senate.

Judge William L. Lindsay, whom President Harrison selected to the place on the interstate-commerce commission left vacant by General Bragg, and who is to be senator, is one of the eminent lawyers of Kentucky—so eminent and successful that his earnings as a lawyer are two or three times as great as the salary of a senator or commissioner.

He is a man of imposing physique, a "Knickerbocker" in the old Kentucky style, and is one of the old Joe Leggett and Josh Fleckhardt type, for he is feet 2 1/2 in height and weighs about 240 pounds. He is a native of Kentucky, however, but was born in that nursery of greatness—Rockbridge county, Va., Sept. 4, 1853.

In 1878 he located in Frankfort, the state capital, as a practicing attorney before the court of appeals and in the federal courts of the state, and has continued in that line ever since. His success has been great, and he has acquired a handsome fortune. In 1880, while traveling in Europe, he was nominated and elected as state senator by the people of his district. He is also one of the best furnished lawyers at large appointed by the president, and as such was one of the subcommittee to go abroad in 1892 and promote the fair interests in Europe.

In this tour he was accompanied by his handsome and cultured wife, and the appearance of the two was humorously commented on by the press in various places in Europe as a proof that the Aryan race was by no means degenerated in America.

Mrs. Lindsay, born Miss Holmes, is greatly admired, and their only daughter, Miss Marion Lindsay, is one of the belles of Kentucky. The Lindsay mansion is the largest and best furnished house in Frankfort, and the great social center during the sessions of the legislature.

Possibly ten social forces had something to do with his nomination by the Democratic legislative caucus for United States senator, as has often happened, and most fittingly, too, for the United States senate is now by far the greatest deliberative body in the world, and the senators and their allies constitute the greatest social power in the nation. In both capacities, the legislative and the social, Kentucky is confident that the new senator and his lady will fully maintain the prestige of the state.

Hoke Smith Accepts.
NEW YORK, Feb. 15.—It has been definitely ascertained that Hoke Smith was offered the secretaryship of the interior today by Mr. Cleveland during their conference at the latter's office and accepted.

Attracting Great Crowds.
PITTSBURGH, Feb. 15.—Even the spacious lobbies surrounding the criminal court room were packed this morning, to say nothing of the corridors and stairs within, long before the trial of Hugh O'Donnell was resumed. The throngs are without precedent in the history of Allegheny county courts.

Reduced Lumber Rates.
The Northern Pacific railroad announces the taking effect Feb. 20, rates on lumber from Pacific coast (Washington) to Duluth and Superior will be reduced to 30 cents per hundred.

Also that rate on fir lumber to Duluth and Superior from same points is reduced to 40 cents per hundred.

The Only Line That Does It.
The St. Paul & Duluth Short line runs three daily trains between Duluth, St. Paul and Minneapolis and Chicago, making direct connections for all points in the East and South, Southern Florida and California. This is the only line that can give you this service and no one will question it. For reliable information and sleeping car reservations call on

A THEATRICAL REVIEW

New York Has a Poor Grade of Attractions
As a Glance at Recent Novelties Shows.

William H. Crane Is All Right In "On Probation," But "The Outsider" Is Very Crude.

Oscar Wilde's New Play, "Lady Windermere's Fan"—The Plans of Several New Vaudeville Stars.

New York, Feb. 8.—William H. Crane's "comic play," "On Probation," is a farce, not a particularly broad farce, but a farce nevertheless. The plot is as light as a feather, and the story could easily be enacted and related by the actors in less than three quarters of an hour.

SCENE FROM "ON PROBATION."

Jonathan Silsbee (Mr. Crane) is a Chicago millionaire who has an uncontrollable penchant for flirtation. He is in love with a charming young lady, Mary Marlow, who puts him on probation for a certain length of time.

In Paris Silsbee meets Lady Brooke, a sort of genteel adventuress, who sets her cap for him in the most unblushing fashion. Silsbee is really true to Mary Marlow and goes to Lady Brooke for the purpose of proposing for her hand in behalf of her cousin, Sir Maurice Fitzmaurice. She misunderstands the millionaire and thinks that he is anxious to marry her himself. Of course she accepts him, and then matters are in a pretty tangle indeed. A fiery Brazilian, whose wife Silsbee has killed, and a woman who saw him do it and leaves blackmail as the price of his secrecy contribute their mites toward the task of laughter-inducing.

Of the acting little need be said. Mr. Crane never has any but competent people in his company, and he seems to be incapable of poor work. The character of Jonathan Silsbee would prove a first class opportunity in the hands of most actors, but Mr. Crane makes the old donkey quite lovable and the stereotyped situations tolerably enjoyable. Brander Matthews and George H. Jessop are the authors of "On Probation."

A pet theatrical legend has it that Sheridan wrote "School for Scandal" in a night. Of course he didn't, and nobody believes the absurd story, but if the same claim were made for Messrs. Matthews and Jessop and "On Probation," with the concession of the presence of an expert stenographer, it would receive general credence. The work is not only featurey, but sloppy, and everything of importance is anticipated, so that the indispensable element of successful farce—surprise—is lacking. It is a relief to know that Miss Martha Morton's new play will shortly succeed "On Probation."

"Glendough," now running at the Fourteenth Street theater, is a strictly conventional Irish drama, with all that the term implies, but the general impression seems to be that it will make as much money as "Mavourneen," despite the fact that the star, J. K. Murray, is not as pleasing a stage figure as was poor demoted W. J. Scanlan. But Murray is an excellent actor, and a really good singer of Irish songs. He has a rollicking sort of method, which contributes in no small measure to the success of "Glendough."

"The Outsider," the first of the steeplechase plays, played out its engagement at the Park theater to splendid success. Forbes Dawson, the author, has not in this work given evidence of the possession of a strong dramatic instinct. On the contrary, his results are all produced by the most crude methods imaginable. There is no continuity or what might be called "hang-together-ness" about "The Outsider." It is a sort of chowder of incidents with an equine flavoring. The great steeplechase, which is intended to electrify the audience, is laughable. There are the real horses and the real jockeys, but a frightfully and exaggeratedly unreal race is the only result of their joint efforts. Two burlesque boxers and a lady with an abnormally strong jaw are unquestionably the best features of "The Outsider," although they really have no legitimate connection with the play.

New Yorkers have by this time had the opportunity to form a fair and comprehensive estimate of Mme. Duse's work in a variety of roles. I think I voice the general opinion when I say that she is not regarded as Bernhard's equal, although almost everybody concedes that she stands next to the wonderful French actress.

Mme. Duse has created as favorable an impression in comedy as in emotion. Her remarkable versatility was manifested a few nights since when she gave a double bill, consisting of Giovanni Verga's tragic drama, "Cavalleria Rusticana," and Carlo Goldoni's comedy, "La Locandiera," and surprised her audience by her complete loss of self and her vivid divergence of methods. Naturally Mme. Duse has her limitations—as who has not—but it will doubtless be many a year before her equal will be seen in this country.

There is a brighter outlook for high grade grand opera in New York now than for some time past. Abbey Schofield & Gray will provide the company, and the Metropolitan Opera House will rise, phoenixlike, from its ashes and with its acoustic properties improved, it is to be hoped. The directors have not yet formally declared that they will rebuild, but they, or some of them, are determined to do it just the same.

SPORTING NOTES.
Dugout, the 4-year-old colt that recently died of pneumonia at Guttenberg, had lost \$100,000 worth of stakes by the small margin of a neck or a head.

Elmer B. Morgan heads a new syndicate of metropolitan yachtsmen who will have built a second cup defender. The Herreshoffs have the contract.

Harry Jewett of the Detroit Athletic club was the champion sprinter of 1892. His time for 100 yards was 10 seconds. He was also champion for 1 furlong, and his time was 21.45 seconds.

M. P. Sweeney of the Xavier Athletic club, New York, holds the running high jump record for 1892 at 6 feet, but he has covered as high as 6 feet 4 1/4 inches, which is a world's record.

The greatest hammer and weight thrower in America on the world's list, James S. Mitchell, of the New York Athletic club, has been American champion for four years in the specialty of hammer throwing.

SARATOGA'S BIG HALL.
The Famous Village Round to Keep to the Front.
Saratoga Springs is determined to maintain its reputation as the great convention city, and is building a hall which, the enthusiastic projectors claim, will be perfect in every particular. They assert with sublime confidence that, though it will seat 5,000 persons comfortably (each with his own opera chair), yet the farthest one will be but ninety feet from the platform, and every word of an ordinary speaker thereon can be heard with perfect distinctness. Such a marvel of a hall as this would in itself be a monument indeed to this Columbian year.

In the last forty years conventions almost without number have been held at Saratoga Springs, and while the members of nearly all of them have been delighted with their experience there was increasing complaint by the larger bodies, and finally national conventions of a popular or rather a tumultuous sort abandoned it altogether. In 1871 an elegant town hall was erected, with a seating capacity of 1,300 and standing room for 700 more, but it was almost immediately perceived to be too small and to have had acoustic qualities, so the agitation for a better one continued, and last winter an organization was effected. The new hall will be ready for the earliest conventions of 1893, and with the exception of Madison Square garden will have by far the largest auditorium in the state.

The site is the most commanding one on Broadway, adjoining Congress Spring park and the Hotel of France. The lot has a width of 187 feet and depth of 195 feet. The building, which is of brick and covered by a slate roof, has a frontage of 162 feet and extends back 150 feet. It is two stories in height. The highest tower has an elevation of over 100 feet and the other about 80 feet.

The auditorium, which is an amphitheater in form, measures 150 by 150 feet. One hundred tons of steel form the trusses supporting the lofty canopied roof. The five main trusses have each a length of 125 feet, and the spans, without supporting columns, are said by the builders to be the longest ever placed in a building in America. The roof is covered by a heavy mass of steel girders built in the heavy brick walls.

From the floor to the central point of the dome above is 82 feet. The stage is 54 by 36 feet, and immediately in front of it are seats and tables for the reporters. Back of the stage and accessible from the reporters' seats is the telegraph room, so carefully partitioned off that the noise of the instruments in busy convention time can not be heard in the auditorium. There will be 5,000 seats in the auditorium, and the spacious foyers on the main and gallery floors will hold 5,000 more. Open chairs will be used, of which the main floor and adjoining rising seats in semicircular form will contain 3,240 and the gallery 1,760, besides 150 for the band galleries on each side of the stage. Extra chairs are to be ordered for use in the foyers, there being room on the first floor for 1,100 and in the gallery for 1,000 in addition.

The level portion of the main floor is set aside as the delegate circle. It measures 50 by 100 feet, and will contain 1,000 chairs. Around it rise the spectators' chairs, and every seat in the gallery as well as on the main floor is in connection with the delegates. There will be side rooms for the usual purposes of committees and others, and finally the whole structure will cost a little over \$100,000. Add that Saratoga Springs has accommodations at any time for 25,000 extra visitors, and it will be seen that it is to be more than ever the convention city.

Here's a Parlor Household.
There is no end to the pretty household ornaments which can be made in these days from the commonest materials. Old bones and tufts of hair, fragments of broken glass and crockery, silver and copper, bits of seasoned wood, almost anything in fact, can be worked into delicate mantel ornaments, and the making of them is in itself an education for the young ladies.

The latest thing in that line is a parlor matchbox made of an eggshell and a chicken leg. The first act is to pull up the tendons till the claws are flattened out, a familiar amusement with every farmer's boy. Then the tendons are fastened up firmly at the top of the leg with a fine wire, which may be of silver if one is so extravagant.

all of the New York Athletic club. He has been American champion for four years in the specialty of hammer throwing.

SARATOGA'S BIG HALL.
The Famous Village Round to Keep to the Front.
Saratoga Springs is determined to maintain its reputation as the great convention city, and is building a hall which, the enthusiastic projectors claim, will be perfect in every particular. They assert with sublime confidence that, though it will seat 5,000 persons comfortably (each with his own opera chair), yet the farthest one will be but ninety feet from the platform, and every word of an ordinary speaker thereon can be heard with perfect distinctness. Such a marvel of a hall as this would in itself be a monument indeed to this Columbian year.

In the last forty years conventions almost without number have been held at Saratoga Springs, and while the members of nearly all of them have been delighted with their experience there was increasing complaint by the larger bodies, and finally national conventions of a popular or rather a tumultuous sort abandoned it altogether. In 1871 an elegant town hall was erected, with a seating capacity of 1,300 and standing room for 700 more, but it was almost immediately perceived to be too small and to have had acoustic qualities, so the agitation for a better one continued, and last winter an organization was effected. The new hall will be ready for the earliest conventions of 1893, and with the exception of Madison Square garden will have by far the largest auditorium in the state.

The site is the most commanding one on Broadway, adjoining Congress Spring park and the Hotel of France. The lot has a width of 187 feet and depth of 195 feet. The building, which is of brick and covered by a slate roof, has a frontage of 162 feet and extends back 150 feet. It is two stories in height. The highest tower has an elevation of over 100 feet and the other about 80 feet.

The auditorium, which is an amphitheater in form, measures 150 by 150 feet. One hundred tons of steel form the trusses supporting the lofty canopied roof. The five main trusses have each a length of 125 feet, and the spans, without supporting columns, are said by the builders to be the longest ever placed in a building in America. The roof is covered by a heavy mass of steel girders built in the heavy brick walls.

From the floor to the central point of the dome above is 82 feet. The stage is 54 by 36 feet, and immediately in front of it are seats and tables for the reporters. LEGAL NOTICES.

MORTGAGE SALE.

Whereas default has been made in the conditions of a certain mortgage duly executed and delivered by Erik A. Noren and Alice A. Noren, his wife, and Erik Jorgensen and Ole Halseeth (both sables), of St. Louis county, Minnesota, mortgagors, to the Union Building and Loan Association, bearing date the 15th day of March, A. D. 1891, and duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the 24th day of March, A. D. 1891, at 1 o'clock a. m., in book M of mortgages on page 201.

And whereas default has been made in the payment of the dues on stock and interest and premium, on the indebtedness secured by said mortgage, for more than the space of four (4) months after the same has become due.

And whereas, said mortgage contains a provision that in case of default in the payment of the monthly interest or premium, or dues on stock, or any part thereof, for the space of four (4) months after the same shall become due, then the whole principal debt shall become due; and the mortgagee shall have authority and power to sell the said premises at public auction according to the statutes in such case made and provided.

And whereas, said mortgage has been duly assigned to the Union Building and Loan Association, and the same has become due.

And whereas, there is claimed to be due and is due at the date of the first publication of this notice, on the debt secured by said mortgage, the sum of \$1,000.00, interest and no portion or proceeds of law or otherwise having been received to recover the debt secured by said mortgage or any part thereof.

And whereas, justice is hereby given that by virtue of the power of sale contained in said mortgage and pursuant to the statutes in such case made and provided, the said mortgage will be foreclosed and the premises described in and covered by said mortgage, viz: Lots A and B in the reorganization of block seventeen (17), of Thayer's Grand Four addition to Duluth, according to the recorded plat thereof, said lands being located in St. Louis county, Minnesota, will, with the hereunto and appurtenances, be sold at public auction to the highest bidder for cash, to pay said debt and interest, and fifty dollars attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law, said sale will be made by the sheriff of said St. Louis county at the front door of the court house in the city of Duluth, county and state aforesaid, on the 24th day of March, A. D. 1893, at 10 o'clock a. m., and that day, subject to redemption at any time within one year from date of sale by the mortgagee.

Dated Duluth, Minn., Feb. 15th, A. D. 1893.
THE UNION BUILDING AND LOAN ASSOCIATION, Mortgagee.

S. T. HARRISON, Attorney.
Rooms 109-112 Chamber of Commerce Building.
Duluth, Minn., Feb. 15-22-1893.

ORDER FOR HEARING ON CLAIMS—

STATE OF MINNESOTA, ss.
County of St. Louis.
In Probate Court, Special Term, January 30th, 1893.

In the matter of the estate of Frank Becker, deceased.
Letters of administration on the estate of said deceased being this day granted unto J. S. Dwyer, of said county.

It is ordered, that all claims and demands of all persons against said estate, at the expiration of which time all claims not presented to this court for examination and allowance, at said hearing, shall be forever barred, and no portion or proceeds of law or otherwise having been received to recover the debt secured by said mortgage or any part thereof.

Ordered further, that notice of the time and the place of said hearing be given by publishing this order on Wednesday in each week for three successive weeks prior to the day appointed for such examination, in the Duluth Herald, a daily newspaper published and published at Duluth in said county.

Witness my hand and seal of said court, this 15th day of January, A. D. 1893.
By the Court, J. H. WALSH, Judge of Probate.

NOTICE

Office of Board of Fire Commissioners,
Duluth, Minn., Feb. 16, 1893.
Sealed bids will be received in this office up to and including the fourth day of March, 1893, at 12 o'clock noon of said day, to furnish the city with eight six horses, for the fire department, said horses to be not under four years old or more than seven years old, and to weigh not less than 1,000 lbs.

The board reserves the right to reject any and all bids.
Board of Fire Commissioners,
By T. J. WALSH, Secretary.

It's a Family Necessity!

THE EVENING HERALD,

THE PAPER OF THE HOME AND FIRESIDE!

It is the largest and newsiest paper printed at the Head of the Lakes. It gives

More Local News,
More Telegraphic News,
More News Features,
More Special Articles

That inure to Duluth's supremacy than any other Duluth paper. It is essentially the women's paper; its bright and crisp society gossip, its many features pertaining directly to the homes, and the recognition of the cause of the gentle sex make THE EVENING HERALD especially of interest to them.

The independent course pursued by THE HERALD in politics has won for it many friends who are not prejudiced by party ties, and who approve of a fearless newspaper, but who loathe and despise a hide-bound organ, that only reverberates the sentiment of some party platform that has nothing in common with Duluth or her varied interests. THE EVENING HERALD has given several examples of its independence the past year and will continue to do so whenever in its opinion the good of Duluth demands it. If you do not take it, subscribe for it.

The business man reads it and advertises in it to the exclusion of all others, because it GIVES THE NEWS and is read by double as many readers as all other Duluth papers.

The laboring man and the artisan want THE EVENING HERALD because it is delivered fresh from the press at a time when his day's labors are ended and he has the long winter evenings to read to himself and family all the day's happenings of his own city and from every nook and corner of a busy and heedless world.

The two largest news organizations, the Associated Press and the United Press, serve the Herald with special telegraph wires, with all of the outside news.

Its staff of editors, local reporters and contributors are ever alert that nothing may be missed that might be of interest to its patrons or contribute to the welfare and prosperity of Duluth.

ANNEXATION TREATY

The Country Will Make a Treaty of Annexation With the Provisional Government of Hawaii.

There Is But Little Danger of Any Interference On the Part of Great Britain.

Treaties With France and Russia Would Give Us the Aid of Their Navies in a War.

WASHINGTON, Feb. 15.—The Hawaiian commissioners paid a brief visit to the secretary of state yesterday. Nothing of importance was transacted. It is understood that the commissioners were anxious that the annexation treaty should not be sent to congress, their reason being that its text or substance might become public before the sailing of the steamer from San Francisco today for Honolulu and might thus be received by the Hawaiian people in incorrect form. The commissioners wish to take the treaty to Honolulu themselves. Their fears that it would go to congress yesterday, however, were set at rest by the information that the treaty would not be transmitted before the sailing of the steamer for Honolulu.

Senator Davis is confident that the United States will annex Hawaii. He said that the method of procedure is simple and that the close of the present year is likely to see the islands enjoying the benefits of Uncle Sam's government. This country will recognize the provisional government and make a treaty which congress will ratify. That is all there is to it. There may be some indemnity to the deposed queen, but it will be nothing of consequence for this nation, and the job will be finished without delay.

There is a great deal going on, however, in connection with the proposed annexation of Hawaii that the public is not advised of. There is little danger of interference on the part of Great Britain. The treaties just ratified between this country and the governments of France and Russia are of far-reaching importance. They actually establish an alliance by which the United States will be the beneficiary of the navies of these two powers in case of a war with England.

THE KEY TO THE PACIFIC.

The Strategic and Commercial Importance of the Hawaiian Islands.

Hawaii is variously referred to as "The Pearl of the Pacific" and "The Gibraltar of the Pacific." Both of these terms are misnomers for the reason that there are other islands in the Pacific ocean which have at least as great a strategic importance as Hawaii is in no sense a Gibraltar. A thoroughly appropriate title for the little kingdom whose commissioners are anxiously knocking at Uncle Sam's side door, asking for territorial admission, would be "The Key to the Pacific." Americans have for so many years been talking about a sort of toy country, whose monarch, King

Princess Victoria Kaiulani is the daughter of Princess Kaiulani, sister of Kalakaua, and a granddaughter of Queen Liliuokalani. She is now at school in England, and is expected to return to her island home before Oct. 16, 1894, when she will celebrate the 15th anniversary of her birth.

Samuel M. Damon is 47 years of age and an American by birth. He is particularly noted as a financier. He is a member of the large banking firm of Bishop & Co., Honolulu, and served as minister of finance in 1889.

Lorrin A. Thurston is one of the most brilliant lawyers in Honolulu. He is a grandson of the first missionary who went to Hawaii in 1820. Although but 37 years old, he has for a long time been a leading spirit in the public affairs of the kingdom. He has always affiliated with the Reform party and was practically the head of the cabinet in 1890-91. Even his political opponents respect him for his ability and spotless integrity.

Captain Gilbert C. Witte, commander of the Boston, was born in New York in 1858. He graduated from the naval academy at Annapolis in 1880. Although but 37 years old, he has for a long time been a leading spirit in the public affairs of the kingdom. He has always affiliated with the Reform party and was practically the head of the cabinet in 1890-91. Even his political opponents respect him for his ability and spotless integrity.

The recent revolution in Hawaii, the deposition of Queen Liliuokalani and the consequent demolition of the claims of Princess Kaiulani, have all combined to give Hawaii an importance which has up to this time been almost entirely overlooked. The Panama canal, the great and desperate effort now making in the United States to push the Nicaragua canal rapidly to completion have served to intensify this importance, for if either of these connecting links between the Atlantic and Pacific oceans shall ever be built Hawaii will occupy a commanding position with regard to the commerce of the world.

Take a map of the Pacific ocean, study it carefully, and these facts will immediately impress themselves upon your observation. Honolulu is on a direct line drawn from Seattle, Wash., or Portland, Ore., to Sydney or Melbourne. From the American ports it is distant 2,300 miles, and from the Australian coast 4,300 miles. Draw a line from Callao, Peru, to Yokohama, and again Honolulu is touched, being 5,500 miles from the former and 3,400 miles from the latter port. From San Francisco to Hawaii is but 2,100 miles, and it is therefore a con-

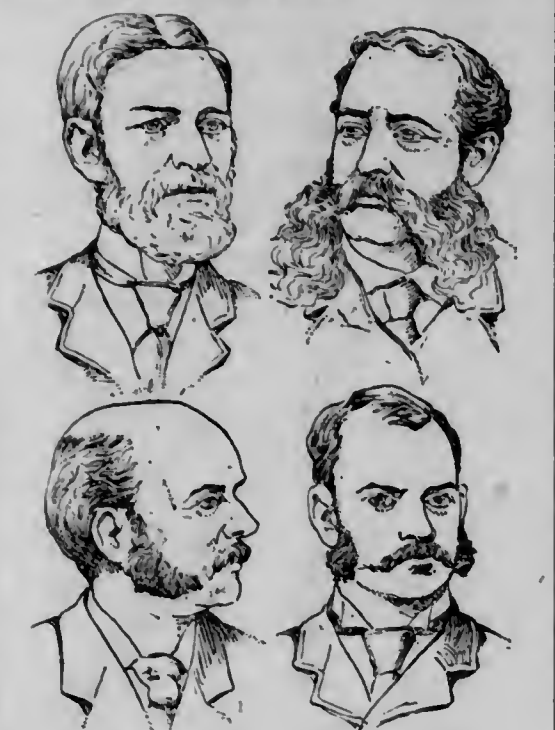

venient port of call for vessels plying between the "Golden Gate" and China, Japan or the East Indies. And the Sandwich Islands are the only ones so located, for Marquessa, Tahiti and all the other groups on the south, are distant from 1,800 to 2,250 miles. Jaluit, Strong and Bonaha are about as far away in a southwestern direction. Guam is about 3,600 miles west of south, and these are the only far oceanic islands in the Pacific between the north pole and the 30 degrees parallel of south latitude.

If the Nicaragua canal were in existence,

Honolulu would be as important a stopping place as the world contains, for in these days of steamships every cubic foot of space given to coal ships out just that much paying freight, and the run across the Pacific ocean is such a long one that it is exceedingly improbable that vessels could be made to pay in this trade if they were compelled to carry all the coal necessary for the trip. Honolulu is the logical and in fact the only possible coaling station in the north Pacific.

The value of the Hawaiian Islands as a naval station for the United States in case of war, especially if the Nicaragua canal were in existence, can scarcely be overestimated. This of course does not affect the many arguments urged for and against the advisability of annexation. It is a simple and self evident fact.

Recent events in Hawaii in which our official representatives figured conspicuously have given Americans a sort of proprietary interest in the island and a desire to know the exact status of our government in its relations to the Hawaiians.

JOHN L. STEVENS. G. C. WILTE. S. M. DAMON.

Since 1870 the United States has been making quiet but persistent efforts to secure a dominating influence in the Sandwich Islands. In that year a treaty of reciprocity which is still in force was negotiated. The operations of this treaty have been of great advantage to Hawaii, but its effect has been to give the commercial interests of the kingdom a strong American tone. In 1887 the United States sent a steamer further and made additional remissions of duty, in return for which King Kalakaua ceded the exclusive right to maintain a naval station within his dominions. Pearl harbor was the port selected. It is the only harbor in the group affording ample dockage combined with safe anchorage.

The duration of this right was for the term of the treaty, and Mr. Blaine in 1890 endeavored to have the cession made permanent, but failed at the last moment when success seemed assured. Thus Hawaii nominally still preserves its autonomy intact.

Some individuals have been brought prominently before the world by recent events in the Sandwich Islands. Of these whose names are most frequently mentioned are Queen Liliuokalani, Princess Kaiulani, her presumptive, Captain Witte of the Boston; John L. Stevens, United States minister; Lorrin A. Thurston, chairman of the commission sent to the United States to ask for annexation, and Samuel M. Damon, chairman of the advisory committee of the provisional government in 1890.

Princess Victoria Kaiulani is the daughter of Princess Kaiulani, sister of Kalakaua, and a granddaughter of Queen Liliuokalani. She is now at school in England, and is expected to return to her island home before Oct. 16, 1894, when she will celebrate the 15th anniversary of her birth.

Samuel M. Damon is 47 years of age and an American by birth. He is particularly noted as a financier. He is a member of the large banking firm of Bishop & Co., Honolulu, and served as minister of finance in 1889.

Lorrin A. Thurston is one of the most brilliant lawyers in Honolulu. He is a grandson of the first missionary who went to Hawaii in 1820. Although but 37 years old, he has for a long time been a leading spirit in the public affairs of the kingdom. He has always affiliated with the Reform party and was practically the head of the cabinet in 1890-91. Even his political opponents respect him for his ability and spotless integrity.

Captain Gilbert C. Witte, commander of the Boston, was born in New York in 1858. He graduated from the naval academy at Annapolis in 1880. Although but 37 years old, he has for a long time been a leading spirit in the public affairs of the kingdom. He has always affiliated with the Reform party and was practically the head of the cabinet in 1890-91. Even his political opponents respect him for his ability and spotless integrity.

The recent revolution in Hawaii, the deposition of Queen Liliuokalani and the consequent demolition of the claims of Princess Kaiulani, have all combined to give Hawaii an importance which has up to this time been almost entirely overlooked. The Panama canal, the great and desperate effort now making in the United States to push the Nicaragua canal rapidly to completion have served to intensify this importance, for if either of these connecting links between the Atlantic and Pacific oceans shall ever be built Hawaii will occupy a commanding position with regard to the commerce of the world.

Take a map of the Pacific ocean, study it carefully, and these facts will immediately impress themselves upon your observation. Honolulu is on a direct line drawn from Seattle, Wash., or Portland, Ore., to Sydney or Melbourne. From the American ports it is distant 2,300 miles, and from the Australian coast 4,300 miles. Draw a line from Callao, Peru, to Yokohama, and again Honolulu is touched, being 5,500 miles from the former and 3,400 miles from the latter port. From San Francisco to Hawaii is but 2,100 miles, and it is therefore a con-

venient port of call for vessels plying between the "Golden Gate" and China, Japan or the East Indies. And the Sandwich Islands are the only ones so located, for Marquessa, Tahiti and all the other groups on the south, are distant from 1,800 to 2,250 miles. Jaluit, Strong and Bonaha are about as far away in a southwestern direction. Guam is about 3,600 miles west of south, and these are the only far oceanic islands in the Pacific between the north pole and the 30 degrees parallel of south latitude.

If the Nicaragua canal were in existence,

Honolulu would be as important a stopping place as the world contains, for in these days of steamships every cubic foot of space given to coal ships out just that much paying freight, and the run across the Pacific ocean is such a long one that it is exceedingly improbable that vessels could be made to pay in this trade if they were compelled to carry all the coal necessary for the trip. Honolulu is the logical and in fact the only possible coaling station in the north Pacific.

The value of the Hawaiian Islands as a naval station for the United States in case of war, especially if the Nicaragua canal were in existence, can scarcely be overestimated. This of course does not affect the many arguments urged for and against the advisability of annexation. It is a simple and self evident fact.

Recent events in Hawaii in which our official representatives figured conspicuously have given Americans a sort of proprietary interest in the island and a desire to know the exact status of our government in its relations to the Hawaiians.

THE ONLY WAY.

To Successfully Treat Chronic Ailments Is by Thorough Systematic and Energetic Means.

The Copeland system of treating catarrhal troubles in all stages is meeting with universal success and hearty approbation of people who have suffered for years untold agonies and who had long since despaired of ever being cured or even relieved of their troubles. The evidence of successful treatment is produced in the papers day after day and in this way many a sufferer has learned how his particular case can be treated by one who makes a specialty of certain diseases, and who, because of their immense practice are rendered proficient by experience as well as by theory.

The only way to successfully treat chronic ailments is by thorough, systematic and energetic means. It is a waste of time and money to purchase powder and patent medicines, or it is a great mistake to suppose that what will cure one form of catarrh will cure all forms. A remedy that will cure one case is detrimental in another. A practiced and experienced eye is necessary to tell just what is indicated in each particular case.

To more fully illustrate the outcome of systematic treatment the statement is given of Mr. John Gillis, who lives at 221 West Second street, and is employed by the Omaha railroad. His testimony in substance is as follows: "Before I began treatment at the Copeland Medical Institute I had catarrh of the nose, throat and stomach. Upon arising in the morning my throat was full of collection and watery eyes. I was unable to eat after taking something warm, and caused a great deal of hawking and spitting. Bad buzzing noises in my ears; weak and watery eyes; palpitation of the heart, with weak fainting spells. There were shooting pains through my stomach and I would belch up gas and sour matter; could not get enough sleep and would feel in the morning as though I could sleep another ten hours.

Present Condition. "Throat not full of mucus; no noises in the ears; restful at night and feel in the morning; have a strong appetite and relish food I despised before. My case was very chronic and of long standing, but the treatment seemed to meet it exactly."

Suffered for Five Years With a Disordered Stomach.

Mr. M. N. McDonald, of 204 West Second street, was a sufferer from stomach trouble for five years. During that time he had been treated by a great many physicians and had taken enough medicine to stock a first class drug store. After one month's treatment at the Copeland Medical Institute he felt so much better that he was able to get on his feet and after the results obtained he gives his story below, hoping that some fellow sufferer may be benefited likewise.

"I had taken a great deal of 'nauseating medicine,' said Mr. McDonald, 'but nothing seemed to help my case. At times I was so weak, depressed and miserable that I could not stand up or lay down, but would sit restlessly from one position to another. I was subject to

drizzy fainting spells and would have to catch on to something to keep from falling to the ground. Dull heavy pains would pass through my bowels and chest. There was a constant burning sensation in my stomach, accompanied by bloating and tenderness. My food did not seem to digest and I had terrible diarrhoea. I could not rest at night, sleep was only patchy and on the sidewalk. Far away a dog barked at the moon and a tramp nestled closer to a haystack, but otherwise the world was silent.—Detroit Tribune.

Arranging a Diet. Traveler—We are sure to have fine weather tomorrow. Landlord—But it will rain. Traveler—Very good. What will you be? Landlord—A bottle of wine if you like. Traveler—What sort? Landlord—A bottle of my Grunberger. Traveler—All right, the loser to drink it.—Fremdenblatt.

Accommodating. Husband—After today I'm going to try a new shirt with you. Every time you get a new dress I must be understood that I can invite my friends here to a little poker party and a merry time generally. Wife (sweetly)—You can have them every night, dear, if you want to.—Truth.

Just His Luck. "I hear Simpson had a streak of bad luck and has been losing money." "Did he lose much?" "About \$10,000." "How did it happen?" "He fell down a coal hole that was left uncovered and wasn't hurt."—Detroit Free Press.

LEGAL NOTICES.

MORTGAGE FORECLOSURE SALE.

Default having been made in the payment of the sum of two thousand and eighty-one and 47/100 dollars, which became due on the first day of November, 1892, upon a certain mortgage duly executed and delivered by Louis J. Tausig and Edwin O.K. Tausig, his wife, mortgagees, to the Minnesota Loan and Trust company, mortgagee, bearing date the fifth day of November, A. D. 1888, and with a power of sale therein contained, duly recorded in the office of the register of deeds in and for the county of St. Louis and state of Minnesota, on the twenty-first day of November, 1892, at 2 o'clock p. m., in book of mortgages, on page 379.

Which said mortgage, together with the debt secured thereby, was duly assigned by said The Minnesota Loan and Trust company, mortgagee, to Mechanics Savings Bank (of Providence, R. I.) by written assignment, dated the seventh day of December, 1892, and recorded in the office of the register of deeds, on the tenth day of December, 1892, at 8 o'clock a. m., in book 25 of said mortgage records, on page 294.

And whereas there is actually due and claimed to be due and payable at the date of this notice the sum of twenty-one hundred and 48/100 dollars, including interest and costs, and necessarily paid for insurance, and whereas, the said power of sale has become operative, and no action or proceeding having been instituted, by law or otherwise, to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz: Lot (3) three and the westerly ten (10) feet of the south half (1/2) of block forty-five (45), in the second (2d) range of the second (2d) subdivision of the plat thereof on file of and for said county of St. Louis in said county and state of Minnesota, with the hereditaments and appurtenances, which sale will be made by the sheriff of said St. Louis county, at the front door of the court house, in the city of Duluth, in said county and state, on the twenty-first day of February, 1893, at ten o'clock a. m. of that day, at public vendue, to the highest bidder for cash, or in installments, and the taxes and insurance, if any, on said premises, seventy-five dollars attorneys' fees, as stipulated in and by said mortgage, and the disbursements allowed by law, subject to redemption at any time within one year from the day of sale as provided by law.

Dated December 10th, A. D. 1892.

WILLIAM J. HAIN AND JAMES M. MARTIN, Assignees of Mortgage.

The above named mortgagee claims that he now has to interest in the property above described.

ARTICLES OF INCORPORATION

OF THE SAGINAW LUMBER COMPANY.

Know all men by these presents, that we, the undersigned, do hereby associate ourselves together and agree upon the following articles of incorporation, for the purpose of forming a corporation under and by virtue of the provisions of an act of the legislature of the state of Minnesota, entitled, "An Act Relating to Manufacturing Corporations," approved March 7th, 1879, and acts amendatory thereof.

ARTICLE I. The name of said corporation shall be Saginaw Lumber Company.

ARTICLE II. The general nature of the business shall be the manufacturing of lumber, including the cutting of pine lands, cutting and logging the timber thereon and manufacturing the same into finished lumber; the buying of logs for manufacture into lumber; the owning and operating of saw mills and planing mills and lumber yards at Duluth, Minnesota, and the owning of tenement houses, tugs, tow-boats and boats in connection with said manufacturing business; and generally the doing, owning, and operating of all things necessary or usual in the conduct of a general logging, manufacturing, milling and lumber business.

ARTICLE III. The principal office of said corporation shall be in the city of Duluth, state of Minnesota.

ARTICLE IV. The names and places of residence of the persons to be associated to form said corporation are as follows, to-wit: Thomas D. Merrill, Duluth, Minnesota. Charles R. Little, Duluth, Minnesota.

ARTICLE V. The amount of capital stock of said corporation shall be five hundred thousand (\$500,000) dollars, and shall be divided into five thousand (5,000) shares of one hundred (\$100) dollars each.

ARTICLE VI. The time of the commencement of said corporation shall be upon the completion of due publication of these articles of incorporation, and the period of continuance shall be thirty (30) years thereafter.

NOTICE

Of confirmation of commissioners in the matter of the proceedings of the common council of the city of Duluth, in condemnation, for the purpose of condemning, opening and laying out a right-of-way for sewers, along the dividing line in the rear of the lots in the following blocks, to-wit: Block 15, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 34

DULUTH EVENING HERALD.

TENTH YEAR.

THURSDAY, FEBRUARY 16, 1893.

FIVE O'CLOCK EDITION.

THREE CENTS

In Order To Move

An Accumulation Of High Grade

Chamber Suits!

And make room for our new stock which is coming in we have determined to apply our celebrated "Sliding Price Plan" by which we so effectively one year ago which was so successful in clearing our warehouses of nearly every odd chamber suit we had.

Therefore on Monday, Feb. 13th, we put on exhibition in our large show window a Fine Oak Chamber Suit placed as follows:

The actual cash value of this chamber suit is \$100.00. It has never been offered for less money.

Beginning with Monday, Feb. 13th, we shall reduce its price \$5.00 every day it remains unsold until it reaches a price at which you think it is cheap, when it does come in and give us your order.

FIRST WEEK.

Monday, Feb. 13.....Price \$95.00
Tuesday, Feb. 14.....Price \$90.00
Wednesday, Feb. 15.....Price \$85.00
Thursday, Feb. 16.....Price \$80.00
Friday, Feb. 17.....Price \$75.00
Saturday, Feb. 18.....Price \$70.00
Etc., Etc. If not sold by March 6th won't cost you a cent. 5 percent added if sold on the easy payment plan.

SECOND WEEK.

Monday, Feb. 20.....Price \$65.00
Tuesday, Feb. 21.....Price \$60.00
Wednesday, Feb. 22.....Price \$55.00
Thursday, Feb. 23.....Price \$50.00
Friday, Feb. 24.....Price \$45.00
Saturday, Feb. 25.....Price \$40.00
Etc., Etc. If not sold by March 6th won't cost you a cent. 5 percent added if sold on the easy payment plan.

We Sell on Easy Payments When Desired.

Do you need accommodation? Have you given this method of our business your consideration? It is honorable. It is just and equitable.

Our books contain the names of the best citizens of Duluth, who have availed themselves of the advantages. We ask a payment of \$5.00 on \$20.00 bought, \$10.00 on \$50.00 bought, \$20.00 on \$100.00 bought. NO INTEREST CHARGED.

We have the Largest stock of Furniture. We have the Largest stock of Carpets. We have the Largest stock of Crochery and Glassware. We have the Largest stock of Everything pertaining to Housefurnishing in the city of Duluth.

Real Estate, Mortgage Loans.

Money seeking investment can find no safer nor fruitful field than Duluth real estate. Our values are very low, yet in the last year we have increased in population over 20 per cent and have added to our manufacturing and jobbing interests, more than all our previous history combined. In docks, water fronts, improved business and residence property we have the choicest selection. Your money loaned with absolute safety at 7 and 8 per cent. Interest, payable semi-annually in gold, collected and returned from us. In eight years' experience we have never lost a cent nor foreclosed a mortgage. Send for our Eastern reference, also Mortgage Loan papers, News Annuals, Prospectors' Reports, which we will gladly furnish on application. House collected and property interests looked after for non-residents.

HAWAII TREATY.

Contents of the Treaty Concluded Between Secretary of State Foster and the Provisional Government.

Was Deemed More Desirable to Fully Annex the Islands Than to Establish a Protectorate.

President Harrison Says None of Other Great Powers Should be Allowed to Secure the Islands.

He States the Revolution Was Entirely Unexpected So Far as This Government Was Concerned.

WASHINGTON, Feb. 16.—The treaty of annexation concluded between Secretary of State Foster and the commissioners of the provisional government of Hawaii was transmitted to the senate yesterday but not made public. The message of the president was brief. It states that it was deemed more desirable to fully annex the islands than to establish a protectorate.

The president says the overthrow of the monarchy was not in any way promoted by this government; that the restoration of Liliuokalani is undesirable, if not impossible, and that unless actively supported by the United States would be accompanied by serious disaster and the disorganization of all business interests. He says:

"It is essential that none of the other great powers shall secure these islands. Such a possession would not be consistent with our safety and with the peace of the world. Prompt action upon this treaty is very desirable. It meets the approval of the senate, peace and good order will be secured to the islands under existing laws until such time as congress can provide by legislation a permanent form of government for the islands. The legislation should be such that I do not doubt will be, not only just to the natives and all other residents and citizens of the island, but should be characterized by great liberality and a high regard to the rights of all the people and of all the foreigners domiciled in fact upon the islands."

In a letter to the president laying the treaty before him, Secretary of State Foster recapitulates the history of recent events in the islands, leading up to the revolution; the establishment of the provisional government; the appearance of the commissioners in Washington; the negotiations that have taken place, resulting in the preparation of the treaty; and the establishment of the protectorate by Minister Stevens.

Secretary Foster confirms the president's statement that the revolution was entirely unexpected so far as this government was concerned. He says that he has heard Mr. Stevens been instructed with regard to his course in the event of a revolutionary uprising. The change was in fact abrupt and unlooked for by the United States minister or the naval commander.

In regard to the protectorate, Secretary Foster says in his letter: "An instruction has been sent to the minister commanding his action, in so far as it lay within the purview of standing instructions to the legation and to the naval commanders of the United States in Hawaiian waters and tended to cooperate with the provisional government, but disavowing any steps in excess of such instructions whereby the authority and power of the United States might appear to have been asserted, to the impairment of the independent sovereignty of the Hawaiian government by the assumption of a formal protectorate."

Secretary Foster says that the provisions of the treaty reserve to congress the determination of all questions affecting the form of government of the annexed territory, the citizenship and elective franchise of its inhabitants, and all questions relating to the economic and political status of the islands. In conclusion he says that pending the negotiation he received assurances from representatives of the leading powers of the world in this city, and from our own ministers abroad, convincing him that the incorporation of the Hawaiian islands into the Union will be regarded by these powers with satisfactory or ready acquiescence.

The treaty itself provides for the cession of all rights of sovereignty over the islands, all public buildings and property to the United States. Revenue from public lands, except such as are reserved for government purposes, to be used solely for the benefit of the people of the islands. Until congress provides otherwise, the existing laws of the Hawaiian islands are continued, subject to the paramount authority of the United States.

A resident commissioner is to be appointed who shall have power to veto any act of said government. Until congress enacts the necessary legislation, existing commercial relations of the Hawaiian Islands, both with the United States and foreign governments, shall continue. Further immigration of Chinese into the islands is prohibited, and Chinese now in the islands shall not be permitted to come into the present territory of the United States.

The public debt of the islands is assumed by the United States to the extent of \$2,500,000. The United States agrees to pay Queen Liliuokalani \$20,000 a year during life and to Princess Kaiulani \$15,000. Provision is made for the exchange of ratifications of the treaty at Honolulu, as soon as possible on the part of the United States by the resident commissioner, provided for in the treaty.

It will be observed that under the provisions of the treaty the sugar producers of Hawaii will not participate in the bounty provided by the McKinley

law, unless congress should extend it to the islands. Accompanying the message and the treaty is the correspondence upon the subject between the two governments, giving full details as to the area of the territory proposed to be annexed, the public debt, the public lands, the annual allowances to, and revenue of, the late royal household, and statistics as to the population and revenues, commerce and other economic matter relating to the islands, altogether a bulky volume of several hundred pages.

CONTRACTORS IN CONVENTION.
All High Buildings Should be Constructed of Incombustible Material.

ST. LOUIS, Feb. 16.—At yesterday's session of the national session of contractors of buildings interesting papers on the subject of material used in constructing high buildings were read by J. Theodore Oster, of Baltimore, and Geo. B. Reid, of St. Louis.

The papers set forth that absolutely incombustible material should be used throughout in the erection of high buildings, and that such material should be specified and that a limit should be placed on the projection of cornices.

Incompetent and architects in charge of high buildings constructed of steel were a constant source of danger, since the plans were frequently incomplete and the construction difficult to understand.

The officers of the ensuing year were elected as follows: President, John S. Danville, of Boston; vice-presidents, Jas. F. Tilly, of Omaha, and Chas. D. Sullivan, of Philadelphia; secretary, John N. Hazen, of Minneapolis; treasurer, J. Theodore Oster, of Baltimore.

THE FLOOD AT CINCINNATI.
Hundreds of Houses, Barns and Other Buildings Inundated.

CINCINNATI, O., Feb. 15.—As was feared, the heavy rains of the past few days caused a continuance in the rise of the river at this point. At 10 o'clock last night it was fifty-four feet. Already the high water is beginning to do damage. Mill Creek Valley as far out as Cumminsville is a vast lake, and hundreds of houses, barns and other buildings are inundated. Many families have been driven from home. The spring crops of gardeners in this territory are totally destroyed. The sinking of the Cincinnati wharf boat, which occurred early yesterday morning, was the most serious loss along the river front thus far.

The all that is being feared is that in the vicinity of the central passenger station. At Mill street yesterday, the tracks which must be traversed by trains entering the station were covered by water which was fully a foot deep. Fifty-six feet is the limit, and should this be reached as expected the business of the Big Four, Ohio & Mississippi and Baltimore & Ohio roads will not be able to enter.

NEWSBOYS ON A STRIKE.
They Wanted the Price of Newspapers Increased.

DETROIT, Mich., Feb. 16.—One of the oddest strikes on record was inaugurated by some of the Detroit newsboys yesterday. The price of two evening papers for some months past has been a cent per copy. The boys never relished the cut in price because it necessitated harder hustling to make the same amount as they did before the decrease in price.

The boys are trying to force the evening papers back to the 2 cent basis, and not an evening paper appeared on the streets until the boys were arrested.

THE SCHOOL QUESTION.
The Pope Will Maintain All of Monsignor Sattoli's Proposals.

LONDON, Feb. 16.—A special dispatch received in this city from Rome says that in consequence of reports from the American bishops on the school question, the pope, in an address to the American episcopate, will maintain in their entirety Monsignor Sattoli's proposals. The pope is said to have warmly supported the sixth proposal.

Monsignor S. Barretti, who has been appointed secretary to Monsignor Sattoli will leave Rome for Washington to direct after the fact in honor of the pope's episcopal jubilee.

TO PROSECUTE LYNCHERS.
One of the Mob Who Hanged Blount Recognized.

CHATTANOOGA, Tenn., Feb. 16.—Mrs. Moore, victim of Albert Blount's assault, improved yesterday and states emphatically that Blount, who was lynched, was her assailant. The coroner's jury rendered a verdict of death at the hands of unknown parties. Excitement has subsided and no further trouble is anticipated.

The sheriff recognized one of the mob and says he will vigorously prosecute him. The judge of this circuit is now considering his legal right to recall the grand jury just adjourned, for the purpose of acting on the lynching.

The Hop Crop.
SYRACUSE, Feb. 16.—The New York Homestead publishes this week a complete exhibit of the world's supply and demand of hops for the current season. The exact shortage in the world's supply is 3,700,000 pounds. There is an estimated shortage of 6,000,000 pounds in the English supply.

Half Breeds Revolt.
ROLLA, N. D., Feb. 16.—The Turtle Mountain half breeds who were cut off from the ration list of the commissioners sent here last week to the Indian agents at North Dakota lands are in revolt. They threaten to break into the store house. Extra police have been sworn in to quita the expected outbreak.

Secretary of the Interior.
LAKESIDE, N. J., Feb. 16.—Mr. Cleveland announced the name of the fifth member of his cabinet last evening. It is that of Hoke Smith, of Georgia, for secretary of the interior.

MITCHELL IS TALKING

The English Pugilist Says He Will Cover Corbett's Money and Agree to His Conditions.

He Wants a Reputable Club, a Fair Referee and a Fight Within a Reasonable Time.

Bloody Fight Before the Continental Club at Chicago, in Which Jack O'Hara Was Winner.

NEW YORK, Feb. 16.—A reporter boarded the steamer Majestic, at quarantine, late last night and interviewed Charley Mitchell, the English pugilist. When the reporter informed him that Corbett had deposited \$10,000, Mitchell said: "That is good. I will cover that money tomorrow. I have come here for the purpose of making a match which will decide the championship of the world. The conditions named by Corbett are perfectly agreeable to me."

"When do you care to fight?" was asked. "In six weeks, if necessary, or any reasonable time for that matter," Mitchell replied with some spirit. "My money has been put up in London, but I feel perfectly at home here, for honor money is money inside of twelve hours."

"Are there any conditions you care to impose?" "None. All I want is that the fight shall be conducted in a fair, square, sportsman-like manner."

"Have you any preference as to the club before which this fight shall take place?" "Coney Island or San Francisco will suit me. There shall be no dilly-dallying about that, I promise you."

As for the stories to the effect that I intend making money by giving boxing exhibitions, I think that is absolutely no truth in that. I shall not give a single show before the fight. Although many people do not like me in this country, I feel perfectly at home here, for honorable sportsmen with whom I have dealt are my friends. When I fought Sullivan in France, I made enemies. They did not run away and all that boxing in this match no such thing will occur, and I am willing to fight Corbett in a twelve round fight, or a fifteen round fight, or I'll not run away either. I want to fight Corbett. A reputable club, a fair referee and a fight within a reasonable length of time are my only conditions."

PARSON DAVIES TALKS.
Withdrew His Money Until Corbett Arranges With Mitchell.

SAN FRANCISCO, Feb. 16.—Parson Davies last night instructed his New York representative to withdraw his deposit for a fight with Corbett until the latter acquiesces with Mitchell's feat.

Davies offers to bet Corbett \$1000 that he (Corbett) is not telling the truth, when he says Davies did not issue a challenge to him on the night of his victory over Sullivan. Corbett to not prove his statements. The money has been deposited with a local party.

VERY BLOODY BATTLE.
A Rattling Finish Fought Before a Club at Chicago.

CHICAGO, Feb. 16.—The finish fight between George Burns and Jack O'Hara before the continental athletic club at Hyde park last evening proved to be one of the bloodiest battles ever fought in Chicago. About two score members of the new athletic club were present when the men entered the ring.

From the initial round, the contest was of the hammer and tongs variety. Burns broke O'Hara's nose in the fifth round, closed his left eye in the seventh, and in the eighth split open his lip and broke one of his ribs.

Burns in return received severe punishment about the face and breast. The knockout blow in the ninth round was a heavy right handed swing, which landed on O'Hara's caved-in rib and sent him bleeding and senseless under the ropes. O'Hara was out fifteen minutes.

UNDER AMERICAN RULES.
The Sprinting Match to Occur at Chicago Next Summer.

CHICAGO, Feb. 16.—James Collins, one of England's famous sprinters, with a number of other runners arrived in the city yesterday and held a conference with J. C. Ryan, the promoter of the international sprinting match to be held here during the World's fair period.

The match will be different from any other run on this side of the Atlantic, inasmuch as Sheffield rules will prevail. Under the rules every man is handicapped according to his record, whereas up to the present time the plums have gone to either one or the other cracks.

Over 200 sprinters will take part in the contest, and these will include men like Harry Hutchins, and E. S. Skinner, the only American who has ever come out a victor in the Australian matches.

President Harrison's Home.
WASHINGTON, Feb. 16.—J. C. Shaffer, who has occupied President Harrison's home here, moved out Wednesday, and the house will be at once repaired and made to look as much as possible like the old home as under Mrs. Harrison's care. The president, accompanied by his daughter, Mrs. McKee and March 5, Mrs. McKee will live with her father for some time.

Odd Fellows Temple Burned.
CANTON, O., Feb. 16.—The Odd Fellows temple in this city was destroyed by fire yesterday. Three firemen are in a very critical condition owing to injuries sustained from falling walls. They are Frank Kelly, William Reid and F. Voss. The loss is \$60,000; the insurance about \$30,000.

INSOLVENT FOR TEN YEARS.

Revelations Made by the Assignee of a Broken Bank.

NEW YORK, Feb. 16.—A special to the Herald from Wilkesbarre, Pa., says: The assignee of F. V. Rockefeller & Co.'s broken bank has made a preliminary report. He finds things in a very bad shape. The bank has been insolvent for ten years. Rockefeller, he says, never made a report of the bank's condition in twenty years. Rockefeller was short in his accounts five years ago. He at once began a race with the insolvent bank.

He insured his life heavily. Had death overtaken him previous to 1890, the bank would have won the race, and the depositors would have been safe. In the meantime the bank's surplus was growing less and the insurance premiums were harder to pay. As a result, the banker was compelled to drop several policies. At one time he was insured for \$200,000.

According to the figures furnished by the referee, it is doubtful if the bank will pay its depositors more than 20 cents on the dollar.

A STREET CAR STRIKE.
Walking Seems to be Popular Now in Wheeling.

WHEELING, W. Va., Feb. 16.—Another turn was taken in the street car strike yesterday, when a large number of men employed by the company to take strikers' places quit and joined the strikers.

The strike has lasted nearly four weeks, and during that time from four to five cars a day have been run under police protection, which the public have been too terrorized to patronize. The loss has been enormous.

It is claimed that the strikers will make an effort to have every car declared the franchise of the company null and void.

THE CARPING OF A SKEPTIC.
Justin McCarthy's Estimate of Mr. Balfour's Speech.

LONDON, Feb. 16.—The Nationalist leader, Justin McCarthy, speaking of Mr. Balfour's address, in answer to Mr. Gladstone, said that it was the carping, unmitigated speech of a philosophic skeptic. "It was a mistake," said Mr. McCarthy, "to attack us as the details of the bill. We will meet and beat him on the details."

Mr. McCarthy ridiculed the objection to elections of council, the popular chamber and members of parliament and he mentioned the smoothness with which different elections were held in London and elsewhere. Mr. McCarthy added that the speech of Mr. Balfour insured the second reading of the bill.

WRECKED BY A FLOOD.
Part of Mississippi Visited by a Terrible Rain Storm.

GREENVILLE, Miss., Feb. 16.—A terrific rain and thunder storm visited this section Tuesday night and continued till late yesterday morning. The Georgia Pacific railway tracks in Carroll county are under water for a distance of fifteen miles.

Several bridges are undermined. The streams are rising and it is feared the worst is not yet. The high iron bridge near Grenada was almost totally wrecked by the flood yesterday. The bridge cost \$17,000.

MINES TO BE SHUT DOWN.
The Low Price of Silver Affects the Occur D'Alene District.

BOISE, Ida., Feb. 16.—Advices from the Occur D'Alene silver and lead mining district in Shoshone county, are that, owing to the low price of silver, the mines will within a few weeks be compelled to shut down.

This action will throw about 2000 men out of employment. It is expected the closing of the mines will have an appreciable effect upon silver and lead markets.

Bishop Brooks' Successor.
NEW YORK, Feb. 16.—The Herald says that overtures have been received from Massachusetts by Rev. Dr. William Huntington, rector of Grace church, in this city, to permit the use of his name as a candidate to succeed the late Bishop Brooks.

It is said the overtures were contained in a formal letter sent to Dr. Huntington a few days ago, with the assurance that the proposal emanated from a sufficiently large and influential party in the Episcopal church. When seen last evening the doctor refused to confirm or deny the report.

Southern Lumbermen.
MOBILE, Ala., Feb. 16.—The Southern Lumber Manufacturing association met today, 100 members being present. The morning hours were devoted to a decision of a best plan to improve the selling price of yellow pine lumber. The afternoon session was consumed in committee work. Only one committee, that of grades and classification, reported, and that was to the effect that the same grade and classification now prevailing be retained in force for the ensuing year. The association then adjourned.

Against Crinoline.
HARRISBURG, Pa., Feb. 16.—Considerable amusement was created in the senate yesterday by the reading of a petition offered by Mr. Hackenback, asking that the manufacture and sale of hoops and crinolines be made a misdemeanor. President pro tem Gobin referred it to the committee on retrenchment.

Heavy Judgment Entered.
PITTSBURG, Feb. 16.—Judgments to the amount of \$28,000 were issued against the Broude Manufacturing company yesterday. The firm does business at the corner of Fifth and Old avenues and makes picture frames.

Secretary of Agriculture.
NEW YORK, Feb. 16.—A special from Omaha to the Advertiser says: It was rumored here last night that Mr. Cleveland had offered the portfolio of agriculture to Sterling Morton. There are good reasons for giving the rumor credence.

JOBBERS' UNION

By Far the Most Brilliant Banquet Which Was Ever Held in the City of Duluth.

President James J. Hill's Speech on the Railroad Situation Was One of the Chief Features.

Announced That Spring Will Witness Construction of Direct Line From Red River to Duluth.

Able Address by James E. York on Iron and Steel Manufacture Here—Other Fine Speeches.

The banquet of the Duluth Jobbers' union, held at the Spalding last evening, was not only the event of the season, but an unequalled success. There was an array of business talent seldom seen together in one body at one time. The results socially were all that could be expected and the results from every other standpoint are bound to be of great magnitude.

The guests assembled in the hotel parlors from the hours of 7:30 to 9:30 p. m. and were received by a committee composed of Messrs. F. A. Patrick, McKinley, D. G. Cutler, C. B. Woodruff and T. B. Hawkes. Hoare's orchestra furnished music of strains the sweetest from its station in one of the parlors, while all who thirsted found a beautiful array of liquid refreshments in the corridor.

Not long before the hour of 10, the dining room became the object of a point. Covers were laid for 175 guests. Running across the upper end of the banquet hall was a table arranged for the officers of the union, the toastmaster and the speaker, while the guests occupied three long tables extending down the hall at right angles to the one at which sat the master of ceremonies and his array of waiters.

The snowy linen, sparkling glassware and the heavy silver, all set off with floral decorations most abundant pleased the eye and increased one's appetite. Nearly every chair was occupied when the serving of dinner commenced. At the head of the table sat A. B. Chapin, president of the union. At his right was President J. J. Hill, of the Great Northern road, and on his left was the toastmaster, Fred A. Patrick. The dinner was most sumptuous and complete and occupied the undivided attention of all for about two hours and a half. With the coffee and cigars came the heavy bursts of intellect and the display of oratorical pyrotechnics.

THE INTELLECTUAL FEAST.
President Chapin, of the Jobbers' Union, Opened the Exercises.

After the President A. B. Chapin, of the Jobbers' union, arose and in a very few words opened the intellectual portion of the program, which was unquestionably the best that has ever been heard at Duluth banquet. He said: "We are here for a love feast over the success of our undertaking, and are glad to have so many of our friends, with us. The union feels itself honored and indebted to those of our friends who have shown such an interest in our welfare as to come from a distance to be with us this evening, and to those we extend our thanks for their presence."

"The Jobbers' union, although young in its organization, is strong, vigorous and aggressive in its work. It was organized less than two years ago with a membership of thirty, which has steadily increased until now it is nearly doubled. If this rate of increase continues with a corresponding zeal of its members, it will bid fair to be a mighty organization in the near future, and an important factor in the development of the commercial interests of Duluth."

"The object of the organization is to increase the jobbing houses, the co-operative stimulation of trade, and the securing of better shipping rates and train and mail service. "Gentlemen, much has been accomplished in these lines. We are drawing near to the era of equal competition with any city of the Northwest. We have been hampered by unequal freight rates and facilities for reaching the Western trade. These wrongs are fast being righted. In the enterprise of bringing about increased freight advantages, has been one of the greatest points scored by the jobbers' union. The jobbers of Duluth have had a struggle to secure a commercial footing, but they have stood shoulder to shoulder in this fight, first conquering the home trade, then reaching South, East and West, covering territory equal in extent to that of any other city in the Northwest."

"By the force of our unequalled geographical position, and added to that the known energy and pluck of the denizens of our Hill city, we expect to be to the new Northwest what Chicago has been to the Northwest of former days."

"I now take pleasure in introducing to you the gentleman who will have charge of the intellectual part of the feast, Toastmaster F. A. Patrick."

Mr. Patrick was warmly greeted as he arose and introduced James G. MacPherson, secretary of the Chapin-Wells Hardware company.

DULUTH JOBBING INTERESTS.
James G. MacPherson Indicates Some of the Future Possibilities.

Mr. MacPherson responded to the sentiment "The Extension of Duluth's Jobbing Interests." He said that while he felt greatly flattered at the invitation given him, he hardly felt competent to speak on a subject so important. He thought perhaps he had bitten off more than he could chew. "I will not attempt to speak in the past of the jobbing inter-

DOCK AND BRIDGE CONTRACTORS SUPPLIED WITH ALL CLASSES OF WROUGHT IRON BOLTS AND CASTINGS ON SHORT NOTICE

TWO NEW ELEVATORS

Senator Severson Will Erect Them at West Duluth During the Coming Summer.

A Fine Site on the Water Front Donated—Pile Driving to be Commenced at Once.

An Unimportant Session of the City Fathers Last Night—Pocketbook Containing Money Stolen.

The contract has been finally signed which secures the erection of the first two of Senator Severson's elevators at West Duluth. They will have a combined capacity of 80,000 bushels. The location is between the water front and Main street on a donated site which is particularly advantageous for receipts by rail and shipments by water.

Pile driving for the foundation commences next week and the necessary dredging will be done as soon as the ice will permit. O. H. Simonds, of the West Duluth Land company, and Day K. Smith, of the Transfer company, engineered the deal through with the representatives of Senator Severson, who came here to inspect the ground and different sites. These representatives were J. F. Lahart, of Windom, and Charles Valentine, of St. Paul.

WEST DULUTH COUNCIL.

An Uninteresting Session of the Fathers Last Night.

An adjourned meeting of the village council was held last evening. But little business was transacted and the most of the time was taken up with a heated discussion on the merits of the different fire alarm systems. The matter was finally postponed another week. John Runghing, the sub-contractor on the city hall, presented his claim against the building.

A resolution was passed stating that when the legal difficulty was settled between Runghing and Contractor Norton the council would hand over to Runghing the amount of money now held back from Norton on his contract. The regular semi-monthly bills were passed. Trustee Hall reported that J. H. Mullen, of the West Duluth Water company, had agreed that the village would be supplied with free city water at the village hall.

Stole a Pocketbook.
A pocketbook containing \$61.10 was stolen from a man by the name of Lee at the boarding house of J. C. Wills, on Second avenue west, on Tuesday night. No clue to the robbery has been found and the owner of the stolen property has no suspicion of who committed the deed.**West Duluth Briefs.**
Among the names mentioned for alderman in the Second ward are B. C. Dent, James A. Kirkwood, S. Wells, A. Dunleavy and Harry Petter, in the ward of Olafson, A. Bagley, L. Aune and Mr. Patterson. It is said that Andrew Meldahl is a sure candidate in the Fourth ward.
Wm. Allen, a wealthy lumberman from Iron Mountain, Mich., was in the city last evening a guest of Councilman Kirkwood, who on his way to the Mesaba range. Mr. Allen owns a whole block of West Duluth property, and is so delighted with his investments and the prospects of the place that he has determined to move his family here and become a permanent resident.

At the last meeting of the K. O. T. M., the following officers were elected: John E. Burgo, commander; Alex. Stewart, vice commander; Chas. Sills, record keeper; M. J. Crothers, finance keeper; J. P. Burnside, physician; David Flau chaplain; George Close, sergeant; Benj. Jarmy, master at arms; B. F. Fisher, master of guards; Peter McCormick, sentinels; Frank Fauler, picket.

The Duluth Manufacturing company delivered a consignment of eighty ore cars to the Duluth, Missaba & Northern railroad today.

The K. O. T. M. will meet hereafter every Thursday evening in Odd Fellows hall.

W. J. Brown, of Verndale, Minn., who has been a guest of Rev. T. M. Price returned yesterday.

J. J. Frey sold \$5000 worth of real estate in the Fifth division this week. The Y. P. S. C. E. will hold a social in the Congregational church Friday evening.

ing. All young people are invited to attend.

Dr. Burnside has purchased two lots on Fifth avenue west upon which he will erect two buildings for rental purposes.

William Cleary left today for the Mesaba range.

Village Engineer Krey is counted among the sick.

J. Aarsted, of Duluth, has purchased a residence on Third avenue west and will come here to live.

The grand jury finds the West Duluth jail in good condition, thanks to the efficient services of Jailer Stevens.

James A. Kirkwood is mentioned as a possible candidate for village president.

West Duluth.
Two lots on Fourth avenue west, cheap; lots on Central and Grand avenues; large list in Third and Seventh divisions. City agent West Duluth Land company.

E. W. MARKILL, 7, Phoenix bldg.

Opened Today.
The Hotel Columbia which opened today under the management of J. R. Duff promises to become one of the most popular hotels in the city. Its central location opposite the Union depot, on Michigan street, is sure to secure for it a large transient trade, and Mr. Duff's reputation as a caterer will make it headquarters for a large percentage of people who take their meals down town.**Almost Given Away.**
Will be the entire stock of clothing at Sam Loeb's at the auction sale which is now in progress. If you need anything in the clothing line now is your opportunity.**The Latest Thing in Calendars.**
In striking contrast to the numerous fanciful calendars which flood the mails at this season of the year, is the one that is issued by N. W. Ayer & Son, the Keeping Everlastingly At It, Newspaper Agents of Philadelphia, and which has been for years a very great favorite.

It is large enough to be easily read across a room and handsome enough to hang on the wall for a year without becoming an eyesore. This issue has a new heading which is both artistically designed and beautifully printed.

It is so packed as to reach its destination in perfect condition, and it is sent to any address, postpaid, on receipt of 25 cents. The publishers say that the sales of this calendar increase every year, and our own experience is that having become acquainted with it, we would be very loath to go back to the other kind.

Clothing at Auction.
At Sam Loeb's, Second avenue west and Superior street. Buy anything in the store at your own figures. Going out of business April 1.**Offices For Rent.**
Elegant ground floor offices for rent in the new Herald building, 220 West Superior street. Ready for occupancy Feb. 1. Inquire at Herald office in Henderson block, Fifth avenue west and Superior street.**Clothing! Auction!**
At Sam Loeb's. Come at once. Stock must be closed out.

Wanted Them Not.

It was difficult to conjecture what part the man with a boot and shoe took in the great play of the universe.

Yet he must live.

When he asked the little boy with flaxen curls to go into the house and steal for him a roast chicken or so much thereof as might be accessible, he threw a degree of pathos into his voice that did not miss of its mark.

The little boy assented and promised to do his best.

Disappearing with alacrity he returned in a moment.

"I can't!"

The youthful face was clouded with regret.

"Get any chicken, but here's some cigars."

The man with a boot and a shoe beamed radiantly.

"Don't tell on me, will you?" pleaded the child apprehensively. "Pa'd be awful mad because ma gave!"

"Hold!"

The tramp was shuddering.

"My boy, I cannot encourage theft in one so young. No, thank you, little man."

With a look of extreme repugnance he turned and walked away.—Detroit Tribune.

Economy in Whiskers.
"What do you suppose old Scrogue wears his whiskers long for?"

"To save the cost of cutting 'em!"

"No, to save the cost of buying neckties."—Chicago News-Record.

A Sad Face.
Mr. Bilkins—What a sad face that woman has!

Mrs. Bilkins—Yes, poor thing! She has either loved and lost or loved and got him.—New York Weekly.

Young Mothers!

VAN RENSSALEAR DEAD.

One of the Best Known Men in the Northwest Has Departed.

S. J. Van Rensselaer, recently of Winnipeg and well known all over the Northwest, died at the Soldiers' home at Minnehaha last week. "Van," as he was familiarly called, was one of the best known men in Winnipeg. He was a keen sportsman and took an interest in all that pertained to athletics. He was a prominent actor in many of the stirring episodes of the earlier days of that country's history, and before he went there drove a stage coach between St. Paul and Duluth. He also drove a stage between Winnipeg and Moorhead before the advent of the railroad in Manitoba.

He was connected with the American Express company as manager for some years, and later was in the office of the Great Northern railway. Some months ago he began to fail in health, and softening of the brain was indicated. Through the efforts of the officers of Manitoba Post 592 G. A. R., Lieutenant Governor Ives secured him admission to the Soldiers' home at Minnehaha.

The deceased served through the American civil war and was attached to the First Minnesota infantry, a regiment that lost 83 per cent of its members in the battle of Gettysburg. When Secretary Noble visited Winnipeg some short time ago, Mr. Van Rensselaer's case was laid before him by the Winnipeg post G. A. R., and through his efforts the matter was taken up by the pension bureau and a pension was to have been granted the deceased in a few weeks' time.

The sad news of "Van's" death will be received with deep regret by his extensive circle of friends and acquaintances throughout the Northwest.

The merit of Hood's Sarsaparilla is proven by the many wonderful cures it is accomplishing. It is just the medicine for you.

Clothing at Auction.
At Sam Loeb's, Second avenue west and Superior street. Buy anything in the store at your own figures. Going out of business April 1.**The Only Line That Does It.**
The St. Paul & Duluth Short line runs three daily trains between Duluth, St. Paul and Minneapolis and Chicago, making direct connections for all points in the East and South, Southern Florida and California. IN THE LEGISLATURE

Boggs' Bill For Change of Venue in Municipal Courts Passed by the Senate Today.

Senator Dean's Bill Prohibiting Pool Selling Except at the State Fair Was Also Adopted.

West Duluth People Are to be Given a Hearing on a Bill at Cotton's Request.

ST. PAUL, Feb. 16.—[Special to The Herald.]—Mr. Boggs' bill relating to change of venue in municipal courts was called up by Senator Stevens in Mr. Daugherty's absence today and passed the senate. It has already passed the house.

The matter of turning over the grain inspection fund to the amount of \$75,000 to the internal improvement fund came up today. This, of course, caused a general kick on the part of the Populists, who want this money to build an elevator at Duluth. The matter came up on a motion to place Craven's bill, which turned over this fund to the internal improvement fund, and Craven won a victory by getting his bill upon general orders.

The following bills were passed by the senate this morning: Glader's bill providing for platforms at railway stations for unloading heavy machinery; Crandall's bill obliging railroads to post delayed and late trains upon blackboards at railway stations.

Senator Dean's bill preventing pool selling passed by a vote of 35. It is amended so as to allow pool selling at the state fair three days each year.

The following bills were introduced in the senate: By Wood, a bill making the term of county auditors four years and treasurers two years; by Donnelly, a bill fixing charges for grain carrying and delivering; by Severson, a law amending the law relating to appeal; by Tawney, a bill to elect town supervisors for three years.

In the house this morning, Mr. Fletcher reported bill 544, a substitute bill for 113 to validate the water power company franchise of West Duluth. Mr. Cotton took the floor and protested against the report of 544 which he said was fair on its face but unfair in reality. He wanted the bill referred to the judiciary committee so that the people of West Duluth could have a hearing. He said he was a member of the judiciary committee but that measure was acted upon during his absence and he considered it very unfair. The bill was referred to the judiciary committee for a hearing of West Duluth people and West Duluth

people should turn out as there is liable to be a compromise if the thing is worked right.

ABANDONED THE FIELD.

The Kansas Populists Unable tooust the Republicans.

TOPEKA, Kas., Feb. 16.—The Populists have practically abandoned the field. The crisis raised by Sheriff Wilkerson calling out a posse of 1000 men to defend the Republican position is so critical a one, and one so filled with embarrassing difficulties, that they decided not meet.

At noon the governor held a conference with Populist members and various leaders of the party. The governor said the militia could not be depended upon to carry out his orders.

The resistance of 125 men composing the force of deputy sergeants and a hundred provisional troops (all that could be depended upon to stand loyal) would be useless, he said, before the sheriff's posse of 1000 men.

It was decided to hire a hall downtown for the Populists' house, and there the meetings of Populists will be held until the difficulties are settled.

The action is looked upon by some as a bluff, but it is generally regarded as the logical outcome of the sheriff's action in summoning his posse to support the Republican position.

To Succeed Mr. Hayes.

BALTIMORE, Feb. 16.—Goldsborough S. Griffith, president of the Maryland Prisoners' Aid society, states that Gen. Rueliffe Brinkerhoff, of Mansfield, O., will succeed the late R. B. Hayes as president of the National Prisoners' Aid association.

Avoid Cold Weather

And make a pleasant trip to Florida or the Gulf coast. The Chicago & Eastern Illinois railroad, "Evansville Route," will take you there by the shortest way, six hours quicker than any other line. ANNALS OF THE WAR.

Jan. 1 to 21, 1864.—Union cavalry raids in Mississippi, Alabama, Georgia and Virginia. Operations in east Tennessee continued.

Feb. 2.—Sherman's raid in Mississippi begun, with 20,000 foot, 1,200 horse and 40 guns. There were destroyed 150 miles of railroad, 67 bridges, 7,000 trestles, 30 locomotives, 28 cars, 1,000 bales of cotton and over 2,000,000 bushels of corn. Four thousand negroes came in with the troops. The expedition marched 400 miles in 24 days.

Feb. 6.—Butler attempted to surprise Richmond by making a dash up the peninsula. Scheme revealed by a deserter and frustrated.

Feb. 14.—Gainesville, Fla., taken by Captain Marshall and 40 men; \$1,500,000 worth of stores captured.

Feb. 17.—United States steamer Tahoma destroyed the salt works near St. Mark's, Fla.; over \$2,000,000 of property burned.

Feb. 18.—The Housatonic sunk by a Confederate torpedo boat at Charleston. Most of the crew rescued.

Feb. 20.—Battle of Olustee, Fla. Union force, about 5,000, attacked by Confederates. Former defeated, with loss of 1,300 killed and wounded. Confederate loss, 955 killed and wounded.

Feb. 25.—A. J. Smith's raid through Mississippi ended. Nearly 100 miles of Memphis and Ohio track destroyed, together with immense quantities of corn and other stores.

Feb. 28.—Kilpatrick, with 5,200 Union cavalry, started to surprise Richmond. He approached within two miles, but found the works too strong and retired.

March 1.—Grant made lieutenant general and placed in command of all the Union armies; Sherman placed in command of the Departments of the Ohio, Cumberland, Tennessee and Arkansas; Halleck relieved.

March 25.—Forest's attack on Fort Pillow repulsed by aid of the Union gunboats. Confederate loss, 300 killed, 1,100 wounded.

April 8.—Battle at Sabine Crossroads, La. Union troops worsted and forced to fall back.

April 9.—Pleasant Hill, La. Renewal of the previous day's battle. Banks worsted. Union loss, 20 guns and 3,000 men; Confederate estimated at 1,000.

April 12.—Fort Pillow stormed by Forrest's command of 6,000 men; terrible butchery of the garrison; of 600 men in the fort at the surrender less than 300 survived.

May 4.—Army of the Potomac, under Grant and Meade, crossed the Rapidan at Culpeper and drove back the Confederates.

May 5.—Butler's command advanced to City Point, Va., and entrenched at Bermuda Hundred.

May 5.—Battles of the Wilderness began at Shady Grove Church; heavy fighting all day.

May 6.—Second day of the Wilderness. Severe fighting all day, with little result. At some points the Federals had the advantage; at others they were beaten. Federal loss in three days, 5,607 killed, 21,463 wounded, 10,677 prisoners. Confederate, 2,000 killed, 6,000 wounded, 3,400 prisoners. —St. Louis Globe-Democrat.

TEN DOLLARS A MINUTE!

This is the average amount now being paid to the policy holders every minute of every hour of every day of every week, the year through by the

Metropolitan Life Insurance Company,

OF NEW YORK.

Which Company Has Recently Opened a Branch Office in This City.

This is one of the oldest life insurance companies in the United States. It has been doing business for more than twenty-five years. Its assets amount to more than sixty millions of dollars. It has two million seven hundred thousand policy holders. Between 10,000 and 20,000 families received the proceeds of their policies last year. Nearly 8,000 persons are actively in the service of this company in the United States. It is the most progressive life insurance company in America today.

Its Great Feature is its Industrial Plan of Life Insurance!

5 Cents a Week and Upward Will Secure a Policy.

All ages from 2 to 70 taken. Claims paid immediately at death. No initiation fee charged. Males and females insured at same cost. Premiums collected by the company weekly at the homes of policy-holders. Only healthy lives are eligible. No uncertain "assessments." No increase of dues.

THINK OF IT! The daily saving of FIVE CENTS will carry policies on the lives of every member of a family of seven persons.

The Branch Office of the Metropolitan is at Rooms 402 and 403 Chamber of Commerce Building.

CHARLES H. KEPPEL, Superintendent.

Where all inquiries may be answered, where applications for agencies will be received and where all who desire insurance are invited to call. If you cannot call in person, send for Pictorial Calendar or a copy of the company's illustrated publication, furnished free.

SPECIAL NOTICE. AGENTS WANTED.—Agents are wanted by this company in all the principal cities. Splendid opportunities are offered to active, energetic men. Those out of work, or those who are in situations with little or no chance of promotion, should see the business a trial. To the right kind of men it offers steady, permanent and paying positions, with opportunity for merited advancement. If this notice is not applicable to the reader and he has a friend whom he thinks it might interest, will be kind enough to bring the subject to that friend's attention? For further particulars apply to the branch office in this city.

HEROIC MONUMENT

Largest Statue of George Washington Ever Made Has Just Been Completed in Berlin.

Will Be Erected in Philadelphia By The Famous Pennsylvania Society of the Cincinnati.

Washington Was the First President of the General Order and Had Only Eight Successors.

The largest statue of George Washington ever made has just been completed in Berlin by Dr. Rudolph Siemering, the eminent German sculptor. It will be erected at the new street entrance to Fairmount park, Philadelphia, by the Pennsylvania Society of the Cincinnati. Washington was the first president of the general order, and he is followed by Charles Cotesworth Pinckney, Thomas Pinckney, Aaron Ogden, John Lewis, William C. C. Claiborne, and Samuel D. Harris in the order named. There were all military men. In 1854 Hon. Hamilton Fish was elected ninth president of the order of the Cincinnati and he held the office ever since.

PRESIDENT GENERAL HAMILTON FISH. Mr. Fish's career is familiar to all Americans. He was born in New York city Aug. 27, 1808, graduated from Columbia college in 1828; admitted to the bar in 1832; elected to congress in 1832, became governor of New York in 1847, and United States senator in 1851. When General Grant became president in 1869, Mr. Fish was appointed secretary of state and remained in his office until his retirement from office in 1877. Mr. Fish's name was suggested as a compromise candidate for president at the republican national convention in 1876. He is a widower and has five children, one of whom, Hamilton Fish, Jr., has earned a reputation as a shrewd political leader.

The order of the Cincinnati is perhaps the most exclusive in the United States. The original members were officers who participated in the Revolutionary war on the side of the Americans. Membership extends to the oldest lineal male descendant of a soldier, and in failure of direct male descent, to male descendants through intervening female descendants. There are now but seven state societies, those of Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, Maryland and South Carolina, besides one in France.

The statue of Washington which the Pennsylvania branch of the order will erect in Philadelphia is nearly 30 feet high, including base and pedestal. The base is octagonal and a little more than 30 feet in diameter. The pedestal is oval, of ornate design and embellished with characteristic American designs in bas-relief. At the top of the steps of the base is an upper platform, about which are several emblematic figures in easy attitudes. Two of the most notable of these are an Indian maiden, Mary and the brave warrior, Red Jacket, and the latter is engaged in repairing her broken net.

Each of these figures is about 15 feet in length, and the perfection of the pose, no less than the beauty of the lines, has elicited unsolicited praise from the Berlin art critics. The figure of the Indian maiden, and the brave warrior, are a breath of life, and the latter is engaged in repairing her broken net. Each of these figures is about 15 feet in length, and the perfection of the pose, no less than the beauty of the lines, has elicited unsolicited praise from the Berlin art critics. The figure of the Indian maiden, and the brave warrior, are a breath of life, and the latter is engaged in repairing her broken net.

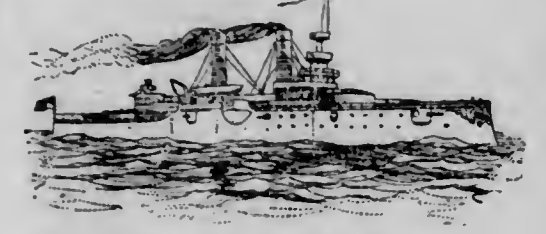

THE STATUE OF WASHINGTON. The statue itself is a fine specimen of equestrian sculpture. Washington is represented in his official uniform and

is supposed to be riding at the head of his troops. The head is thrown back and a little to one side. The face wears a determined but half expectant look. The right hand rests lightly at the side, while the left gracefully holds the reins which keep in check the fiery stallion which the figure bestrides with the naturalness of life. Washington's cloak appears to have been blown back by the wind. The statue is considered the masterpiece of Sculptor Siemering.

A POWERFUL WARSHIP.

The Last Vessel Contracted For by the United States Government. The Iowa will be the most advanced type of battleship in the United States navy. The appropriation provides that the vessel shall cost, exclusive of armament and speed premiums, not more than \$4,000,000. The Iowa will be a formidable battleship. The following are her dimensions: Length on load water line, 360 feet; extreme breadth of beam, 73 feet; displacement at normal draft, 11,500 tons; freeboard forward, 24 feet. The Iowa will have engines with a maximum indicated horsepower of 11,000, and she will be able to steam more than 16 knots an hour. She will be able to carry 3,000 tons of coal, and her crew will consist of 430 officers and men.

The engines will be vertical and left, and will be of the vertical, inverted cylinder, direct acting, triple expansion type. There will be a 28-inch high pressure, and a 55-inch intermediate pressure, and an 85-inch low pressure cylinder, each piston having a stroke of 48 inches. The working pressure of the boilers will be 160 pounds to the square inch. The total heating surface of the main boilers will be 23,351 square feet, and the grate surface 736 square feet. The boilers will be of the horizontal, return 5-tube type. There will be 3 main double ended and 2 auxiliary single ended steel boilers in the Iowa.

The Iowa's battery will be a particularly heavy one and will consist of 4 12-inch breechloading rifles, 8 8-inch breechloading rifles, 6 4-inch rapid fire rifles, 20 3-pounders, 4 galling guns and 1 field gun. There will be 2 barbette turrets—1 forward and 1 aft—for the 12-inch guns. Four barbette turrets—2 on each broadside—will contain the 8-inch rifles. Four of the 4-inch guns will be in armament on the gun deck, and the other two will be on the bridge at the extreme end of the superstructure. The 3-pounders will be distributed about on the gun deck, the turrets and superstructure. Two of the 1-pounders will be placed in the military tops with the galling guns, and will protect the extreme end of the gun deck.

The hull of the Iowa about the water line region will be protected by a side armor belt 14 inches thick and an average width of 7 feet 6 inches. The hull will be of steel unsheltered. The vessel will have a double bottom and water tight compartments extending 10 feet above the load water line. She will carry no sail and will have but 1 military mast.

The barbette and turrets for the 12-inch guns will be 15 inches thick. The conning tower will have steel sides 10 inches thick and an armored communication tube 7 inches thick. The barbette for the 8-inch guns will have a maximum thickness of 8 inches. The 4-inch guns will be protected by stationary steel shields, which are really parts of the hull, as they are built into it, forming armored sponsons. Shields and extra side plating will afford protection for the smaller guns. The deck will be of steel of a minimum thickness of 3 inches. Transverse armor and a cellulose belt will add to the protective quality of the Iowa, which will be a valuable addition to the United States navy.

France Wants New Postage Stamps. Whether the new United States Columbian postage stamps has aroused jealousy is not known, but it is a fact that a French newspaper has offered prizes for the best designs for a new series of stamps for France. The issue of 1875 is designated as "abominably ugly and inartistic."

MR. CHUNN OF CHINA.

He Will Represent the Celestial Empire at the World's Fair.

Mr. Chunn of China will be a prominent figure at the Chicago World's Fair. At first view this would seem of little consequence, but when it is added that Mr. Chunn is the greatest merchant in Canton; that he is among the richest men in China, and that he is a great success in business, it is the discovery of an eminent physician, Dr. Greene, of 35 West Fourteenth street, New York, the successful specialist in curing nervous and chronic diseases, and he can in all cases be consulted free, personally or by letter.

The Quickest Route to Hurley, Ironwood and Bessemer. Is via the South Shore line. Train leaves Duluth, Union depot, at 11:22 a. m. and arrives at Hurley 4:15 p. m., Ironwood 4:25 p. m., Bessemer 4:47 p. m., Wakefield 5:05 p. m.

If Your Cistern Is Out of Order or Soft Water is scarce, don't worry yourself for a moment—go right ahead and use hard water with **KIRK'S WHITE RUSSIAN SOAP** and you'll never know the difference. The clothes will be just as white, clean and sweet-smelling, because the "White Russian" is specially adapted for use in hard water.

JAS. S. KIRK & CO., Chicago. Dusky Diamond Tar Soap. Best Soap for the Hands.

Wanderer's Song. Whom God rewards with fullest measure He sends him all the fairy treasure Of wood, of stream and mountain steel The brooks from rock to rock are flinging Their foam on high the larks rejoice, Why should not I with them be singing With happy heart, with merry voice? "For he who guides all nature's forces, Who watches o'er the swallows' flight And holds the planets in their courses, He too, will lead me through astral spheres."

FOR MOTHERS.

Stories of Children to Touch the Heart.

Parents Who Read These Lines Will Find Food For Thought.

There Can Be Nothing More Interesting Than That Concerning Children.

"It affords me greatest pleasure," said the noted scholar, Prof. J. M. Elwood, of 43 Cornelia street, Brooklyn, N. Y., "to state that my daughter, who was a sufferer from St. Vitus' dance, and who was treated for it by prominent physicians in Brooklyn without result, was completely cured by using two bottles of Dr. Greene's Nervura blood and nerve remedy."

Mrs. J. A. Ferre, who resides at No. 905 Main street, Hartford, Conn., says: "My daughter became very ill with St. Vitus' dance over a year ago. She became so bad that she lost the use of her right arm and leg, and she thought at one time she would lose her speech. Her tongue was almost paralyzed. She was so bad that she could not feed herself, and at night she would get so nervous I had to sit and hold her. I tried several doctors but they did not do her any good. I did not find anything that would help her until I tried Dr. Greene's Nervura blood and nerve remedy. She is now entirely over the St. Vitus' dance and her health is improving."

"My little daughter, Ethel May," said Mrs. H. H. Watson, of 155 Bloomingdale street, Worcester, Mass., "was terribly and alarmingly sick. She had twenty-six convulsions in two years. Her nerves were very weak, her appetite very bad; she could not sleep nights, her limbs would draw up, and she suffered, oh, so much! She was as yellow as saffron and weak and delicate. Our local doctors gave her up, saying she could not be cured. "But thanks to a wonderful medicine, she is now perfectly well and healthy. The remedy is Dr. Greene's Nervura blood and nerve remedy, and it has completely cured my little girl."

Mrs. Henry Fry, who lives at 1 Flint Place, South Boston, Mass., says: "My daughter, 12 years old, became affected with St. Vitus' dance. I at once placed her under the care of physicians at the Boston Dispensary, where she was treated for three months. She grew worse until she entirely lost her speech, and the right arm became useless. I tried other remedies without benefit. Finally I began the use of Dr. Greene's Nervura blood and nerve remedy, and before finishing one bottle she could talk. She has now used six bottles and she talks as well as ever, has perfect use of her arm, and is wonderfully improved in all respects."

"The effect of this wonderful medicine in her case has excited great interest in many neighbors and friends who are acquainted with the facts."

"My little girl," said Mr. C. H. Bemis, Esq., of Granby, Mass., "had been taking medicines for a severe nervous trouble for nearly two years, receiving no benefit. I then bought a bottle of Dr. Greene's Nervura blood and nerve remedy, and her recovery by its use has been remarkable. Others of the family have also received benefit from its use."

Mrs. L. J. Emigh, who resides at 18 Delaware avenue, Pittston, Pa., says: "My daughter at the age of 14 years, was suffering with a nervous disease, at times unable to walk or talk, and was constantly in motion night and day."

"After trying all the physicians at home and all failing to benefit her, I tried Dr. Greene's Nervura blood and nerve remedy, and it worked like magic. She has taken three bottles, and is now a strong, healthy girl. I can truly say that this wonderful remedy is the best thing for nervous diseases."

There is no mistaking the fact that this is the true children's medicine, and that it occupies in the household the position of the best and surest family remedy. It is perfectly harmless to give to nervous, restless, sleepless and sick infants and children of any age, being made from pure and health-giving vegetable medicines.

If your child is sick, send instantly to your druggist for a bottle of this wonderful cure of disease, and when you see your darling gain steadily in health and strength day by day, you, like thousands of other parents, will bless the day you learned of its marvelous curative properties. It is recommended by doctors, indeed, it is the discovery of an eminent physician, Dr. Greene, of 35 West Fourteenth street, New York, the successful specialist in curing nervous and chronic diseases, and he can in all cases be consulted free, personally or by letter.

The Quickest Route to Hurley, Ironwood and Bessemer. Is via the South Shore line. Train leaves Duluth, Union depot, at 11:22 a. m. and arrives at Hurley 4:15 p. m., Ironwood 4:25 p. m., Bessemer 4:47 p. m., Wakefield 5:05 p. m.

Wanderer's Song. Whom God rewards with fullest measure He sends him all the fairy treasure Of wood, of stream and mountain steel The brooks from rock to rock are flinging Their foam on high the larks rejoice, Why should not I with them be singing With happy heart, with merry voice? "For he who guides all nature's forces, Who watches o'er the swallows' flight And holds the planets in their courses, He too, will lead me through astral spheres."

Wanderer's Song. "For he who guides all nature's forces, Who watches o'er the swallows' flight And holds the planets in their courses, He too, will lead me through astral spheres."

LAKESIDE

We wish to Call Attention at this time to the Many Attractions Lakeside Possesses as a Place of Residence.

Lakeside has city water, a sewer system established and in operation, fine schools, beautiful churches, well graded streets and magnificent parks.

We have many lots for sale in all parts of this best residence portion of Duluth.

We are already beginning to take contracts for building in the spring.

Remember that your leases run out May 1, and now is the time to look about, secure a lot and arrange for a home of your own.

We are building on easy terms, so see us at once and take advantage of the best opportunity of a lifetime to get a home.

For a steady increase in value or for residence purposes we have the best property in the market.

Call at our office for maps and full particulars.

LAKESIDE LAND COMPANY,

WM. C. SARGENT, Manager,

507 First National Bank Building, Duluth.

BROUGHT TO HER SENSES.

Some Old Love Letters and Their Effect on Two Young Lives.

"Grog, are you crazy? I call a tumbled heap of femininity upon the sofa. "What a wretch you were!" "A very clever wretch, I think."

"Was it a trick?" "It was—and it succeeded."—Boston Globe.

How He Knew. Before the fish commissioners of California decided to stock the streams of the state with that much despised but powerful fish, the German carp, they were greatly concerned as to whether it would live in certain waters. The question was debated at several meetings and was finally submitted to Professor H—, an eminent authority.

Samples of the water were obtained and turned over to the professor, who in a short time submitted a favorable report, and the carp were accordingly turned loose in the rivers.

The commissioners were greatly impressed by the professor's knowledge, but one of them had a question to ask. "How could you be sure that carp would live in the water submitted to you?" he inquired.

"Why," answered the professor, with an amused look, "I bought a carp for 10 cents and put it into the water. It lived."—"You're a Companion."

Not Enough. Member of Committee—We expect to hold a convention of inventors of safety car couplers in this city shortly, and I would like to make arrangements to have them all stop at this hotel, if suitable terms can be had.

Clerk of downtown hotel, in consternation—"My dear sir, we have only 1,300 rooms in the house."—Chicago Tribune.

Evidence of Good Faith. "Of course you are willing to work," observed the lady. "How can you doubt it?" protested the tramp when after a short rest he attacked with renewed vigor the chicken leg she had given him.—Detroit Tribune.

The Way. Skidds—I wish I could get a great literary name. Snopser—All you have to do is to win a prize fight.—Truth.

Look Out! "Say, dad!" "Well?" "Ma says you are to bring that worm to her instead of gadding over to that brown hen with it, and she says if you don't she'll teach you how the term 'hen-necked' originated."—Life.

THE DISTRICT COURT

The Somewhat Sensational Case of E. F.
Clarke vs. George E. Milligan is
on Trial Today.

The Jury Disagreed in the Noted Harriet
Wilkins vs. Duluth Street Railway
Company Case.

Two Criminals Arraigned and Plead Not
Guilty—Cases Set For Trial
This Week.

There was another change of judges in
the district court this morning, Judge
Seale presiding in room 1 after the
opening of court, which was made by
Judge Ensign. The latter charged the
jury in the case of O. G. Traphagen et
al. vs. John G. Howard, and they were
out at noon considering the case. Judge
Ensign also made the following set of
cases for the balance of the week:

Thursday—128, 129, 130, 131.
Friday—132, 133, 134, 135, 136.
Saturday—137, 138, 139, 140, 141, 142.

At this point Judge Seale took his
seat and the case of E. F. Clarke vs.
George E. Milligan, a dispute about
some iron stock, was the first action to
come before him. This is quite a sensa-
tional case. The case was decided in
favor of Milligan.

Before Judge Brown in room 2 the
jury in Harriet Wilkins vs. the Duluth
Street Railway company reported that
they were unable to agree and were dis-
charged. In W. E. Covey vs. assignee
of P. J. Nicol, insolvent, vs. D. C. Cut-
ler et al., the jury found for the plaintiff
in the sum of \$881.50.

After the plaintiff's testimony was in
in the case of Edward Thompson vs. the
Duluth Gas and Water company, the
plaintiff moved to dismiss and the mo-
tion was granted. The case of Charles
A. Elton vs. E. E. McDonald is on trial.

Duluth Board of Trade

Finding additional room necessary
will build a very large and hand-
some building.
Property adjacent to this building
will be immensely increased in
value.

No site has been selected and prop-
erty holders, with others interested,
are invited to submit offers of bonus
to be paid for the location of the
Board of Trade building upon a site
named by the guarantors of the
bonus.

Offers of bonus must be made in
the names of persons of known re-
sponsibility or accompanied by
ample guarantee.
Within reasonable bounds the
building will be placed in the loca-
tion offering the largest bonus.

O. C. HARTMAN,
A. D. THOMSON,
JNO. MACLEOD,
FRANKLIN PAINE,
Committee.

It Worries Them.

The police and city officers are worry-
ing their brains over ways and means to
stop sand hauling and excavations on
Minnesota Point, near the government
property. Seven teams are hauling
eleven loads of 3½ cubic yards each
every day and serious damage may re-
sult from the waters after the ice breaks
if this is allowed to go on. W. C.
Sargent controls that property, and when
approached, the sand haulers say they
have his permission. Last winter a large
gang was arrested for this same thing,
but were released by the court.

Sues the City.

W. J. Swan wants \$10,000 damages
from the city of Duluth as he alleges
his horses were frightened by the road
roller and ran away, injuring himself, his
wagon and the horses. He has brought
suit in the United States court to recover
the amount.

Looks Much Like Business.

We now have the promise of a dry
goods store that will excel anything in
the state in a short time. The old Kahn
stand is now being remodeled for T. E.
Haynie & Co., and judging from the re-
marks of the architects in charge it will
be a gem.

The entire interior is to be finished in
white and gold, with a polished maple
floor. Immense windows are being ar-
ranged for; a thirty-foot addition is be-
ing added to the rear, which will have a
roof of glass, thereby securing an abun-
dant of light. Ed Howard is authority
for the statement, "that every modern
convenience necessary to a well regu-
lated dry goods house will be among the
appointments in the store."

The progress this institution has made
is certainly evidence that Duluth is not
slow to appreciate and materially sup-
port any first class enterprise coming
within her fold.

Extra Herald.

NOT STRONG ENOUGH.
Consultation Over the Lester River Bridge On
Ninth Avenue.

The representatives of the Lakeside
Land company, the council's committee
on streets, alleys and bridges and the
board of public works met at 1:30 o'clock
this afternoon to discuss matters con-
nected with the unfinished bridge over
Lester river on Ninth avenue. This im-
provement has been partly constructed,
but the engineering department has
found that it is insufficient in strength to
bear the traffic that will pass over it.

The contractors and bridge company
have stated what they can do to
strengthen it and what they will allow
on what has been done. The city will
have to increase the amount of the
original appropriation. The Lakeside
Land company originally donated \$300
to the enterprise and the meeting this
afternoon was held to see if that amount
would not be increased. The council's
committee will report at the meeting to-
morrow.

Smith-See Annual.
The annual meeting of the Smith-See
company was held Tuesday afternoon
and it was resolved to increase the cap-
ital to \$100,000. The purchase of an
800-ton steamer for the south shore trade
was authorized. The season's business
was reported by the proper officers and
the showing was highly satisfactory.

The following directors were elected:
F. W. Smith, E. S. Smith, R. H. Hunt,
W. S. Moore, C. H. Eldridge and J. C.
Morrow. The officers are as follows:
President, F. W. Smith; vice president,
W. S. Moore; secretary and treasurer,
R. H. Hunt; general manager, E. S.
Smith.

CHANGED THE LOCATION.

Removal of the Lighthouse at the Natural
Entrance.

WASHINGTON, Feb. 16.—(Special to
The Herald.)—The lighthouse board has
decided to change the lighthouse at the
natural entrance from the Minnesota
pier to the Wisconsin pier on Superior
bay, as recommended by the local engi-
neer officers. There will be a fog signal
established without delay.

WHEAT MARKET DULL.

Trading Confined to May and Prices Closed
Unchanged.

The wheat market was quiet today. It opened
1½¢ lower than last night and ruled steadily
and for a time was actually the same as yesterday, except
for a few cents' difference. The following
were the closing prices:
No. 1 hard, cash, 65½¢; February, 65½¢;
May, 65½¢; July, 65½¢. No. 2 northern, cash,
61¢; February, 61¢; May, 61¢; July, 61¢.
No. 2 northern, cash, 59½¢; No. 3, 58½¢;
No. 4, 57½¢. On track—No. 1 hard, 65½¢; No. 2,
61½¢; No. 3, 59½¢; No. 4, 57½¢.

Outside Markets.

Chicago, Feb. 16.—The close: Wheat: Feb-
ruary, 61½¢; May, 61½¢; July, 61½¢. Corn:
February, 31½¢; May, 31½¢; July, 31½¢. Pork:
February, \$12.75; May, \$12.75; July, \$12.75.
Lard: February, \$10.00; May, \$10.00; July, \$10.00.
Minneapolis, Feb. 16.—Wheat: May opened
at 65½¢ and closed at 65½¢; July opened
at 61½¢ and closed at 61½¢; No. 1 hard, 65½¢;
No. 2 northern, 61½¢; No. 3, 59½¢; No. 4, 57½¢.

PEACE RESTORED

The Trouble in Kansas Was Brought to a Peaceful Termination by a Mutual Agreement.

Governor Jewell Held Out the Olive Branch and His Terms Accepted by the Republicans.

The First Blood Drawn This Morning When a Populist's Nose Was Tapped in a Skirmish.

Two Cases in the Supreme Court Involving Questions at Issue to be Decided Soon.

TOPEKA, Kas., Feb. 17, 2 p. m.—The governor has finally succumbed to pressure and signed the peace agreement. The militia are to be sent home, the sheriff's forces disbanded and the Republicans to retain undisputed possession of the house. After a consultation lasting from 9 until 12:30 o'clock Gov. Jewell signed a peace agreement between him and the Republican house of representatives.

By its terms the militia companies are to be sent home at once and the sheriff is to discharge all of his deputies by 12:30 o'clock. The Republican house is to retain full and undisputed possession of representative hall, and the Populist house is to hold sessions in a room outside of the capitol building. By the terms of the agreement neither house is to interfere with the proceedings of the other.

News of the settlement of the revolution was received in Republican hall with the wildest demonstrations of joy.

THE MORNING'S SCENES.

The Nose of a Deputy Sergeant-at-Arms Was

TOPEKA, Kas., Feb. 17.—The first blood of the Kansas revolution flowed from the nose of a sergeant on guard on the east entrance to the state house at 9:30 this morning. As had been the custom for two days, all of the entrances to the capitol building and grounds have been closely guarded by the militia men. A few minutes after 9 o'clock a squad of deputy sheriffs and assistant sergeants-at-arms, armed with clubs and batons, dashed through the yard and up the stairs and up the barricade into representative hall.

When they reached the entrance their progress was barred by a line of militia men. They demanded admittance. The guards objected for a moment, then stepped aside and the sergeant-at-arms, through the gates with his escort. No demonstration was made on either side.

It required more than a half hour for all the officers who came in with a rifle to make their way into the hall, which was soon packed with men armed with clubs and guns. At the head of the stairway and beyond the barricade a number of guards armed with Winchester were at once stationed to resist any advance that might be attempted by the militia on the order of the governor. The bayonets of their guns were thrust through the spaces between the ladders that were heaped up to prevent the possibility of a sudden charge proving effective.

In the state house yard, the rush of the deputies was followed by intense excitement in the military headquarters. Bugles were sounded and full companies were called out to take the place of the corporal guards. But one man, a sergeant, was injured in the melee and he only to the extent of a bruised and bloody nose. The Republicans remained in the house last night holding out, strict orders having been issued early in the evening that no one be allowed to leave the hall, and the utmost vigilance was observed all night to prevent a possible, though unexpected, attempt on the part of the Populists to capture the hall.

The members were a little more comfortably located than they were Wednesday night, many pillows and blankets having been brought in. An invitation was extended to the company of national guards to camp in the heated hall rather than in the stone-floored corridor to which they were assigned. The invitation was accepted, and the whole company marched into the hall to benefit by the courtesy of the house until they were obliged to go on guard duty.

About 2 o'clock this morning the hall resounded with vigorous taps of the gavel by the speaker, who thus roused the statesmen from their slumbers. The call proved to be one of peace and not of war. As soon as the men had crawled out of their blankets and opened their eyes, the speaker announced that he was in receipt of another offer of compromise from the governor.

The conditions were practically the same as those incorporated in the agreement presented by the house to the governor last night. It proposes that the Republicans shall have undisputed possession of representative hall, with all of its appurtenances and connecting rooms, the Republicans to agree not to make any further arrest of Populist house officers for contempt. The Populists were to continue their meetings in a hall down town. If the executive, R. M. Bishop of Ohio, who has been sick for a month past, cannot live longer than twenty-four hours. He is failing rapidly.

The proposition of the governor was taken up and debated for three hours. Amendments to it were offered which bound the governor to abide by the decision of the supreme court as to the legality of the rival houses. It was finally agreed to accept the compromise as tendered, and a committee was appointed to report to the governor. At 10 o'clock the committee had not reported back to the house the result of the conference with the chief executive.

A military company from Clyde, numbering forty-nine men in full uniform and carrying guns and ammunition, arrived in the city this morning in response to the governor's orders. Instead of reporting to the adjutant general they marched to the sheriff's office and were sworn in as deputies. The captain of the company, who is a Populist, ordered the men to march to the capitol building, but they refused to do so. A company from Kansas City, Kas., arrived late last night, but they left their uniforms at home and tendered their services to the sheriff, ignoring the orders of the military authorities at the state house.

Deputies are pouring in thick and fast to Republican members this morning, bringing offers of men and money to carry on the war against the governor and his troops. There are now 200 men in Topeka under arms, ready to obey the orders of Sheriff Wilkerson.

The sheriff's office is asked on the ground that the Populist house is illegal and has no authority to appropriate the state treasury for any purpose. The best lawyers in the state are employed on both sides.

In the supreme court L. C. Guno, who was arrested by the Republican sergeant-at-arms for contempt of the Republican house authority, has asked for his release on a writ of habeas corpus. He claims that the Republican house is illegally constituted and consequently has no authority to hold him in custody. The decisions will probably not be made in either case until late in the afternoon. It is expected that the Republicans will win both, in which event the decisions will go on record showing the Republican house to be legal and the Populist house illegal. It is not believed that the Populists will abide by the decisions, but they may proclaim that the judiciary has no authority to decide the status of the legislature.

At 11:30 another posse of deputy sheriffs and assistants, armed with clubs and batons, arrived for the battle between the militia and the sheriff's force. There was an attempt to enter the capitol building at the entrance to the capitol square, and it has been freely given out by Populist leaders in the state house corridors that the militia are to be driven out of the building by the sheriff's force.

The deputies expected resistance and were gathered at the curb, just outside the capitol building, when the militia were ordered to advance. The men with the clubs had the way through the crowd cleared for them and approached the sentries without hindrance. They demanded admittance. The guards objected for a moment, then stepped aside and the sergeant-at-arms, through the gates with his escort. No demonstration was made on either side.

MILLER'S BIG GAIN.

Three Ballots on the North Dakota Senatorship Today.

BISMARCK, N. D., Feb. 17.—H. F. Miller made a big gain in today's balloting in the joint session for United States senator. Three ballots were taken. The fifth joint ballot resulted as follows: H. F. Miller, 35; John Miller, 1; Walsh, 17; F. Wallin, 35; Palmer, 2; Muir, 1; Bartholomew, 1; Roach, 6; Keese, 1; Reeve, 1.

Fifty-fifth ballot: H. F. Miller, 37; Walsh, 14; Wallin, 20; Palmer, 3; Muir, 1; Bartholomew, 1; Roach, 6; Keese, 1; Reeve, 1.

Fifty-sixth ballot: H. F. Miller, 41; Walsh, 14; Wallin, 27; Palmer, 3; Muir, 1; Roach, 4; Reeve, 1. Dissolved.

A Pennsylvania Affair.

HARRISBURG, Pa., Feb. 17.—The Pennsylvania World's fair executive committee has decided to dedicate the state building at Chicago on Saturday, April 20. Executive Commissioner Farquhar will present the building, and it will be formally received by Governor Pattison. The governor will hold a reception in the building after the ceremonies.

Another Forest Reserve.

WASHINGTON, Feb. 17.—Upon the recommendation of Secretary Noble, President Harrison has issued a proclamation creating the "Sierra Forest Reserve" in the state of California. The reservation comprises approximately 600 square miles in the counties of Mercer, Fresno, Tulare and Kern, and embraces the watersheds of eight rivers and all the tributaries.

Killed at His Machine.

MANKATO, Minn., Feb. 17.—John Carlson, an employee at the tub factory, was fatally injured at 9 o'clock yesterday forenoon and died at 11 o'clock. He attempted to pull a belt from the wheel to stop his machine in order to remove a piece of wood that was caught in the belt on the pulley.

A Bill Broken.

INDIANAPOLIS, Feb. 17.—This morning the jury in the McDonald case returned a verdict for the plaintiff. This breaks the will of the late Senator McDonald.

A Former Governor Dying.

JACKSONVILLE, Fla., Feb. 17.—It is thought the ex-governor R. M. Bishop of Ohio, who has been sick for a month past, cannot live longer than twenty-four hours. He is failing rapidly.

FOR FREE TEXT BOOKS

The Measure Which Has Been Reported by the House Sub-Committee as a Substitute.

It Provides For Free Text Books in the Schools Where the Districts Desire Them.

This Option Feature is Likely to Disarm the Opposition and the Bill May Pass.

ST. PAUL, Feb. 17.—The house committee on education met yesterday to take final action on a free text book bill and other pending bills. Of the latter N. F. No. 263, to enlarge the powers of county superintendents, was pressed by Superintendent Covill, of Kandiyohi county, and H. F. No. 26, relating to the division of school districts, was advocated by Superintendent Geddes, of Blue Earth county. No action was taken, however.

The free text book bill was reported by Mr. Greer, from the sub-committee. It is made up substantially in the line of ideas brought out in previous consideration of the subject, and he has incorporated liberally portions of the Winston and other bills. It is, in substance, a local option, free text book bill. The bill was agreed to with substantial unanimity, except that Mr. Walsh, of Ramsey, reserved the right to bring in a minority report that will except the independent districts.

The result is hailed with great satisfaction by especially the educational members of the house, who have worked hard to harmonize all the conflicting interests. Mr. Wilson, of Hennepin, is one of these. He is well satisfied with the substitute and enthusiastic at the now assured certainty of a law. He was one of the many who wanted, in accordance with the views of their constituents, a compulsory law, but who yielded their extreme preferences to what can be obtained at this time.

The following is the substitute bill for the free text book bill introduced into the house:

Section 1. The board of trustees or board of education in each and every school district in the state of Minnesota is hereby authorized and empowered to collect, adopt or contract for the text books needed for the use of the school or schools under its charge; and the said board may, in its discretion, purchase or contract for the same, or may, in its discretion, provide for the loan, free of charge, or sale at cost of such text books to the pupils in attendance at such school or schools; provided, that no adoption or contract shall be for a period of less than three years nor more than five years, during which time the text books adopted or contracted for shall not be changed.

Sec. 2. Before any publisher or publishers shall enter or attempt to enter into any contract for the sale of text books as herein provided, they shall file with the superintendent of public instruction of the state of Minnesota a list of their books and the contract for which they will sell or exchange all of such books to any board of trustees of the state of Minnesota; and they, the said publishers, shall deposit with the superintendent of public instruction a sample copy of each book so listed, which shall represent the style of binding, mechanical execution and general make-up of the book or books they offer for sale to the board of trustees at or for the prices so listed, and in no case shall prices be raised above the said listed prices as filed.

Sec. 3. It shall be the duty of the state superintendent of public instruction to furnish a certificate to the lists of books and prices filed in accordance with the provisions of section 2 of this act to the district clerk of each common school district in the state of Minnesota.

Sec. 4. Whenever five or more legal voters of any common school district of the state of Minnesota shall petition to the board of trustees to submit to the legal voters thereof the question of providing free text books to the pupils attending the school or schools under its charge, it shall be the duty of said board of trustees to call a meeting of legal voters of the district, giving ten days notice, which notice shall state that the question of free text books shall be submitted at such meeting.

Such question may be submitted at any annual meeting, providing that notice shall have previously been given in accordance with the provisions of this act. In case of a majority of the legal voters present and voting vote in favor of free text books, it shall be the duty of the board of trustees to provide for the same, providing all special and independent district may avail themselves of this by applying the provisions of the same. In no event shall a written request of more than 100 qualified voters be required.

Sec. 5. All books purchased in accordance with the provisions of this act shall be paid for out of the school funds of the respective districts and it shall be the duty of the board of trustees to see that sufficient funds are raised and set aside for the purposes of this act.

Sec. 6. This act shall take effect and be in force from and after the first day of June, 1893.

This has been a great week for Duluthians at the capital. Among those who visited here on matters relative to pending legislation were Mayor d'Auremont, S. L. Smith, President Truelsen, W. W. Blinn, Judge Winje, E. G. Swanson, J. L. Davis, J. E. Cooley, T. W. Hugo, Editor Lange, J. H. Nordby and several others. Mr. Swanson was a welcome caller on Governor Nelson, who often conversed with him. It seems that they were old campaigners together during the Kindred-Nelson fight.

It looks at present as if a well known West Duluth man would be the next deputy oil inspector at Duluth vice Col. Dodge. The legislative delegation are

practically united upon him. The legislature went to Stillwater today and probably take a jaunt to Chicago some day next week. They attended the big reception of the governor and chamber of commerce people at the Ryan last night. People here do not look for a great record from the present legislature, either in the matter of economy or legislation. There are two or three measures, however, if they get through, which will cover a multitude of short comings. Strong opposition is developing against all railroad and warehouse measures and it is going to take hard work to pass them if they get through at all.

HUGH O'DONNELL'S TRIAL.

The Defendant Testifies That He Was Acting as a Peacemaker.

PITTSBURGH, Pa., Feb. 17.—This is the fifth and probably the last day of the Hugh O'Donnell trial. The court room would not accommodate half of the number that sought an entrance this morning. After the examination of several unimportant witnesses, Hugh O'Donnell was placed on the stand.

Prior to and on July 6 Hugh O'Donnell was the accredited correspondent of the Tri-State News Bureau, the Pittsburgh Dispatch, magazines and other publications. Between 300 and 600 people were on the river bank when he arrived. The barges had already reached their moorings. There were ten or twelve men standing on the bows of the barges who had guns in their hands while the gang plank was being run out. "I begged," he said, "the men on the boats not to land, saying 'don't shoot there are many women and children here. Put down your guns. I'll get the crowd quiet.' I was struck by a stone. I turned to address the crowd and heard a single shot, then a fusillade, one volley after another from the barges, lasting five minutes."

"At the first volley a man at my left and one in front of me fell. I and another man crawled into a sewer trap to get out of danger. I then went to the telegraph office and sent messages to the Pittsburgh hospitals to send ambulances. I heard that a friend had been killed and went to his house. From there I went to the office of Dr. Purman."

"I in no way aided or abetted in the riot of that day and acted throughout, so far as I could, as a peace-maker. I went to the river bank to prevent, if possible, any conflict. Previous to the landing of the barges no one knew that the men were other than workmen who had come to take the places of the locked out workmen. There was no armed or military organization among the locked out men prior to July 6. The men were against resorting to any such measures."

DESERTED BY HER HUSBAND.

A Girl Reaping the Fruits of a Bitter Experience.

WELLSVILLE, N. Y., Feb. 17.—On Tuesday last a train carried from this village a young woman bound for her home in Newton, N. J., deserted by her husband, with the fruits of a bitter experience weighing heavily upon her. The girl's name was Miss Cecilia Washer. A stranger representing himself as Harry P. Castleton, of Erie, Pa., made her acquaintance by chance, and with pictures of happiness before them induced the young and respectable girl to marry him unbeknown to her people. He then left the town.

Last week he sent her money to meet him in Hornellsville, last Thursday they came to this village and stopped at the hotel. Tuesday he left, after borrowing the girl's \$50 watch, and has since not been seen. The girl, now penniless, was taken care of by the hotel people, who made up a purse to pay her expenses back to Newton, N. J.

FOR A FAREWELL TOUR.

Edwin Booth May Return to the Stage Next Fall.

NEW YORK, Feb. 17.—It was reported last night that Edwin Booth proposed to return to the stage in the fall, for a farewell tour. It was said that he would act for ten weeks and then retire.

Mr. Booth was at the Players' club last night, but it was impossible to get either a verification or a denial of the report there. The story was circulated on the authority of Manager Chase, who was formerly associated with Mr. Booth and Mr. Barrett.

KILLED BY AN EX-MAYOR.

John Newswander Murdered by Nicholas Lang at Remsen, Iowa.

LE MARS, Ia., Feb. 17.—Nicholas Lang, ex-mayor of Remsen, shot John Newswander at Remsen yesterday forenoon. Lang telegraphed the sheriff at Le Mars of the affair, and that he would come at once and give himself up. Newswander was a wealthy farmer. He died an hour after.

The Situation Unchanged.

PARIS, Feb. 17.—The newspapers unanimously express the opinion that yesterday's vote in the chamber of deputies in support of the government has not altered the situation, and that it only shows that the Radicals approve of the maintenance of Republican concentration, regardless of what action supports that concentration.

A Royal Birth.

VIENNA, Feb. 17.—The Archduchess Marie Valerie Matilda Amelia, daughter of the Austrian emperor and wife of the Archduke Francis Salvator, of the Tuscan branch of the house of Hapsburg, has been delivered of a son at the chateau of Lichtenegg.

No Trace of Cholera.

MARSHFIELD, Feb. 17.—The news papers of this city declare that there is not now the least trace of sickness bearing a suspicion of cholera, and they protest against the establishment of a quarantine in certain foreign ports against vessels from Marseilles.

Reception to Adlai.

BLOOMINGTON, Ill., Feb. 17.—A farewell reception was tendered last night by the Bloomington club, of which the vice-president-elect is a member, to the general and his wife. The club rooms were elaborately decorated. Five hundred people were present.

NEWS FROM HONOLULU

An Arriving Vessel From Hawaii Reports the American Flag is Still Flying at Honolulu.

Everything Said to be Progressing Finely and People Awaiting Word From Washington.

It is Claimed That More Than Two-thirds Vote in the Senate Favors Annexation.

SAN FRANCISCO, Feb. 17.—The steamship Belgic arrived at 3 o'clock this morning from Hong Kong and Yokohama via Honolulu. She reports the American flag still flying at Honolulu and everything progressing finely. L. M. Damon, minister of finance in the Thurston cabinet, has been appointed vice-president of the provisional government by the executive and advisory councils. Mr. Damon is one of the commissioners now in Washington.

On Feb. 2, President Dole and other members of the provisional government paid an official visit to the United States ship Boston. The Hawaiian flag was run up to the masthead and a salute of twenty-one guns was given in recognition of the new government.

WILL FILE A PROTEST.

Emissaries of the Hawaiian Queen Rushing to Washington.

CAICAGO, Feb. 17.—Three emissaries of a deposed queen hurried through Chicago yesterday on their way to Washington. One was Herr Paulmann, personal representative of Queen Liliuokalani, of the Hawaiian islands, and a former member of her cabinet. The second was the Hon. E. C. McFarlane, an old resident of Honolulu and a long time financial minister of the island kingdom. The third was no less a personage than Prince David Kawana, a member of the royal line.

"We are getting to Washington with all possible haste," said Paulmann. "Our only delay was at Denver, where we arrived four hours late. The train on which we were to come was held an hour, but could wait no longer. We have been enjoying ourselves and seeing the sights. It is to our interest to get to Washington at once and let the president know the exact state of affairs."

"What will be your action at Washington?"

"I can not tell that," he replied. "The party left here at 5 o'clock on the Pennsylvania road."

FAVORABLE TO ANNEXATION.

More Than the Necessary Two-thirds Vote in the Senate.

WASHINGTON, Feb. 17.—A careful canvass of the members of the senate arrayed to indicate that the Hawaiian treaty will be ratified by several votes more than the necessary two-thirds to spare.

It is understood that the members of the senate are so arrayed that the Hawaiian treaty will be ratified by several votes more than the necessary two-thirds to spare.

AN INSANE SWITCHMAN.

Running Along the Tracks, He Is Struck and Fatally Injured.

WINONA, Feb. 17.—Frank Sarazin, who has charge of the derailling switch at the railroad crossing of the Milwaukee & St. Paul and Northwestern roads just west of Winona, was taken suddenly crazy at 6 o'clock Wednesday evening. He left his post and stripping off all his clothing, ran naked along the track into the city. The police were notified and gave chase.

Sarazin turned and fled back along the track, not heeding the approaching switch engine, and was knocked down and dragged some distance. His right leg was broken and he was badly lacerated. When Sarazin left town the Northwestern track was open and the Milwaukee blocked. The east bound Milwaukee passenger was delayed nearly an hour till some one was found who could unlock the switch. Sarazin died at 2 p. m.

Another Cutter Launched.

PHILADELPHIA, Feb. 27.—The United States revenue steamer Hudson was launched yesterday from the shipyard of John H. Dialogue & Son, Camden. The boat will be used as a boarding vessel in New York harbor in place of the Manhattan. Her bows are strengthened with two heavy plates and are made to resist the ice.

Citizens Preferred.

PHILADELPHIA, Feb. 17.—In common councils yesterday by a vote of 70 to 2 an ordinance was passed prohibiting the employment by contractors municipal works of other than American citizens. The ordinance will probably pass the councils and become a law.

To Break the Record.

NEW YORK, Feb. 17.—John S. Johnson, who defeated Joe Donaghy in the five mile skating race at Red Bank yesterday will attempt to break the 100, 200, 220, 300, 400, 440 yard, half mile, and one mile records tomorrow. The trials will take place on the Hudson river, probably in the vicinity of Albany. Rudd will be sent against the two mile record.

Chinamen to be Deported.

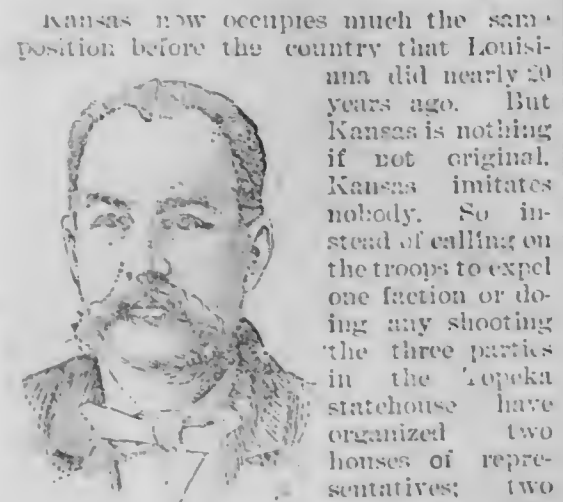

WASHINGTON, Feb. 17.—The treasury department is informed of the arrest and conviction of seven Chinamen at Deming, New Mexico, on the 1st inst., for coming into this country from Mexico. They will be deported to China.

NEW KANSAS SENATOR

Judge John Martin, Who Was Chosen Senator by the Populist House, is a Democrat.

He Was the Logical Fusion Candidate, Having Secured the Fusion on Tickets Last Summer.

Senator Mitchell, of Wisconsin, Has Long Been an Active Friend of the Veteran Soldiers.

JOHN MARTIN.

Kansas now occupies much the same position before the country that Louisiana did nearly 20 years ago. But Kansas is nothing but a political machine. It is a machine that is run by a few men who are interested in the money that is made by the sale of the land. It is a machine that is run by a few men who are interested in the money that is made by the sale of the land. It is a machine that is run by a few men who are interested in the money that is made by the sale of the land.

His career in congress has been long and active and very Democratic. He was elected to the United States senate in 1892, and was re-elected in 1898. He was a member of the Populist party in 1892, and was a member of the Democratic party in 1898. He was a member of the Populist party in 1892, and was a member of the Democratic party in 1898.

He was the Democratic nominee for governor in 1892, and was defeated. He was the Democratic nominee for governor in 1892, and was defeated. He was the Democratic nominee for governor in 1892, and was defeated.

SENATOR SAWYER'S SUCCESSOR.

John L. Mitchell has been an Active Friend of the Veteran Soldiers.

When he was elected to the United States senate in 1892, he was a member of the Populist party. He was a member of the Populist party in 1892, and was a member of the Democratic party in 1898. He was a member of the Populist party in 1892, and was a member of the Democratic party in 1898.

Mr. Thynoo (glaring at him)—No, sir! One hundred and forty-nine, sir!

Chicago Tribune.

His object.

Ho—Would you marry me?

She—You know I would. Why do you ask such a question?

Ho—Simply out of curiosity!—Once a Week.

A Matter of Taste.

Mrs. B.—I consider Mr. Jonson a very nice fellow.

Mrs. A.—I don't. Why, he's not a bit like men who come to see me.

Mrs. B.—Well, that is nothing against him.—Vogue.

Obedient.

Clerk—He told me to go to the devil.

Boss—And what did you do?

Clerk—I came right back to you, sir.—Truth.

Gold and Silver in Mexico.

How the greed of that dashing buccaner, Cortez, would provide if he were alive to see the gold and silver that is now being taken out of the mines of Mexico. And apparently there is much more there still.

London has so far had only one electric railway. Two new ones are now being built.

Yale is now in formal possession of her magnificent new gymnasium.

Edward Haman wants to row the winner of the Humber Bazaar race on the Thames, London.

now in the hands of Sculptor Conway, who is working on it in Italy.

In 1890 he was elected to congress from the Fourth district and was re-elected in 1892, so there is a vacancy to fill, a fact which some observers think aided in his promotion.

EXPOSITION ECHOES.

Professor Edward H. Thompson of the department of ethnology of the World's fair has in course of preparation a remarkable reproduction of the ancient ruins of Yucatan.

The World's fair managers have asked the mayor of Lyon to exhibit at the fair the famous iron lattice, the first casting ever made in America, which was recently presented to the city.

An interesting foreign exhibit at the World's fair will be a model of the island of St. Thomas, Danish West Indies. It is about 3 feet by 4, built to a scale of 6 inches to the mile, painted in natural colors.

Miss Halsband, sister of Secretary Noble's wife, has been engaged to write an article on "The Social Life of Washington From the Earliest Administration to the Present Day" for a continental volume prepared by women for the World's fair.

One of California's novel exhibits at the World's fair will be a panoramic and allegorical representation of the miners. The mechanical model will be 32 feet long, 28 feet wide and 16 high. The allegorical figures are by August Schmidt.

A huge map of Berlin for exhibition at the Chicago World's fair has been completed under the supervision of the royal railway department of Prussia. This map will show the finest features of all the great buildings of the city and is intended primarily to make Berlin as popular among American tourists as Paris and London now are.

FIN, FEATHER AND FUR.

Emetics have no effect on horses, which have to be bled to be cured.

Opusculum are the only animals that make a more elaborate toilet than cats.

The hundreds of thousands of sparrows in New York city are getting so bold that they almost molest pedestrians to walk over them.

An eland—a species of South African antelope—which had been in the menagerie in Central park, New York, for the past 13 years, died of old age recently.

Fish Hatcher Rounseville at the East Freestone (Mass.) hatcheries is endeavoring to propagate two headed trout and with results that encourage him.

The common snail is said to have 150 rows of stout serrated teeth. The whole plate contains about 2,700 teeth, it is claimed, while a full grown slug has over 36,000 of these silicious spikes.

A male gorilla (Gorilla gina) has lately been adopted by the Berlin aquarium. He is larger than any gorilla that has yet been brought to Europe. He is supposed to be 10 years old and was for six years in the possession of a chieftain on the Gaboon. He has not yet shown any friendly feeling for man.

POWDER AND BALL.

The Krupp works have 3,542 furnaces constantly at work.

Italy's navy includes 20 armored vessels, and of other vessels and torpedo boats 262, with a total marine force of 70,323 officers and men.

A powerful lamp which distinctly illuminates objects over half a mile distant by means of a jet of reflector is to be adopted in the French army.

In the Austrian army suicides averaged 10,000 a year. This does not include failed attempts, and it represents 20 per cent of the general mortality among the Austrian soldiers.

The Record, a new torpedo gunboat, was launched at Harland, England, by the Laird ship. The vessel is nearly finished and her officers are at sea.

Belonged to the Supercalculators.

Stationer (in New York city)—You will find 400—or rather 223—of these engraved invitations to your reception, I presume, Mr. Thynoo?

Mr. Thynoo (glaring at him)—No, sir! One hundred and forty-nine, sir!

Chicago Tribune.

His object.

Ho—Would you marry me?

She—You know I would. Why do you ask such a question?

Ho—Simply out of curiosity!—Once a Week.

A Matter of Taste.

Mrs. B.—I consider Mr. Jonson a very nice fellow.

Mrs. A.—I don't. Why, he's not a bit like men who come to see me.

Mrs. B.—Well, that is nothing against him.—Vogue.

Obedient.

Clerk—He told me to go to the devil.

Boss—And what did you do?

Clerk—I came right back to you, sir.—Truth.

Gold and Silver in Mexico.

How the greed of that dashing buccaner, Cortez, would provide if he were alive to see the gold and silver that is now being taken out of the mines of Mexico. And apparently there is much more there still.

London has so far had only one electric railway. Two new ones are now being built.

Yale is now in formal possession of her magnificent new gymnasium.

Edward Haman wants to row the winner of the Humber Bazaar race on the Thames, London.

WHEAT TOOK A DROP.

Lower Cables and Large Receipts Caused a Decline.

The wheat market opened low today owing to large receipts at Chicago and Minneapolis and lower cables. May started at 75c and declined further to 74c, but subsequently recovered 1/2c and held after many fluctuations. One car of spot wheat sold at 76c, or 1c below yesterday, and July was 4c off. The close was fairly steady at 74c to 75c below yesterday, as follows:

No. 1 hard, cash, 66c; February, 66c; May, 74c; July, 75c; No. 1 northern, cash, 66c; February, 66c; May, 74c; July, 75c; No. 2 northern, cash, 65c; February, 65c; May, 73c; July, 74c; No. 3 northern, cash, 64c; EATING AMUSEMENT

Damage Case of Judge Spencer vs. O. W. Baldwin et al., is Developing Considerable Fun.

neys Towne and Billson Cross Swords frequently, Greatly Pleasing the Spectators.

Spencer Says His Purpose is to Show That the County is Civilized.

Judge Searle is a grave and reverent man, but his face at frequent intervals during the cross-examination of Judge Spencer by C. A. Towne, set for the defense. The counsel on both sides seemed away from the groundwork incident to the case pence vs. Baldwin et al. and they led on easily wing among the Coran vistas of the constitution and reign rights. Ever and anon Judge le would rap with a gavel which he necessary to have handy and then court room, lawyers, parties to the of the bar and the large number of tators would, metaphorically ne off the perch" and get down to bed rock of legality once more.

The uninitiated as well as to the ned members of the bar it was plain e seen that Attorney Towne had the of his several encounters with Atty. Billson although the latter made entiful showing of objections and a number of exceptions. The case opened by the recall of Judge ner for cross-examination and the y very often found it necessary to k the witness who would as repeat- try to say more than the question to him would call for.

Of much of vital interest was drawn in the cross-examination, but at the e, when Attorney Billson said to ge Spencer, "If there is anything that you consider germane to the ou can say it," the witness eposed himself as follows: y purpose in this action is not to money but to show that this country ilized; to show that the majesty of aw may be maintained; to show hat I acted in this matter solely in interest of my clients and I would o gain if the occasion rose."

County Attorney C. A. Towne was next ed on the stand. He said that Atty Baldwin came to see him just be- the grand jury met in the November of court. He said that Baldwin him about Judge Spencer's action that every thing was so plain that eed not give any time to the case; he (Baldwin) would attend it. The indictment was not wn by the county attorney as prepared by Mr. Baldwin. He examination the witness admitted he was quite busy and may have dted Mr. Baldwin to prepare the iment. His examination was unent aring except for the little cross fire of talent which it engendered.

The case of McManus vs. Coffin and rner was placed on the court list of ions, and the action of Harriet Wil- s, John H. Brigham et al. was dis- sed without costs. Before Judge Brown, in room 2, the e of W. T. Wynkoop vs. Lena Mc- lock reached the jury, who were still at the noon adjournment. The next was J. W. Marvin vs. J. W. Coul- , which is still on trial.

THE CRESCENT LINE. Expects to Be Right in the Great Freight Movement This Year.

Alfred Robinson, agent of the Cres- nt Transportation company, returned his wire yesterday from a six weeks' y in Detroit. He says the Crescent e will be right in the great freight evement which is expected to turn a way this year. The boats of the et are all in line shape for the season, d beyond the usual spring outfitting repairs are necessary.

The John M. Nicol and Eber Ward e laid up, light, at Buffalo; the John V. oran and W. H. Stevens have 3 1/2-cent at Detroit and will go to Buffalo at as soon as the ice will permit; the mes Fisk, Jr., with 30,000 bushels of x, and the Samuel F. Dodge with 20,000 of flax for winter storage and car- ge to Buffalo, are laid up here in iberian Pacific ship at a 5 1/2-cent rate. ay will be about the earliest boats to eave this port when navigation opens.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder
ABSOLUTELY PURE

LEGISLATIVE MATTERS.

President Truelsen Talks on Some Which Are Interesting to Duluth.

Monday night President Truelsen, of the board of public works, went down to St. Paul to look after the interests of Duluth in matters of charter revision. He has returned and states that he had a most pleasant and profitable trip.

The first meeting he had was with the committee on municipal corporations. The question of boards of public works was up for consideration. The sentiment in favor of doing away with those institutions had gained considerable ground as St. Paul and Duluth are the only cities in the state having that system. The matter ended in a compromise by which the bill provides that any city having a board of public works may retain it, any city not having such an institution may continue as now and any city not having such a board but desiring one, can do so by a vote of the council.

Night before last Mr. Truelsen appeared before the committee in the interests of the provision to cover reassessments in the Piedmont avenue case. The opponents of that provision, which provides that in cases of errors, etc., in making assessments, the board of public works shall be empowered to reassess unless no benefits to the property from improvement be shown, Messrs. Hammond and Clayton accompanied by Col. George, of St. Paul, a hired attorney, were present.

The draft of the bill was submitted and its opponents made statements more or less variegated. Col. George, when given his turn, said he knew nothing about the matter and then launched out into a tirade against the board and alleging that its members were incompetent. He dodged the point that the supreme court's objection was that the assessments were made before grades were established, but held that the assessments were not made in justice to the property owners.

W. W. Billson, in a very able argument, favored the reassessment provision. He said that just as that was wanted and that this bill was designed so that justice might be done to all sides interested. Mr. Truelsen then followed, and from what can be learned, sailed into Col. George pretty lively. Mr. Truelsen stated to the Herald reporter that the tunnel bill was introduced Wednesday by Senator Daugherty, and that so far no opposition has developed. If any appears, it will be from interested Duluth parties. The bill provides that cities divided by bodies of water over which it is not desirable to build a bridge, may be tunneled, providing the expense is paid by the city.

Over \$1,000,000, that three-quarters of it be borne by property benefited and one-fourth by an issue of bonds. Railroad street cars may be charged reasonable tolls, but for the first ten years no more than will meet the interest on the bonds will be permitted. Then it shall be free of such charges as will pay for the maintenance.

Mr. Truelsen considers that Duluth stands an excellent show of getting about what is needed in charter revision through the commission appointed to draw up a bill, as that committee refused to undertake the task unless assured that their work should have a reasonable show of passage. The chief points of difference in the bill are in the differences in the school board and fire department systems.

FORMAL OPENING TONIGHT.

Bethel Workmen's Club Will Be Opened With Fine Exercises.

The formal opening of the Bethel Workmen's club, takes place tonight at 8 o'clock. The club has been organized by Mr. C. C. Salter, who has made this project his great work for the past six months. The opening is expected to be a very successful one, and will have contributed either in money or labor toward the erection or furnishing of the building.

The program will open with several addresses. Dr. C. C. Salter, Mayor d'Autremont, Page Morris, George W. Stevens, J. H. Baker of the building trades assembly, President McDowell of the Trades and Labor assembly and others will speak. The Arion quartet will sing several selections and a recitation will be given by Mr. H. H. Miss Edith Geraldine Moak who has acquired great popularity with Duluth audiences will sing several selections. Mr. Watts will also sing and the City band will play.

Too Much Music. To the Editor of The Herald: I wish to call the attention of our board of education to the nuisance which has been imposed on the public by the hearing distance of the Central High school. Now while the clock put on the school may be a thing of beauty it is an intolerable nuisance.

It may be possible that our board of education may not be able to sleep without music, but there are many in the neighborhood who can, and I for one don't have to have music every fifteen minutes in the night to make me sleep. Shut off the music and let those in the hospital and others in the neighborhood have a chance to sleep. A CITIZEN.

Buy a Nice Suit. At Sam. Loeb's auction sale. Everything to be closed out.

Examining Candidates. The examination of candidates who wish the privilege of taking part in the World's fair concerts will take place in St. Paul at the residence of Mrs. F. B. Clarke, 236 Summit avenue on Wednesday, March 21 and 22 and April 2, between the hours of 10 and 3 o'clock. Some Duluth musicians are expected to try for places.

Clothing! Auction! At Sam. Loeb's. Come at once. Stock must be closed out.

INJURED BY A BLAST.

Knute Anderson Hurt Near West Duluth by an Unexpected Explosion of Dynamite.

The Blast Was Supposed to Have Been Charged Last Night—May Lose His Eyesight.

West Duluth Had Two Surprises Last Night, One a Party, the Other a False Alarm.

An unfortunate accident happened this morning at about 7 o'clock in one of the rock cuts back of West Duluth on the Missabe & Northern railway. Knute Anderson, a workman was terribly cut and lacerated about the face and upper part of the body by an explosion of dynamite. He was brought down to Dr. Forin's office where the wounds were dressed and given the proper medical attendance.

The work is under the direction of Sub-contractor Durke and it appears that the blasts were exploded last evening as usual but by some irregularity one of them did not go off. This morning the men went to work as usual and a concussion occurred which caused an explosion of this charge.

The injured man must have been very close to the blast as the wounds on his body would indicate. His eyes are badly hurt and it cannot be ascertained yet whether he will lose his sight. He has a wife and three children and lives in the creek bottom near the German church. He was taken to St. Mary's hospital for further treatment.

TWO SURPRISES. West Duluth Firemen Have a Party and a False Alarm.

Things were pretty lively about the city hall last evening and between a false alarm and a surprise party the fire laddies did not get an overdose of sleep. In the early evening a gay sleighing party came down from Duluth with a four horse rig, but the party gave themselves up to the full pleasures of the terpsichorean art.

About 10 o'clock some evil-minded, inconsiderate person turned in an alarm and the firemen were obliged to tear themselves away from the happy scene and take a race out in the chilly atmosphere. They did not stay long, however, but were soon back again, it proving to be a false alarm. Just as the hook and ladder truck left the hall it suddenly overturned, throwing Fireman Miles to the ground and slightly damaging the vehicle. The visiting party left about 3 o'clock.

West Duluth Briefs. Mrs. J. A. Skinner gave a card party to a number of her lady friends this afternoon.

Ed Jennings returned last evening from his winter work on the Duluth & Winnipeg.

J. C. Harrison returned last evening from a month's visit with relatives at Warsaw.

Baptist social tonight at Rev. E. J. Brownson's.

The daughter of W. H. Hawkins is very ill with brain fever and a consultation of physicians was held this morning on the case.

The Assembly club meets tonight for its usual hour.

Presbyterian social tonight at Mrs. Comery's.

The Y. P. S. C. E. meets this evening in the Congregational church.

Mrs. G. W. Eddy, of Saginaw, Mich., is a guest of Mrs. Connery.

Rev. Dr. Forbes left last evening for Valley City, N. D., where he will dedicate a church.

For sale—One pony, suitable for hauling purposes or light delivery. Also a complete bath in a handy location and power boiler. Will sell cheap or exchange for town lots or farming lands.

West Duluth. Steam Laundry. Two lots on Fourth avenue west, cheap; lots on Central and Grand avenues; large lot in Third and Seventh divisions. City agent West Duluth Land company.

E. W. MARKELL, 7, Phoenix bldg.

Genuine Activity in Real Estate. The liberal propositions and terms of payment offered by the North Galveston association to investors is rapidly bringing purchasers into the field. The enormous amounts already expended in public improvements—such as street paving and grading, tree planting and sewerage, public buildings, hotels, etc.—have rapidly enhanced the value of property. Every new factory or other enterprise means a very healthy increase in valuation. There never was a better time than now to invest, as North Galveston, Tex., is built upon a sure foundation. For full particulars call on or address Holwick & Youngblood, 327 West Superior street, Duluth, Minn., the local agent, or the North Galveston association, box 963, Minneapolis, Minn.

The Only Line That Does It. The St. Paul & Duluth Short line runs three daily trains between Duluth, St. Paul and Minneapolis and Chicago, making direct connection for all points in the East and South, Southern Florida and California. This is the only line that can give you this service and no one will question it. For reliable information and sleeping car reservations call on Northern Passenger Agent, 425 Superior hotel.

Offices For Rent. Elegant sound offices for rent in the new Herald building, 220 West Superior street. Ready for occupancy Feb. 1. Inquire at Herald office in Henderson block, Fifth avenue west and Superior street.

WHIP AND SPUR.

La Flache and Orme have won \$250,000 between them.

Daly, 215, is the fastest trotter from a daughter of Electioneer.

Trotting on the ice is very popular in Canada, and fast times is made. Martha Wilkes will be out after Robert Bonner's \$5,000 offer this season.

Jay-Eye-See, 2:09 3/4, 2:10, will remain the property of the Case family as long as he lives.

The gelding record of 2:10, which has stood since 1881, will doubtless be broken this year.

James R. Keene wanted the English horse Orlando and is said to have offered Don Juan Bonni \$150,000 for him.

Terre Haute, Ind., is at present the home of Nancy Hanks, 2:04; Stamboul, 2:07 1/4; Axtell, 2:12; and Belle Vera, 2:08 1/4.

The dam of America, the fast colt for which C. at Haverhill paid \$15,000 last fall, will be bred to Axtell, 2:12, this year.

Algonia, the sire of Flying Jib, 2:05 1/2, has been installed as the premier sire at W. B. Higgins's Rancho del Paso stud in California.

The Dubois Bros., who recently purchased Yolo Maid, 2:12, expect her to go a mile in two minutes before the close of 1892.

The fast California stallion, McKinney, 2:13 1/4, severely injured himself in the stable last night, and it is thought his turf career is over.

The 2-year-olds at C. W. Williams's Rush Park farm, Independence, Ia., got about 280,000 in the winter daily. The lightest one in the lot weighs 835 pounds.

A pneumatic wheel is proposed that has valves in the tire which will cause the compression of the air by the weight of the sulky and driver to propel the vehicle in a forward direction.

A turf expert declares that the kindergarten track for winter use is as much an improvement in education of the colts as the kindergarten school is for children. Early training cannot be avoided if highest excellence is to be assured.

CROWN AND SCEPTER.

The German emperor has had a pianoforte constructed for him made entirely of bits of stag's horns.

Margaret, duchess of Austria and governess of the Netherlands, had a large, wiry, stiff beard, of which she was very proud.

The young Duke of Orleans holds the memory of his great-grandfather in profound veneration. He explained to a friend that he never eats peas because his famous ancestor never did.

Duke Ernest has some very fine estates in Germany and is in receipt of a pension of 800,000 marks. He is the present incumbent as composition for the renunciation by his father of his claim to the sovereignty of the duchies of Schleswig and Holstein.

Grand Duke Nicholas Alexandrovitch, czar of Russia, no longer wears his coronets to the portraits of him which are now in the country. He has grown a full beard and a very heavy, dark brown mustache, which give him a much older appearance than his real age.

The Empress Josephine was said to have been a clairvoyant. Napoleon constantly consulted his "book of fate" and placed implicit faith in astrologers, soothsayers, fortune tellers and other frauds. Josephine refused to have herself consulted by Napoleon's seer at Waterloo because of the breaking of a vase.

SNAP SHOTS.

A 5 or 10-gallon jar set under the water tap, with a rubber tube running to the bottom, makes a fine washing box for fruits. You can keep up a constant current of flowing water in the way. Prints should wash at least an hour.

The making of lantern slides is the chief industry just now in all the clubs and societies. It is a thing to be proud of, and this glue instead of kieselguhr, and then when dry varnish the sliding. This adds considerably to its durability.

A new method of looking in the direction of the flashlight. If you will do this, and at the same time hang a piece of white thin muslin about a yard square a foot or two in front of the flash, you will soften the lighting and avoid harshness of high lights and staring look of the eyes.

The difficulty of overexposure may be avoided by reducing the opening of the seascrometer number on the platebox, and being governed by it, and by remembering that the nearer the lens is to the subject the longer the exposure necessary, and the larger the stop the shorter the time required.

ELECTRIC SPARKS.

A new electric invalid chair has storage batteries under the seat. It can run at the rate of eight miles an hour and will last for 50 miles.

A mechanical engineer who has laboriously figured on the subject says that 125 miles per hour is about as fast as we can travel by rail by electricity.

A number of the name of John Beattie has applied for a patent on a contrivance to prevent that whirring sound in the telephone wires that parallel trolley wires used for street car purposes.

On the arc lamp electric discharge takes place between two pieces of hard conducting carbon separated from each other by an interval which is kept as nearly as possible constant by automatic devices.

In the glow or incandescent lamp a filament of carbon inclosed in a globe exhausted of air by a mercury pump serves as a path along which the current passes. The resistance the electricity meets with in passing through this filament is sufficient to raise the latter to incandescence.

SCIENTIFIC WAIFS.

Jupiter's shadow extends 30,000,000 miles into space.

A Brazilian physician has found that antipyrine kills the germ and destroys the toxic properties possessed by the products of the diphtheria microbe.

Jupiter's fifth moon is 100 miles in diameter and is 25,000 miles from the planet's surface. It travels at terrific speed, revolving around its huge primary once in 13 hours.

The English speaking people and the Russians are about the only nations who use Fahrenheit's thermometer, while Germany and Scandinavia still employ Reaumur's, though in all these countries scientific data are almost universally given in that of Celsius or the centigrade.

Copper and brass can be melted in an iron melting pot because their fusing point is below that of iron, but most metals are melted in earthen pots—crucibles is the technical name. These are earthenware jars of various sizes and shapes, which stand tremendous degrees of heat.

Cullum, dentist, 702 Palladio building.

AMUSEMENTS.

"Miss Helyett," a musical comedy in three acts, adapted from the French by Davis Beland, will be at the Lyceum on Monday evening. Mrs. Leslie Carter will appear in her droll impersonation of the little Pennsylvania Quakeress.

Special interest centers in the appearance at each performance of Miss Lottie Collins, who will sing and dance her original "Ta-ra-ra-boom-de-ay." There is no denying the wonderful success that the young lady achieved in London, where she was all the rage, and recently in New York, Philadelphia, Boston and Chicago, where the theaters in which she appeared were totally inadequate to accommodate the crowds that she has attracted.

"Ta-ra-ra-boom-de-ay" has been worn threadbare, but there is evidently something about the Collins rendition that dwarfs all attempts at imitation.

McLean and Prescott. R. D. McLean and Marie Prescott appear at the Temple next Tuesday and Wednesday evenings. They open on Tuesday evening in a new play, a production from the pen of Marie Prescott herself. It is "L'Absintheur," and a great success is predicted for the piece and for McLean and Prescott.

NOTED TEMPERANCE LEADER. The Forcible and Brilliant David Frost.

He Speaks of an Inebrious Fox of Temperance and says it Demands Law Compulsion in Earliest Language the Many Virtues of Kickapoo Indian Sagwa and Gives His Reasons.

The portrait of David Frost, the noted temperance lecturer, will be recognized far and wide. The noble work of this distinguished advocate of temperance has given him a reputation second only to that of the late John B. Gough's.

DAVID FROST, BOSTON, MASS.

In a recent conversation with Mr. Frost, that gentleman said, with the convincing earnestness which characterizes his remarks: "One of the greatest evils with which the friends of temperance have to contend is the cheap whisky, and the miserable rum mixtures by which the market is flooded under the guise of 'Bitters,' 'Sarsaparilla,' 'Gingers,' and other patent medicines. The enormous consumption of such miserable stuff does incalculable injury in many cases by inducing the habit of drinking, which never would exist otherwise. This most inebriating form of temperance should be put down by law."

"I do not mean to say," continued Mr. Frost, "that all proprietors of saloons come under this head, and in fact I know from personal experience of one which is not only a Great Meeting, a Sarsaparilla, and a Great Meeting, but which is honest of all deteriorating ingredients and free from the deleterious effects of the others. I never would drink it, but I would not say it is not as good as any other I have used. It is not my duty to commend that Grand Remedy of the Indian race, 'Kickapoo Indian Sagwa.'"

"I speak from experience, for it has stood me in good stead. When laid sick, worn out, and my most rebellious stomach refused to accept of its normal capacity, 'Kickapoo Indian Sagwa' has restored me to a healthy condition, when nothing else would do it. I have taken occasion also to learn something about this 'Kickapoo Indian Sagwa.' It is not only an old and tried remedy among the Indians, but it is the Vegetable Purifier and the Great Curative of the Blood, and it is honest of all deteriorating ingredients and free from the deleterious effects of the others. I never would drink it, but I would not say it is not as good as any other I have used. It is not my duty to commend that Grand Remedy of the Indian race, 'Kickapoo Indian Sagwa.'"

Simple Remedies, such as Teas and Flowers from the Forest are all that enter into its composition. It is a natural product, which is gained from its use is not the false strength of the run brands but the Noble, Enduring Power of Honesty and the Purity of Blood, which is the basis of the Human System. This and more did Mr. Frost have to say in regard to the 'Kickapoo Indian Sagwa.' World fall to convey the earnest force of his remarks as expressed to the writer. Mr. Frost still pursues with unabated vigor the noble cause of the inebriated, and his say that temperance was never making such vast headway as it is today.

KICKAPOO INDIAN SAGWA. Sold by all Druggists. \$1 per bottle. 6 bottles for \$5.

Duluth, South Shore & Atlantic.

Tomorrow, Saturday,

THE LAST DAY.

Any Suit
Or Overcoat
In Our Store,

\$14.49

M. S. BURROWS & CO.

CITY BRIEFS.

Cullum, dentist, 702 Palladio.
Smoke Endian cigar. W. A. Foote & Co.
De Schiffman fills teeth without pain.
"Gill's Best" flour, the home manu-
facture of Duluth, is the best in the
market.

Messrs. H. W. Eastmann, of this city,
and Ned Hardy, formerly of Duluth but
now of Superior, have bought out the
firm of Lingham, Asheim & Co., deal-
ers in typewriters, bicycles, etc. Mr.
Eastmann will not relinquish his posi-
tion as treasurer of the Temple.

John Berkeland and Engelbert Lar-
sen, of Norway, received first papers
from Clerk Sinclair yesterday.
William Peterson, a 17-year-old boy,
who lives at the West End, came very
near losing his life at Short Line Junction
this morning by his foolishness. He
attempted to board a moving train and
slipped and fell close alongside the
rails. He received enough wounds and
bruises to render some ten or fifteen
stitches from a surgeon's needle neces-
sary.

At the meeting at St. Paul of the Min-
nesota State Society for the Prevention
of Cruelty, W. S. Woodbridge was
chosen third vice president and Rev.
George H. Kemp, one of the directors of
the above society. Special commenda-
tion was given to the Duluth Humane
society for their splendid showing for the
year.

Tonight a reading and concert will be
given at the First Presbyterian church
by Miss Gertrude Olsen, assisted by
Sydney Brown, Miss Helen Mackey and
Miss M. Caldwell. The program is ex-
cellent one and contains several numbers
by Miss Olsen.

Union Skating Rink.
Music Saturday evenings. Good ice
every day and evening. Lake avenue.
Come.

PERSONAL.

J. A. Cleveland, started for Wash-
ington yesterday. He will remain there
until after the inauguration.
Dr. W. H. Salter, son of Rev. C. C.
Salter, has been appointed to a position
on the house staff of physicians and
surgeons at Bellevue hospital, New York
City.

Miss Kaitenecker who has been em-
ployed in Judge Ayer's office for some
months past left this afternoon for Chi-
cago. She spends six weeks in the Lake
Michigan metropolis.

W. F. Bailey, of the St. Paul Brass
works, is in the city.

H. V. Winchell, of Minneapolis, is in
the city today.

William Saunty, of Stillwater, is in
the city.

A. H. Yancey, of the Burlington road,
is up from St. Paul.

D. W. Grant, of Faribault, is in the
city.

Bernard Silberstein, C. J. Moore and
F. G. Burgess were a trio of Duluthia,
who left on the Omaha river for Chicago
this afternoon.

O. G. Korb, of Ely, was a passenger to
Milwaukee this afternoon.

F. J. Zingerley, of the Chesapeake &
Ohio, was in the city today.

NEARING THE CLOSE.

Attorneys presented Their Arguments in the
Fire Commissioners Case to the
Council Today.

Attorney Rude Entered an Objection to the
Stenographer's Report Because He
Was Not Sworn.

Attorney Holmes Opened the Oratory and
Attorney Thurman Replied on Be-
half of the Defense.

The prelude to the continuation of the
impeachment proceedings against Fire
Commissioners Hart and Helinski was
sung this morning by Alderman Weiss,
who announced that the Trades and
Labor assembly through him invited all
the members of the council to be present
at the workingmen's entertainment at
the Bethel this evening. President
Hugo on behalf of the aldermen accept-
ed the invitation after a chawing was
commenced on the larger and tougher
woodpile.

Attorney Rude, before the opening
argument of the prosecution commenced,
entered an exception, making it on the
grounds that the stenographer had not
been sworn at the commencement of the
case and that the aldermen who had
read the testimony instead of being
present and hearing it in person were
disqualified to sit in judgment on the
final results.

Secretary Tom Walsh was called and
asked if he was present and took the
minutes of the meeting at which the fire-
men were dismissed. He stated that he
was absent but that he copied the re-
cords turned over to him by the acting
secretary.

J. D. Holmes, counsel for the prose-
cution, then opened his argument. He re-
viewed the cause of matters that led to
the investigation. He admitted that the
commissioners have the power to dis-
miss summarily any employees in the fire
department, but alleged that the method
of exercising that power or the reasons
for its employment are what the council
has the power to review. Under the
head of what constitutes sufficient cause,
Mr. Holmes advanced the following:

"In ascertaining what is a sufficient
cause for removal, it is necessary to sepa-
rate the character of the man from the
character of the officer, the misconduct
which will warrant a removal being ordi-
narily such as affects the performance of
his duties as an officer, and not such
as affect his private character as an in-
dividual only, unless it is in itself so
infamous a nature as to render the offend-
er unfit to execute any public franchise;
and even such as are only against the
duties of his office must amount to a
breach of the tacit conditions annexed to
it, though the official commission of a
wrongful act, or the official omission to
perform a duty, is a sufficient miscond-
uct even in the absence of corrupt or
malicious motives.

"Misconduct or malfeasance as a ground
for removal has reference to the conduct
of the officer as such, and signifies an
abuse of the duties of his office, and vol-
untarily, misconduct is contemplated
and not circumstances or conditions re-
sulting from accidents or misfortune. No
incapacity does not mean a lack of gen-
eral capacity, but a defect of capacity
for the office held."

The rules of the fire department were
run over and applied to Little's case and
the thirty days' close, barring
complaints was brought forward, all of
which was followed by the statement
that those who make no showing in the
first to violate them. Mr. Holmes
then launched into the depths of his re-
view of testimony, its application and in-
terpretation in support of his self-bail-
ing out. He was twice interrupted by Alderman
Thomas, who objected to the manner
and methods and subject matter of the
speaker's argument. He finally ap-
pealed to President Hugo, but his objec-
tions were overruled.

Allen G. Thurman, Jr., the junior
counsel for the defense followed Mr.
Holmes. He opened by stating that at
the opening of the case Mr. Holmes had
agreed to give the defense the closing
and then refused to do so. "That Mr.
Holmes denied. Mr. Thurman then
stated that at the beginning of the case
his side had maintained that it came
under the head of a criminal procedure,
but that the attorney for the prosecution
had conducted it as a civil case under a
common law procedure. He asked the
president to give a strict adherence to
that and compel the closing argument
to be strictly confined to answering the
argument of the defense. Mr. Hugo
stated that he would do no such thing as
he could not remember all that had been
presented.

The junior counsel resumed by stating
that not only had the attorney for the
prosecution alleged that the case was
not of a criminal nature, but that he had
thrown the burden of the proof on the
defense—himself not presenting a single
proof to sustain his allegation—all in op-
position to the constitution of the United
States and the code of the state of Min-
nesota, as in the most careful search he
had not found a single authority tending
to show that an impeachment proceed-
ing is not a criminal procedure. He
next stated that there could be no convic-
tion without a preponderance of evidence
which had not been presented. In the
complaint, not only was no motion was
made of the violation of the rules but
the question was asked if the rules say
that a removal cannot be made for
cause not named in the regulations. He
also said that Twaddle had been giving
a hearing but that Little had broken a

specific rule and was not entitled to a
trial. He ascribed base motives to the
assistant chief of argued against his
testimony that he was prejudiced di-
rectly interested in getting back that job at
\$20 per month, hence unworthy of be-
lief.

The testimony of the various witness-
es was reviewed, applications made and
conclusions drawn. He gave much
weight to the testimony of Lynott. The
hour of 12 o'clock was near at hand when
Mr. Thurman closed, and as Mr. Rude
expressed an opinion that he would con-
sume fully an hour, adjournment was
taken until 2 p. m.

SCHOOL NOTES.

The Class in Stenography is Proving to be
Very Popular.

The board of education holds its regu-
lar monthly meeting tomorrow night.
Several important matters will come up
for consideration.

Miss S. C. Elliott, of the Irving school,
has resigned for the remainder of this
year because of ill health. Miss Ruth
Kelly, the special teacher of the school,
has been off duty all this week because
of illness, but will resume her labors
next Monday.

The class in stenography is proving
quite popular and is experiencing quite
a boom. Seventy-five are now enrolled
at the Bethel this evening. Principal
Hugo has his hands full on the three days
of the week on which the instruction is
given. The Penn Pitman system is be-
ing taught and today a lot of new text
books just received were placed in the
hands of the pupils.

The next teachers' meeting will be
held Saturday forenoon, March 4. The
general meeting will take place at 10 a.
m. There will be grade meetings in the
same rooms as heretofore and they will
be in charge of principals. Principals
meeting, conducted by Miss M. L. Olds,
of the Franklin school; seventh and
eighth grades, Miss Stella Albright;
fifth and sixth grades, Miss Mary Cald-
well, of the Adams school; third and
fourth grades, Miss Beulah Gilman, of
the Emerson school; second grade, Miss
Jennie McConnell; first grade, Miss Nel-
lie Stoughton, of the Lincoln school.

Duluth Board of Trade

Finding additional room necessary
will build a very large and hand-
some building.
Property adjacent to this building
will be immensely increased in
value.

No site has been selected and prop-
erty holders, with others interested,
are invited to submit offers of bonus
to be paid for the location of the
Board of Trade building upon a site
named by the guarantors of the
bonus.

Offers of bonus must be made in
the name of the owner, and must be
responsibility or accompanied by
ample guarantees.

Within reasonable bounds the
building will be placed in the local-
ity offering the largest bonus.
O. C. HAKTMAN,
A. D. THOMPSON,
J. W. MCLEOD,
FRANKLIN PAINE,
Committee.

SECRETARY THOMPSON HOME.

He Has Something to Say About the Bridge
Bills.

Secretary Thompson returned from
the East this morning and was feeling
bappy at getting back to the salubrious
climate of Lake Superior district.
He says the weather in the East is abom-
inable. Speaking of Duluth matters at
Washington, he said that work will un-
derstandably be retarded in the life-
saving station early in the spring. The strip
of land on the bay side asked for from
the city is to be a site for a shelter for
the city's poor, and it is a pity that
this cannot be launched in the
surf but only in quiet water. Once in
however, it can be used in a high sea.
There will, of course, be a number of
surf boats also.

In regard to bridge matters, Mr.
Thompson referred to the statement
that he had been accused of working for
a certain bill. This he denied and
said that neither bill met his
entire approval from the standpoint
of public interest, that is, that he is
supposed to work for. The first bill in-
troduced had no purchase provision and
this he claimed was absolutely neces-
sary. The provision in the Duluth-Su-
perior company's first bill that the com-
pany "at the end of five years may sell"
he characterizes as rather odd, he not
being aware that it requires an act of
congress to enable a corporation to sell
anything it owns.

When the bridge matter first came up
Mr. Thompson says, the Duluth council
and chamber of commerce resolved in
favor of the Rice-Connor's Points
bridge. As the only bill at the time was
the Commercial, it naturally ap-
peared that theirs was approved.

"The war department," says Mr.
Thompson, "will see that any bridge built
will be no undue obstruction to nav-
igation, but it devolves on the people of
this city to see that they are protected.
Public interest demands that any bill
which shall pass, shall not only contain
a provision that the company may sell
but that it must sell at the end of cer-
tain periods. At present I favor the
building of the bridge by a private com-
pany because it is not feasible for the
cities to build it."

Will Get the Window.
The exact net profits of the recent
Columbian exposition have been set up
yet by the board of land managers, but
they say that they can now accept the
proposition made by the state board of
managers, that the city or people of
Duluth will pay one-half of the cost of
the stained glass window designed by
Mrs. Weston for the Minnesota building
at the World's fair.

The ultimate desire is to
place the window in the public library
building.

THE IRON TRADE REVIEW.

The Problem Which the Price of Mesaba Ore
Has Produced.

The ore interests centered in Cleve-
land are closely watching the pig iron
situation as it has developed in the Val-
ley and at Pittsburgh the past few weeks,
says the Iron Trade Review. Ore selling
firms find the course of the pig iron
market a more reliable index of furnac-
men's attitude than the gossip about an
enormous Mesaba output that has been
used to hammer down prices.

No site has been selected and prop-
erty holders, with others interested,

**OUR
LENTEN
LIST:**

BANKRUPT SALE!

Corner First Avenue West and First Street.

Dry Goods, Cloaks and Carpets!

In addition to KAHN'S BANKRUPT STOCK we have just added \$20,000.00 worth of goods bought at a Bankrupt Sale in Chicago at 40 CENTS ON A DOLLAR. Many lines of goods we are almost giving away; we must clean them out at some price. This week we were obliged to pack away our CARPETS AND DRAPERIES to make room to show our immense line of Cloaks, but

MONDAY MORNING, FEB. 20th,

We will re-open the balance of Kahn's stock of Carpets, Curtains and Oil Cloths, and add to it \$9,000.00 worth of goods just received in stock from Chicago.

Ingrain, Extra Supers, Tapestry Brussels, Body Brussels, Moquette, Velvet, Axminster Carpets, Chinele, Silk and Lace Curtains. All go at prices far below the cost of manufacture. Look at the goods and compare prices.

DAWKINS.

THE LENTEN SEASON

The Gay Round of Pleasure Which Usually Prevails in Social Life Will be Interrupted.

The Columbian Fete Proved to be a Great Social Success and Will Long be Remembered.

Valentine Socials, Dancing, Sleighting and Card Parties Filled the Early Part of the Week.

Social life has taken on an autumnal tinge during the early days of the Lenten period and there will be a little cessation from the usually uninterrupted round of pleasure which falls to the lot of society people in Duluth. As if to emulate the chameleon, whose brightest flash or prism of color is always shown just before death, the fair managers of the Columbian fete, the brightest bit of social life for some time, allowed their jollity and pleasure to maintain until midnight Tuesday night, but like the warning which Cinderella heeded all too tardily at the first top of "midnight's holy hour," the Columbian fete, with its successful issue, its well managed attractions and its pretty faces was a thing of the past. It is whispered, however, that one glass of punch was sold at 12:01 a. m. on Wednesday, but that it was decided that the seller's watch was a little mite fast, so she escapes the awful imputation of having been too frivolous on Lent's opening day.

What few attractions there have been were bright and joyous ones and the usual run of small happenings made the week a fairly busy one.

Social Mention.
The West Duluth Assembly club had an enjoyable "hoor" last night.
The Kancaroo club had a social dance at Hunter's hall Thursday evening.

Mrs. J. D. Boyd entertained the C. P. Whist club, of West Duluth, Thursday evening.

Miss Jessie and Miss Mamie Patterson entertained a number of friends at cards Thursday evening.

Miss J. A. Skinner, of West Duluth, gave a card party to a number of lady friends Friday afternoon.

A Valentine social, including dancing, was given by the ladies of the Episcopal church at West Duluth Tuesday evening.

Pilgrim Congregational church ladies had a No. 1 time at their oyster supper social Wednesday evening. There was a large attendance.

The wedding of Ernest Voss to Miss Alvina Gauß, all of West Duluth, took place Monday morning at 11 o'clock. In the evening Mr. and Mrs. Grosse gave a

reception and dance in honor of the bride.

The Young Men's club, of West Duluth, had a pleasant little masquerade in that suburb Monday evening. About 100 were present in costume.

The Duluth Turn Verein held their second grand masquerade ball Tuesday evening. There was a large crowd present and Turner hall was filled.

Miss Florence McPhail, of this city, was married a few days ago to George A. Poole, of Georgetown, Prince Edward's Island. The happy couple are honeymooning in Boston.

The Duluth club gave its retiring president, Rt. Rev. William M. Baker, a reception of an informal kind at the club's home Monday evening. Music, gossip and refreshments were provided.

The marriage of R. A. Peters, of this city, to Miss Clara M. Eddy, of Rush City, took place at the bride's home Tuesday. The newly wedded will live at London station and will be "at home" after April 1.

The marriage of F. W. McDunnough to Miss Margaret Gorrie took place at Mrs. A. B. Morrison's residence on East Superior street Saturday evening. Rev. E. M. Noyes officiating. Their future residence is 1025 East Superior street.

Articles of incorporation of the Zenith City Social club have been filed with the secretary of state, the following being the incorporators: J. H. C. Richardson, J. N. Richey, H. C. Richardson, B. H. Blackstone, C. H. McDonald, W. B. Richardson, John H. Simons, E. G. Richey and W. A. Porter.

Mr. and Mrs. James A. Kirkwood entertained a number of their friends at a West Duluth with a card party Monday evening. Progressive cinch was the game. Head prizes were won by H. C. Venger and Mrs. J. A. Skinner, while the booby prizes were won by George Davis and Mrs. Ed. Elston. Music, dancing and refreshments filled out a pleasant evening.

A pleasant sleigh ride was given Monday evening by Miss Alice Bartlett and Miss Mary Cullyford. After a long ride to West Duluth and back a delicious supper was served at the Bartlett residence. Among those present were Misses Lillian Clark, Lottie Hall, Maud Wigdahl, Gerie Wiggins, Lottie Hoople, Minnie Thompson, Margaret Driesbach and Messrs. Bartlett, Cullyford, Pierce, Hoople, McKay, Maloney and Nell.

Among the Duluth people who attended the telegraphers' ball in St. Paul the early part of the week were Mr. and Mrs. H. P. Brown, Miss M. R. Fawcett, Miss Anna Heiser, Mr. James Owens, Mr. E. E. Zeh, Mr. H. L. Heiser, Mr. P. B. McTague and Mr. Edward Hilliard. There was also a large attendance from Minneapolis, La Crosse, Milwaukee, Chicago, Eau Claire and West Superior.

Social Personal.

has many friends here and who has been spending about three weeks with Mrs. Phineas Ayer, left for home yesterday afternoon.

Mr. and Mrs. F. V. Merritt have gone to Santa Barbara, Cal., for the balance of the winter. They went via New Orleans and "took in" the Mardi Gras celebration while there.

Mrs. E. B. Force left Wednesday last for a ten days' visit to St. Paul and Minneapolis. Her daughter Miss Louise Eger, who has spent the last two months in Minneapolis, St. Paul and Hudson, will join her. They will return home about March 1.

To Florida as the Crow Flies.
Via the Chicago & Eastern Illinois R. R., "Evansville Route." Pullman vestibuled trains leave Chicago daily at 4 p. m., reaching Florida and the Gulf Coast six hours quicker than by any other line. Sleeping car space reserved to any point in the South. Low excursion rates. For full information, apply to Chas. W. Humphrey, No. Pass. Agt., 170 East Third street, St. Paul, Minn.; Chicago City Ticket Office, 204 Clark street; or Charles L. Stone, Gen. Pass. Tkt. Agt., Chicago.

Union Skating Rink.
Music tonight. Everybody come and skate on good ice.

An Attractive Place.
The meeting for men held in the Young Men's Christian Association hall, 18 East Superior street every Sunday afternoon, is one of the most attractive and helpful services for men in our city. An orchestra of seven musicians renders instrumental music preceding and following the meeting, and leads the singing. A new song book, containing many of the best new gospel hymns and the grand old favorites, has recently been introduced and the singing is very good. Special vocal music is also rendered nearly every Sunday. Geo. E. Arbury, Esq., will sing a tenor solo next Sunday. Effort will be made to secure the strongest speakers of the Twin cities and the towns surrounding us during the next few months. W. D. Edson, Esq., will be the speaker this Sunday.

Cullum, dentist, 702 Palladio building

Music Saturday evening. Good ice every day and evening. Lake avenue. Come.

SOME REMINISCENCES

Frank Burke Gives Some Incidents in the Career of Edward Eggleston, the Author.

No One Who Knew Him Supposed He Would Ever Create Any Stir in the World.

How Thomas Clark Nearly Lost His Job for Running Away to Hear Gladstone Speak.

At the city hall the other day a company of reporters and members of the Independent Order of Sons of Ease were discussing several men in Duluth who are financial failures because of the fact that they are dreamers, triflers, impracticable theorists or grasping after some prize not seen, appreciated or endorsed by the critical and cold hearted public.

Columbus only escaped everlasting commitment to that class by getting out and discovering something. Some men are classed there because of circumstances and others because they belong there. From those ranks may be evolved the crank, the great discoverer or the peculiarly constituted member of humanity may remain a nonentity to the end.

"I know one man who cracked the shell and surprised everybody by attaining an importance at one time never dreamed of—and that was Edward Eggleston," said Frank Burke. "I knew that popular author when he was a poor Methodist preacher riding the Traverse circuit in this state. That was during the years of 1857-8-9. Eggleston had a long circuit and his book 'The Circuit Rider' is based on his experiences at that time. I know every character in that book."

"He was in those days a tall, spare, well built man, with a face of no particular attraction and an average ability as a preacher. He boarded at a house of some friends of mine and was notorious for his laziness, lack of vigor and his constant perusal of books. He would lie down on the grass with his face resting in his hands and pore over a book by the hour. He forgot his meals and was either so pre-occupied with his thought or so lazy that the boys would have to carry up the wood to his room to keep him comfortable. If that was not done he would stay there and read and shiver and freeze. He'd forget his meals, and when he was riding from one charge to another he would sit on his horse absorbed in a book resting on the horn of the saddle."

"No one expected he'd ever create any stir in the world or amount to enough to pay for the powder to blow him up. Then to cap all, he'd married a young girl who had less force appar-

ently than he. She was big and fat and goodnatured. She was of good family but had come West onto the frontier in an early day and had missed all educational advantages and was more ignorant of books than even is permissible for the wife even of a pioneer Methodist preacher."

"Well, all the time people through Eggleston was asleep, the wheels had been going around in his head to the best of advantage. He got out his first book, then another, and who he is and what he has done is known today by almost every household in the country. One pleasing fact is that he took right hold of that good-natured, easy, young wife, commenced to teach her, sent her to school, brought her up to his level mentally, and today there is not a more cultured, intelligent lady in the land."

"There's one of the greatest men of the age," remarked Thomas Clark the other morning to an applicant for a building permit, as he pointed to a newspaper cut of Gladstone. "Just think! A man 84 years old, standing up and delivering a speech three hours in length. Gladstone is a great man, and had it not been for the effect of the murders and outrages in Ireland, his work for the Irish people would today be bearing greater results."

"I once nearly lost the best job I ever held by going to hear Mr. Gladstone speak. I was in the civil service in Edinburgh and all my superiors were rank Tories. A while before the speaking commenced, I slipped on my coat and hat and made my way to the rear of the hall, where I persuaded a policeman to let me slip in by the forbidden entrance. I passed in, crossed the stage and secured a seat right up front. When I got back to my duties there was a great uproar and I was asked where I had been and why I left my duties without permission. My superiors smiled a fat and it was only by a timely told fairy tale that I kept them in ignorance and saved my job. As it was I received a severe reprimand."

"On another occasion Mr. Gladstone, accompanied by the Earl of Rosebery, had an appointment to address the Liberal club of Edinburgh. A crowd of us met their carriage about two miles from the city, unhitched the horses, and, with the coachman and footman in their seats, marched triumphantly into the city, the people on the streets and in the buildings cheering wildly as we dragged along the carriage and its honored occupants."

"The students of the university of Edinburgh frequently made wild demonstrations over Gladstone. There was a host of them, and when they took a notion to do a thing, they usually did it. Professor Blackie, the renowned professor of Greek, was the only man who could influence them when they got wild. His hair was snowy, white and hung in long locks over his shoulders. He always wore a Scotch plaid shawl and was famous for his sharp wit."

"On one occasion when absent, he left on his door the words—'Professor Blackie will not meet his classes today.' A student came along, erased the letter C which caused the notice to read—'Professor Blackie will not meet his classes today.' The next day, when the venerable old wit returned and saw the

transformation in his bulletin on the door, he simply went the student one better and rubbed out the letter L which made the notice read—"Professor Blackie will not meet his asses today," after which the old fellow quietly turned around and went back to his house."

"One custom among the students was to always salute a professor when met on the street. At the beginning of a term a lot of new ones came in and a failure to give the salute attracted Professor Blackie's attention. He stood it for a few days but finally commenced to take them to task for their rudeness. Before he had finished, however, he abruptly ended his censure by the remark—'Ah, I remember! Puppies never get their eyes open until after the first nine days.'"

Buy a Nice Suit.
At Sam. Loeb's auction sale. Everything to be closed out.

The Only Line That Does It.
The St. Paul & Duluth Short line runs three daily trains between Duluth, St. Paul and Minneapolis and Chicago, making direct connections for all points in the East and South, Southern Florida and California. BRADFIELD REGULATOR CO., ATLANTA, GA.

IS JUST FROM HAWAII

A Melbourne Newspaper Man Gives an Interesting and Unprejudiced View of Affairs in Honolulu.

The English and Germans on the Islands Will Sink National Prejudice for Commercial Advantages.

Secretary of State Foster Has Disapproved of Any Protectorate Being Assumed by Minister Stevens.

SAN FRANCISCO, Feb. 18.—Edmund Mitchell, who is on his way to Chicago to represent at the World's fair the Melbourne Age and other Australian papers, arrived on the Monowai yesterday. He spent fifteen hours at Honolulu, which he utilized in interviewing. His views are interesting, as he is unprejudiced, and they show that the natives and most of the whites have no sentiment of patriotism, but are moved solely by commercial associations. Mitchell tried to see the queen, but she declined to be interviewed. "I think both the English and Germans on the islands will sink their national prejudices, if for plain commercial advantages," said Mitchell. "Many foreigners and some Americans consider the hosting of the American flag a great mistake, as from all I can gather there was no turbulence and no danger to the provisional government. Although the natives and some foreigners declare Hawaii is ready to be admitted as a state of the Union, this is absurd, for the natives are not fit to vote. Even the sanguine annexationists are bothered by one thing. Suppose the islands are made a territory like Alaska, would the United States be willing to recognize the cheap contract labor system, without which the sugar plantations cannot be worked? This is what is worrying the leading foreigners."

INSTRUCTIONS TO STEVENS. The Secretary of State Has Disapproved the Protectorate.

WASHINGTON, Feb. 18.—The correspondence sent into the senate by the president to accompany the Hawaiian treaty contains the text of Secretary Foster's dispatch of Feb. 11, an abstract of which went out by the last mails to Honolulu, disavowing Mr. Stevens' protectorate. The known facts in reference to the events leading up to the protectorate are stated, and it continues: "So far as your action amounts to according to the request of the de facto sovereign government of Hawaii for the co-operation of the moral and material forces of the United States for the protection of life and property from apprehended disorders, your action is commended. But so far as it may appear to overstep that limit, by setting the authority and power of the United States above that of the government of the Hawaiian Islands in the capacity of protector, to impair in any way the independent sovereignty of the Hawaiian government by substituting the flag and power of the United States as the symbol and manifestation of paramount authority, it is disapproved."

Instructions will be sent to the commanding officers of the United States naval forces in the Hawaiian waters confirming and reinforcing the instructions heretofore given them, under which they are authorized and directed to co-operate with you for the preservation of American life and property and the maintenance of good order in case of need. Your own instructions in the same sense are continued.

"You are accordingly authorized, upon the receipt of these instructions, to arrange with the commanding naval officer for the continued presence of a force of such marine force as may be practicable to protect the lives, being, however, always careful to make due discrimination between those sections of volunteers or accords protection and the assumption of a protectorate over the Hawaiian Islands by the United States.

"No steps need to be taken by you, or will be sanctioned by this government which might tend to derogate in any way from the independence of the government of the Hawaiian Islands, which the United States have recognized as sovereign and with which they treat on terms of sovereign equality. Telegraphic instructions briefly outlining the substance of this dispatch will be sent to you by way of San Francisco, by the mail steamer sailing from that port on the 15th inst."

ADVICES FROM THE ORIENT. An Attempt to Destroy a Methodist Chapel Frustrated.

SAN FRANCISCO, Feb. 18.—The steamer Belgic brings the following advices from the Orient. At Nanking recently, placards were posted, naming a date for "burning out" foreigners. A crowd gathered in the Methodist chapel, and after destroying all of the interior furnishings, made preparations for setting the place on fire. The completion of this was only prevented by the timely arrival of officials. The United States gunboat Monitor arrived shortly afterward and the people ceased their demonstrations.

The heavy snow falls in Japan have been attended by a number of fatalities. In the village of Kaukama a snow slide caused the loss of twelve lives. The people in Yakusugi are supposed to be in a miserable plight. All the roads to that place have been blocked by snow since the early part of December, since which time none of its inhabitants have been seen.

III With Scarlet Fever. New York, Feb. 18.—The young son of Mrs. Nevins Blaine is ill with scarlet fever at the New York hotel. The dreaded malady has been taken on and both the child and his mother were at once quarantined in the apartments of Mrs. Nevins, the grandmother. The boy's condition is not considered dangerous.

Committed Suicide. LUBINGTON, Mich., Feb. 18.—O. L. Shepherd, traveling salesman for J. G. Fink, coffee and spice, of Milwaukee, committed suicide at the Red House here Thursday night.

NEW DULUTH HAPPENINGS.

The Atlas Iron Works Has Started Up With Considerable Work.

NEW DULUTH, Feb. 18.—The Atlas Iron works started up Monday morning with a large amount of work and a large crew of men. John Crowley has returned from the Marinette works at West Duluth to be foreman of the machine shop.

Mr. Ingham, of St. Paul, has come here to be foreman at Fred Herman's sash door and blind factory. The district school was quite a success Saturday night. The boys and girls had to be well disciplined before the evening was over, but they did not seem to mind it, and had a very pleasant evening. The ladies netted quite a sum from the evening's entertainment.

St. Valentine's day was well celebrated by the children and young people. Each room at the school had a valentine box and the children had much pleasure in exchanging their gifts. Some of the young people of the village are talking of giving a play as soon as they can prepare one for their own and friends' amusement.

The Baptist church has been improved much by carpeting it.

Mr. Jackson preached at Fond du Lac Monday evening. Services at the Baptist hall as usual Sunday morning and evening. Subject of morning sermon, "Enoch's Walk With God," evening, "Lot's Choice." Communion will be served Sunday morning.

Next Wednesday being Washington's birthday, the schools will have a holiday.

Earnest Hurd left for Minneapolis on business Monday.

J. Herman left Wednesday for Northern Michigan and Wisconsin, in furniture interests.

Mr. and Mrs. Cook left last week for Michigan where they will live in future. Johanna Ehrman was surprised by twelve little girls Tuesday afternoon, the occasion being her birthday. Games and lunch occupied the pleasant time.

Miss Hurd left Monday on the Onawa for her home in Ann Arbor, where she will remain two months. The family expect to come in May and make Duluth their home in the future.

Miss Daily spent a portion of the week in Duluth on account of illness.

Mrs. Briggs and children have returned from Duluth, where they have been for two months past.

Mrs. Edwards will move to Duluth this week, where Mr. Edwards has been employed for some time.

Wm. Day has moved his office next to the old bank in the Blackman block.

A great deal of hardware is being shipped to West Duluth from Fond du Lac.

Mrs. Reed was surprised by a number of her friends Wednesday night, it being her birthday.

MORTON HAS ACCEPTED.

A Nebraska Man Will Be Secretary of Agriculture.

LAKEWOOD, N. J., Feb. 18.—Mr. Cleveland announced last evening that J. Sterling Morton of Nebraska, who visited him at his request yesterday, was tendered the department of agriculture and accepted it. Mr. Morton is one of the most prominent Democrats in the state of Nebraska. He has been in the state legislature and was talked of as a candidate for governor last fall.

He Wants Boies. DES MOINES, Feb. 18.—It is reported that an undated authority here that Don M. Dickinson will be in Des Moines Monday for the purpose of trying to induce Governor Boies to accept a place in the cabinet. Mr. Dickinson is a member of the Iowa state legislature and a member of his official family.

DIED FROM PARALYSIS. The Wife of the Public Printer Died Rather Suddenly.

WASHINGTON, Feb. 18.—Mrs. Frank Palmer, wife of the public printer, died in this city yesterday from paralysis. Mrs. Palmer, while attending to household duties two or three weeks ago, tripped her foot in the carpet and fell, injuring her hip, which later on turned into paralysis, from which she has been suffering for several days and which resulted in her death.

Services will be held at the residence, No. 1025 Vermont avenue, probably on Monday. The remains will then be taken to Graceland cemetery, Chicago.

DAMAGE FROM FLOODS. EVANSVILLE, Ind., Feb. 18.—The recent rains have been general along the tributaries emptying into the lower Ohio, causing a rapid rise. The most alarming is the Wabash river, which is at this point registers forty-three and three tenths feet and is still rising.

A Five Years' Sentence. DANVILLE, Va., Feb. 18.—The case of J. T. Clark, indicted for the murder of Rev. J. R. Moffet, was concluded in the Hastings court yesterday afternoon. After a ten days' trial the jury, which was brought here from Lynchburg to try the case, rendered a verdict of manslaughter, fixing the punishment at five years in the penitentiary.

A Heavy Loss. CHICAGO, Feb. 18.—The plant of the Nubian Iron Enamel company in the town of Cragin, a manufacturing suburb of this city, was destroyed by fire shortly after noon yesterday. The flames started in the boiler room. The loss is estimated at \$50,000. Over 100 men were employed in the factory.

Tired of Life. DENVER, Col., Feb. 18.—Samuel J. Inman, a police court clerk, committed suicide yesterday by shooting himself through the head. He was harassed by creditors and could not meet his obligations.

Went Out in Smoke. CHARLESTON, S. C., Feb. 18.—A fire in Florence yesterday destroyed a tobacco warehouse with \$50,000 worth of manufactured tobacco.

Almost Given Away. Will be the entire stock of clothing at Sam Loeb's at the auction sale which is now in progress. If you need anything in the clothing line now is your opportunity.

TEN DOLLARS A MINUTE!

This is the average amount now being paid to the policy holders every minute of every hour of every day of every week, the year through by the

Metropolitan Life Insurance Company,

OF NEW YORK.

Which Company Has Recently Opened a Branch Office in This City.

This is one of the oldest life insurance companies in the United States. It has been doing business for more than twenty years. Its assets amount to more than sixteen millions of dollars. It has two million seven hundred thousand policy holders. Between 10,000 and 20,000 families received the proceeds of their policies last year. Nearly 5,000 persons are actively in the service of this company in America to day.

Its Great Feature is its Industrial Plan of Life Insurance!

5 Cents a Week and Upward Will Secure a Policy.

All ages from 2 to 70 taken. Claims paid immediately at death. No initiation fee charged. Males and females insured at same cost. Premiums collected by the company weekly at the homes of policy-holders. Only healthy lives are eligible. No uncertain "assessments." No increase of dues.

THINK OF IT! The daily saving of FIVE CENTS will carry policies on the lives of every member of a family of seven persons.

The Branch Office of the Metropolitan is at Rooms 402 and 403 Chamber of Commerce Building.

CHARLES H. KEPPEL, Superintendent.

Where all inquiries may be answered, where applications for agencies will be received and where all who desire insurance are invited to call. If you cannot call in person send for Pictorial Calendar or a copy of the company's illustrated publication, furnished free.

SPECIAL NOTICE. AGENTS WANTED—Agents are wanted by this company in all the principal cities. Splendid opportunities are offered to active, energetic men. Those out of work, or those who are in situations with little or no chance of promotion, should apply to the right kind of men it offers steady, permanent and paying positions, with opportunity for merited advancement. If this notice is not applicable to the reader and he has a friend whom he thinks might interest, will be kind enough to bring the subject to that friend's attention? For further particulars apply to the branch office in this city.

OFFICERS:

JOHN R. HUGEMAN, President. GEORGE H. GASTON, 2d Vice President and Sec'y. J. J. THOMSON, Cashier and Ass't Sec'y. JAMES M. CRAIG, Actuary. THOMAS H. WILLARD, M. D., Medical Examiner. HON. STEWART L. WOODFORD, Counsel.

manner whatever it shows that the friendship which they have frequently expressed for Ireland in recent years was but a sham, with the hope of influencing the elections.

Whether the bill will pass or fail in this parliament remains to be seen. Its friends are hopeful of its passage by the commons. What late it will meet in the house of lords is problematical. It is astonishing to learn that the bill does suit the Orangemen in the north of Ireland, because every objection which they have heretofore urged against home rule seems to have been in this measure.

There could be no wrong done them under the new order of things, because all legislation affecting religious institutions, etc., is forbidden and Protestant England would still hold the whip hand. The people of Ulster, therefore, have no reason to kick. In this connection the words of Mr. Gladstone, in closing his great speech when introducing the bill several days ago, are worthy of repetition: "It would be misery for me if I had foregone or delayed in these closing years of my life any measure it was possible for me to take toward upholding and promoting the cause which I believe to be the cause, not of one party or one nation, but of all parties and all nations. To these nations, viewing them as I do with their vast opportunities under a living union for power and happiness—to these nations I say, 'Let me entreat you—if it were my last breath I would so entreat you—let the dead bury their dead, and cast behind you former recollections of bygone evils, cherish, love and sustain one another through all the vicissitudes of human affairs in times that are to come.'"

Blocking Its Passage.
The Herald's article yesterday urging the necessity of a bill being passed by the present session of congress to give the Duluth Transfer railway authority to bridge the St. Louis river at Grassy Point appears to have hit some people pretty hard. The Herald condemned those who have been opposing this measure and charged that its passage was being blocked by the promoters of the Duluth-Superior Bridge company. The News Tribune denies this statement and makes a labored attempt to show that the bill's passage is prevented by the attitude of certain Superior people.

The Herald has direct information from Washington which prevents its acceptance of the morning paper's explanation of the position of the Duluth-Superior Bridge company's promoters. It therefore asserts that had it not been for the obstacles placed in the way by the representatives of the Duluth-Superior Bridge company who visited Washington, the Transfer company's bill providing for a railroad bridge would have passed congress and become a law. When these gentlemen arrived in Washington the Transfer company's bill was in a fair way to be passed. There was practically no objection to it. Then they cooked up a scheme to have it opposed unless the Superior people agreed also to the passage of the Duluth-Superior Bridge company's bill, and at their instance an amendment was tacked on to the Transfer company's bill, making it also a wagon and foot bridge, at the option of the secretary of war. This was a "sop" thrown to the Land and River Improvement company, but it did not have the expected effect. The fish did not bite, and now all the bridge bills are hung up for this session, as a result of the scheming of the Duluth-Superior Bridge company's promoters. Duluth is compelled to suffer for the benefit of the street railway monopoly.

In this connection, it may be worth while directing attention to a willful falsehood which the News Tribune has been repeating for the past week. It asserted about a week ago that the secretary of war had approved the Duluth-Superior Bridge company's bill. The Herald is now in a position to assert most positively that this statement was utterly false. Secretary Elkins had not approved the bill at that time, nor had he approved it as late as Thursday night of this week. This shows the utterly unreliable character of the "fake" dispatches from Washington peddled out through the columns of the morning paper.

"Bill" Erwin scored another legal victory at Pittsburgh today in securing the acquittal of Hugh O'Donnell, the first chairman of the Homestead advisory board. The "tall pine tree" had many lively brushes with the court during the trial, but the manner in which he marshaled the evidence for the defense and his able argument had the desired effect with the jury.

Mr. Cleveland is carrying out his promise that he would announce the names of the members of his cabinet as fast as they are accepted. There is nothing gained by keeping such matters secret until March 4, and Mr. Cleveland is sensible in adopting this course.

Those people who are objecting to Hoke Smith's name should remember that Hoke is better than John when attached to such a surname, adding a distinction that is desirable.

Peace is restored in Kansas, but for how many days no man dare predict. There are many men there yet walking around with chips on their shoulders.

Jerry Rusk is to be succeeded as sec-

retary of agriculture by J. Sterling Morton, of Nebraska. It is to be hoped that Mr. Morton will furnish winter weather of a less violent character during his term of office. Uncle Jerry meant well, no doubt, but his weather was rough like himself in many particulars.

Some Kansas Republicans are talking of reproducing the legislative scenes of the past few days in the Kansas building at the World's fair. Surely they will not disgrace the nation in the eyes of the world by exhibiting such a specimen of disorder and illegal actions.

Pianos are not to be exhibited at the World's fair, and the long-haired cranks who delight to pound every unlocked piano that they discover will find their occupation gone in Jackson Park. It will be a blessed relief for the other people.

The little News Tribune is much exercised in mind because the Herald yesterday published a dispatch which was accidentally omitted from its previous day's issue. The Herald daily publishes twice as much telegraphic news as is given in the morning paper, and is the real secret of its ill-natural fling.

Generosity Not Merited.
A generous act is its own reward. The hired girl was courteous, but by no means servile.

She kindly expressed an exclamation of surprise when the lady of the house asked her if she supposed going out that afternoon.

With a nobility not often found in the more powerful classes of society she forbore to give intemperance to the petulant reply that came to her lips.

"Yes," she answered politely, "I had thought to do so."

"Then—"

The lady of the house twined her fingers together nervously.

"You will want my black silk dress."

She stole a timid, anxious glance at the domestic.

"No," the latter hastened to reply, "you may wear it. I will stay at home."

And all the rest of the day she was made happy by the thought of the volunteer sacrifice she had made.—Detroit Tribune.

For the Good of Others
Rev. Mr. Williams heartily endorses Hood's Sarsaparilla.

We are pleased to present this from Rev. A. A. Williams, of the Silsbee street Christian Church, Lynn, Mass.

"I see no reason why a clergyman, more than a layman, who knows whereof he speaks, should hesitate to approve an

Article of Merit

and worth, from which he or his family have been signally benefited, and whose commendation may serve to extend those benefits to others by his example. My wife and I have been cured of a skin disease by Hood's Sarsaparilla. I have no hesitation in endorsing its merits."

Hood's Sarsaparilla
I have no hesitation in endorsing its merits."

Hood's Pills are the best family cathartic, gentle and effective. Try a box. Price 25c.

WEDDING RINGS
Copyright 1893.

Hearts Joined

together and beating as one are usually chosen as the symbol of wedded happiness. The ring is the outward and visible sign of the union of hearts; and the wedding ring is therefore forever cherished. The finest assortment of wedding rings is now to be seen at Jackson's. These rings are warranted 18 karats and are much admired by all who see them. That which is preserved through life should be selected with the utmost care. All rings bought from our stock can be subjected to the closest scrutiny. Examination only establishes more clearly their claim to superiority.

ANDREW JACKSON,
Jeweler,
106 West Superior Street, Duluth.

Pine Lands.
Wm. Chesser, dealer in pine lands, whose office was formerly in the Fagunsson building, can be found at room 401 Palladio.

If you are not satisfied with your laundry telephone 447 and have Lutes' laundry call.

Will Try to Reinstall Little.
The discharge of Fire Commissioners Hart and Helmski by the council is the chief topic of discussion at the city hall this morning. No one seems to know what will or can be done next. It is said that a number of citizens are quietly setting on foot a movement looking to the reinstatement of ex-Assistant Chief Little if there is any way in which that can possibly be done.

Will Trade.
Any of the choice oil paintings in my collection for agricultural estate in and around Duluth and West Superior, and for good iron stocks. Call and see what I have got and perhaps we can make a deal.

Joins Wilson.
Dealer in Fine Arts,
413 to 417 Woodbridge block.

Almost Given Away.
Will be the entire stock of clothing at Sam Loeb's at the auction sale which is now in progress. If you need anything in the clothing line now is your opportunity.

GOLDEN WORDS OF TRUTH.

We Have Our Pastors' Assurance of These Fac's.

The Word of Ministers Taken as the Strongest Proof.

Persons Believe the Pastor Before Anyone Else in the World.

There are no works so strong as those spoken by the true minister of the gospel. One knows and feels instinctively that such words come from the heart and are prompted only by the earnest purpose of doing good to humanity.

We do not wonder, therefore, at the great influence of the public of the strong and ringing words of praise which the eminent divine, Rev. C. D. R. Meacham, gives that most wonderful of all things, a sermon. When he was run down in health, weak in nerves, prostrated in strength, and with his blood badly impaired, he was restored to sound and vigorous health by this marvelous health restorer.

Here are the exact facts in his own words:

"I am very glad to say in regard to Dr. Greene's great remedy that when my blood was badly impoverished by an old scrofula humor, and my nervous system was greatly impaired, Dr. Greene's medicine gave me wonderful relief."

At the present time my health is as good as at any time in my life, and my confidence in Dr. Greene's remedy is constantly increasing.

Pastor Bap. C. D. R. MEACHAM,
Presiding Elder of the Methodist Church, Townsend, Vt.

Doubtless the same heartfelt sympathy and great desire to see the sick made well inspired the Rev. Dr. J. W. Walker, presiding elder of the Methodist church, Fort Dodge, Ia., to also recommend Dr. Greene's Nervura blood and nerve remedy to the sick and suffering. He, too, has used it himself; he, too, knows that it cures, that it is sure to make the sick well if they use it.

I have given Dr. Greene's Nervura blood and nerve remedy a fair test, and am free to say that I consider it rightly named. I have recommended its use to several.

Rev. J. W. WALKER,
Presiding Elder of the Methodist Church, Fort Dodge, Ia.

We have published the testimonials of vast numbers of people who were cured by the use of the great discovery, Dr. Greene's Nervura blood and nerve remedy, but we take more pleasure in giving to the world Rev. Mr. Meacham's own words and those of Rev. Mr. Walker in regard to the wonderful benefits received from this valuable remedy, because we realize that the earnest words of a minister will have great weight with sufferers from disease, and everybody who reads their convincing words in regard to the sure and remarkable curative powers of this medicine will lose no time in securing a bottle and thus obtain a cure.

Above all use this great remedy in the spring, for it is the best spring medicine in the world. Almost everybody needs to use a spring medicine to invigorate the system, strengthen the nerves and start up a healthy action of the liver, kidneys and bowels. Be sure and use Dr. Greene's Nervura blood and nerve remedy. It is pure, vegetable and perfectly harmless, and is kept by all druggists at all times.

Its discoverer is the well known Dr. Greene, of the great discovery, Dr. Greene's Nervura blood and nerve remedy, but we take more pleasure in giving to the world Rev. Mr. Meacham's own words and those of Rev. Mr. Walker in regard to the wonderful benefits received from this valuable remedy, because we realize that the earnest words of a minister will have great weight with sufferers from disease, and everybody who reads their convincing words in regard to the sure and remarkable curative powers of this medicine will lose no time in securing a bottle and thus obtain a cure.

THE HOME RULE BILL

(Continued from page one.)

The tax collected by Ireland from Irish residents held by residents of Great Britain, there shall be made to Ireland of the income tax collected in Great Britain an allowance of such an amount from time to time to be determined by the treasury in accordance with a note of the treasury laid before parliament. Before the appointed day such allowance shall be paid into the treasury (Ireland) for the benefit of the Irish exchequer, provided that the provisions of this section with respect to the income tax shall not apply to any excess of the income tax of Great Britain above the rate of Ireland or to the rate of the income tax of Ireland above the rate of Great Britain.

The Irish Treasury Account.
(2.) The duties and customs contributed by Ireland, and (save as provided in this act) that portion of the public revenue of the United Kingdom, to which Ireland may claim to be entitled, either specified in the third schedule of the act, or in the consolidated fund of the United Kingdom as the contribution of Ireland to imperial liabilities and expenditure, as defined in the schedule.

The civil charges of the government of Ireland shall be subject, as in this act provided, to be borne after the appointed day by Ireland. After fifteen years from the passage of this act, the arrangements made by the act for the contribution of Ireland to imperial liabilities and expenditures and otherwise the financial relations of Ireland may be revised in pursuance of an address hereto made by the house of commons or from the Irish assembly.

(3.) There shall be established under the direction of the treasury, an account, to be called "the Irish Treasury Account (Ireland)." There shall be paid to such account all sums payable to the Irish exchequer to the exchequer of the United Kingdom or from the Irish exchequer to the exchequer of the United Kingdom or from the Irish exchequer to the exchequer of the United Kingdom.

All sums directed to be paid into such account for the benefit of either of said exchequers, and all sums which are payable by the other exchequer, shall in the first instance be payable out of said account. So far as the money standing in the account is sufficient for the purpose, the account shall be used for the purpose of meeting such sums, the treasury, out of the customs revenues collected in Ireland, and the Irish government, out of any public revenues of Ireland, may direct money to be paid into the treasury account (Ireland) to be paid into the exchequer. Any sums standing on account of the exchequer of Ireland, and not required for meeting payments shall, at convenient times, be paid into the exchequer of the United Kingdom as required by the act.

(4.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(5.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(6.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(7.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(8.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(9.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(10.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(11.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(12.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(13.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(14.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(15.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(16.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(17.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(18.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(19.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

(20.) There shall be charged on the Irish consolidated fund, next after the exchequer of the United Kingdom as a charge on that fund all sums which are payable to that exchequer from the Irish exchequer or are required to be repaid to the exchequer of the United Kingdom issued to meet dividends or sinking fund on guaranteed land stock under the purchase of land in Ireland under the act of 1851, or otherwise have been required to be paid out of the exchequer of the United Kingdom or Ireland, as the case may be, in pursuance of this act. All sums by this made payable from the exchequer of the United Kingdom shall, if not heretofore paid, be charged on the consolidated fund of the United Kingdom.

paid, until otherwise provided by Irish act, into the Irish exchequer for payment to the local loans fund of the principal and interest of such loans.

The Irish government shall after the appointed day pay, by half yearly payments an annuity for forty-nine years, at the rate of 4 per cent on the principle of said loans, exclusive of all sums written off before the appointed day for the account of the assets of the local loans fund.

Such annuity shall be paid from the Irish exchequer to the exchequer of the United Kingdom, and when so paid shall forthwith be paid to the international debt commissioners for the credit of the local loans fund. After the appointed day the money for loans to Ireland shall cease to be advanced either by the public works loan commissioners or out of the local loans fund.

(17.) So much of any act as directs the payment to the local taxation (Ireland) account of any share of probate, excise or customs duties payable to the exchequer of the United Kingdom shall, together with any enactment amending the same, be repealed as from the appointed day, without prejudice to the adjustment of balances after that day, but like amounts shall continue to be paid on local taxation accounts in England and Scotland as would have been paid if the act had not passed. Any residue of said share shall be paid into the exchequer of the United Kingdom.

A TERRIFIC EARTHQUAKE.

It Has Done Great Damage in Yellowstone Park.

BOZEMAN, Mont., Feb. 18.—Dr. Charles H. Plummer of this city has just returned from the Yellowstone National park, where he went to look over the stock of the Transportation company. The doctor reports that a series of earthquakes have been felt in the park during the last few weeks, one of which was the most terrific eruption since the discovery of the park.

The main road south of Norris Geyser basin caved in for a long distance and to an unknown depth. In one place there remains a huge gap in the earth about seventy feet wide and probably several hundred feet in length. Marks left by the recent earthquakes are plainly visible in a number of places.

Large chandeliers and lamps in the hotel at Norris Basin were knocked down and two pyroons in the building at the time were much frightened. The course of the road at the basin will have to be entirely changed, as the damage is so extensive that it can never be rebuilt.

A BRAKEMAN'S FATAL SLIP.

A Marquette Man Killed on the South Shore Road.

ISHWING, Feb. 18.—Anton Fuerstbender, a brakeman on the Duluth, South Shore & Atlantic railway, was instantly killed a few miles west of here yesterday. He stepped from the train at Michigamme and the slippery snow on the side of the track caused him to fall under the wheels of the freight train. His head and both feet were severed from his body. Fuerstbender was married in Marquette a few weeks ago.

Willis Revenue Commissioner.

WASHINGTON, Feb. 18.—Ex-Congressman Willis, of Kentucky, will be commissioner of internal revenue under Cleveland.

Will Trade.

Any of the choice oil paintings in my collection for approved real estate in and around Duluth and West Superior, and for good iron stocks. Call and see what I have got and perhaps we can make a deal.

Dealer in Fine Arts.

413 to 417 Woodbridge block.

WAYSIDE GLEANINGS.

There is a porcelain tower in China that was erected four centuries ago at a cost of \$1,000,000.

Indianapolis is the paradise of club-women and boasts 65 women's clubs, exclusive of carnal and mixed clubs.

One or two of the older senators are said to favor the idea of senators wearing silk gowns while in session, like supreme court judges.

A small B is said to be discernible on the Columbian half dollar by the aid of a magnifying glass near the side of the letter B in the word "Columbian."

The police matrons of Chicago are required to wear uniforms of blue serge, with double breasted, close fitting basques, blue serge buttons and skirts underlined and entirely clear of the ground.

A new fad in Europe is for mothers to have waxen effigies of their babies. Waxworkers make a specialty of this now. The little subjects are generally treated while still in their long clothes.

EPICURIAN MORSELS.

A mushroom sauce is delicious with cold chicken, which if not young is often dry.

Crocodile eggs are much sought after by the natives of Madagascar, their flavor closely resembling a mixture of rancid oil and nutmeg.

Sweet potatoes can be classed with raw chestnuts as very indigestible. They are rich in sugar, while the white ones have the starch.

Salads should be eaten more than they are. Cress, lettuce and celery are quieting to the nerves, and so tend to induce sleep. They are therefore beneficial as well as appetizing.

As a relish for roast duck or game orange salad is good. Slice 6 oranges for eight persons. Grate the rind of 1 and add the juice of 1 lemon, 2 tablespoonfuls of salad oil or melted butter, with a pinch of cayenne pepper, and pour this over the oranges.

WORTH NOTING.

That eggs covered when frying will cook much more evenly.

That if you heat your knife you can cut hot bread as smoothly as cold.

That cantharides is an excellent ingredient if one is suffering from catarrh.

That a little flour dissolved over the top of a cake will keep the icing from running.

That the white of an egg, with a little sugar and water, is good for a child with an irritable stomach.

The clear, black coffee, diluted with water and containing a little ammonia, will cleanse and restore black clothes.

That a large slice of raw potato in the fat when frying doughnuts will prevent the black specks from appearing on their surface.

NEW YORK FASHIONS

Mate Leroy is of Opinion That the American System of Chaperonage Engenders Much Deceit.

The First Spring Hats of Straw Are Displayed, But Hoopskirts Have Not Yet Appeared.

New and Beautiful Modish Garments For the Adornment of the Fair Sex Are Described.

As soon as we all know, there is a system in force that would be called espionage was not directed toward the young daughters of the families highest up in the social scale, and it is this dignified by the name of chaperonage. It prevails in Germany.

SPRING HATS OF STRAW.

Many, has its indefinable power in Russia, exists under another form in Greece and Italy, is called by a different name in Egypt, Turkey and Persia, and is also strictly enforced in Spain, and even in far-off China and Japan, besides in France and England. In the latter country it is honored rather than scorned, and more than likely is the branch that in the observance, but in France it is as unchanged as ever.

The fashion of having chaperons for our girls is to my mind a most reprehensible one, and one likely to be abused in many ways. It is one who conscientious, she makes us feel that we are being watched, and we are set to guard, and more than likely is the cause of developing deceit and perhaps further wrongdoing. What is the reason our fashionable mothers and grandmothers have confidence in their daughters as the women in small towns and villages where chaperons are not known?

We see a young girl go out to walk or ride or row alone with a young man, and who takes note of it or thinks it wrong? We see a young girl in a most luxurious gown, and a gentleman and think nothing of it as long as it is not in a city and the chief actors are not in the social world. It is no more for a young girl to be in a room with a gentleman than it is for a young girl to be in a room with a gentleman. The fact is not that girls are less noble or more less honorable, but that foreign fashions are obtaining in our own country which are humiliating to our womanhood.

I see in this fashion a most humiliating fact, and that is that mothers here all seem to be determined to marry their daughters to foreign noblemen. They fear that those pure and immaculate saints from abroad will misjudge the innocent freedom of their daughters, and so they try to ape the style that prevails in other countries by making a "watch upon them" "from cradle to altar."

The functions of the chaperon cease then. To have built up our nation with true hearted girls for our mothers, who can be trusted under all circumstances, and our daughters are of the same stock or else we ourselves are to blame. If a girl cannot have the confidence of her future husband and her parents without a chaperon, she cannot with one, and who shall trust the "chaperon"? If a girl cannot be trusted to kiss the white little hands and think himself blessed to take the precious gift with empty palms. But do these noblemen feel so? Not at all, for they only and deliberately bargain their titles and names against the dollars and quarrel in petty rage that the price is not high enough.

A Clock Two Centuries Old.

Mrs. Catherine Oyler of Kokomo, Ind., is the owner of what is probably the oldest wooden clock in the United States. It has been in the possession of her family for several generations. The clock was bequeathed to Mrs. Oyler by her father, John Woodring of Breble county, O., who died a short time ago, aged 83. The clock is of English manufacture, of the style known as the "wall sweeper," made by Reed & Ward in the year 1711. The case is of English black walnut, and all parts of the running gear are constructed of wood. It is 7 feet tall and weighs 115 pounds. It has been ticking away for 182 years without a stop and has never been repaired. The wooden wheels show little or no wear, and it is apparently good for another century or more, ticking away as merrily, truthfully and tunefully as it did in England nearly two centuries ago.

A LUXURIOUS SILVER BEDSTEAD.

Some of the East Indian princes have very sharply defined ideas as to what constitutes luxury, and as a result of them have means to put their ideas into practice they probably get as much pleasure out of life as anybody can. A bed made in Persia for many marriages of many kind, and having a canopy of silver, with large female figures at each corner, each holding a delicate looking fan. The weight of the sleeper's lady sets certain machinery in motion, which causes the figures to keep the fans gently moving—a luxury in a hot climate. My wife certainly enjoyed a large music box to make to give forth soft music as a further incentive to slumber.

A bed made in Persia for many marriages of many kind, and having a canopy of silver, with large female figures at each corner, each holding a delicate looking fan. The weight of the sleeper's lady sets certain machinery in motion, which causes the figures to keep the fans gently moving—a luxury in a hot climate. My wife certainly enjoyed a large music box to make to give forth soft music as a further incentive to slumber.

A Clock Two Centuries Old.

Mrs. Catherine Oyler of Kokomo, Ind., is the owner of what is probably the oldest wooden clock in the United States. It has been in the possession of her family for several generations. The clock was bequeathed to Mrs. Oyler by her father, John Woodring of Breble county, O., who died a short time ago, aged 83. The clock is of English manufacture, of the style known as the "wall sweeper," made by Reed & Ward in the year 1711. The case is of English black walnut, and all parts of the running gear are constructed of wood. It is 7 feet tall and weighs 115 pounds. It has been ticking away for 182 years without a stop and has never been repaired. The wooden wheels show little or no wear, and it is apparently good for another century or more, ticking away as merrily, truthfully and tunefully as it did in England nearly two centuries ago.

A LUXURIOUS SILVER BEDSTEAD.

Some of the East Indian princes have very sharply defined ideas as to what constitutes luxury, and as a result of them have means to put their ideas into practice they probably get as much pleasure out of life as anybody can. A bed made in Persia for many marriages of many kind, and having a canopy of silver, with large female figures at each corner, each holding a delicate looking fan. The weight of the sleeper's lady sets certain machinery in motion, which causes the figures to keep the fans gently moving—a luxury in a hot climate. My wife certainly enjoyed a large music box to make to give forth soft music as a further incentive to slumber.

she was dazzled by the title of countess, and—well, it is the old story. All her money is gone, she is broken in health and spirit, and she forgets that she exists.

It makes me sad to think of it, so let us talk of something lighter and more pleasant, and could anything be more so than to look at these pure American faces, with their honest, level outlook under the two lovely spring hats. These are the first I have seen this spring in straw. It is so very fine that it looks satin. The upper one is light drab on the upper side and rust green on the under. The trimming is of drab and green ribbon bows and plumes, and velvet moire ribbon. The little gray felt toques of black straw bent and tortured into strange shapes, but becoming for all that, and trimmed with a rosette and handsome jet buckle and several plumes, all black, which has a mark of extreme elegance.

Among other new and beautiful garments for the adornment of the fair sex I noticed the costumes worn by two friends who were on their way to visit a sick sister. The younger one wore a half striped cheviot of black and gray, the skirt plain except for a panel of black astrakhan. The waist was open heart shape over a vest of gray crepe and edged with velvet, with a standing collar of velvet. The sleeves were of black velvet, and there were laps of black astrakhan and a sash bow and ends of moire ribbon. The little gray felt toques were bordered with astrakhan and trimmed with gray velvet bows. Altogether a very pretty and ladylike street costume.

The other consisted of a slightly trained skirt of heavy black silk. The Russian cloak was of black bengaline, with a yoke of gold passementerie over black. Down the back hung strips of passementerie, and the whole was bordered with rich black fur. The hat was of cream felt and plumes, with a pink moire rose in front. Nothing could be handsomer than these two costumes.

As yet, in spite of all the forebodings, actual hoops have not appeared, and some how I hope they will be diverted in their baleful course, like the comet that recently threatened the earth with almost as great a calamity. Still the most recent French importations show a widening of the skirt around the bottom at least. We can put up with that when we take note that the bottom of the waist is also larger around than fashion permitted for a long time.

Overalls were bordered in a similar fashion, and visiting gown was of old rose rep de Lyon, one of the loveliest of the new fabrics shown this season. It always comes in plain colors.

This particular gown was well shaped as to skirt, with a black border of mink around the entire bottom. The cape and the skirt were bordered in a similar fashion. On the overalls were placed black velvet bands edged with the whole. A cord of gold passementerie was on the right side gave a novelty to the costume.

The small felt hat combined the colors in the gown in an agreeable way. It will be observed that when we take note that the bottom of the waist is also larger around than fashion permitted for a long time.

The skirt is of plain black serge, the handle being of sandalwood and carved in the most delicate manner. Speaking of parasols reminds me to mention two very novel ones. One has a black silk foundation, and the other is of black silk, spangled with iridescent thread. The other is of white silk covered with puffed white net, embellished with small rosettes done in plain colors.

RAINY RIVER VALLEY.

A Valuable and Large Portion of Minnesota
Concerning Which the People Know
Almost Nothing.

Perfection and Beauty of Natural Flora
Make it One of the Most Beautiful
Lands.

Great Amount of Pine Timber, Rich in Mineral
Resources and Containing Fine
Agricultural Land.

The resources and possibilities of the half of this continent are both unknown quantities which future generations will have to determine, says Platt B. Walker in the Northwest Magazine. As factors in the problem of the future happiness and prosperity of the human race the importance of what might be termed the basins of the Peace and Nelson rivers, which include the whole of what is known as the British Northwest territory (an area larger than the United States), cannot be over estimated. The slow progress in the development of this great country is one of the anomalies of English history. This region bears the same natural relation to the United States that Russia, Norway, Sweden and Denmark do to Europe, and far exceeds them all in extent of territory, and probably in resources. Of the great Nelson River valley we own only half of the Red river and Rainy River valleys. Our portion of the Red River valley is the best known and advertised portion of the United States, if we except Chicago and the Twin Cities. The Rainy River valley, on the other hand, remains a vast terra incognita. The people of even Minnesota know almost nothing concerning it.

The Rainy river in this state has its sources in the great Vermilion and Mesaba ranges, which parallel the north shore of Lake Superior and run west through the Rainy lake and Lake of the Woods. The Rainy lake lies several hundreds of feet higher than Lake Superior and its waters are vastly purer and colder. No such body of water can be found in the United States. The Rainy valley on our side is approximately 235 miles long, east and west, and 75 miles wide, north and south, and is bounded on the south by the Mesaba range, America's greatest Bessemer iron supply. The western portion of the valley covers the great wooded plateau north of the Upper Mississippi and Red lake, the divide being the north shores of Winnipegosis and Red lakes. The valley on our side is drained by the following tributaries, to which I add the approximate lengths and the coast lines of Rainy lake and Lake of the Woods:

Stream.	Miles Long.
Vermilion	75
Net river	50
Little Fork river	125
West Branch Portage	35
Big Fork river	125
Deer river	125
West Deer river	40
Black river	40
Warrior Road river	40
Rapid river	40
Landetto river	40
Winter Road river	40
Rainy Lake front	200
Lake of Woods front	150
Total	1,303

To this should be added 150 miles of the shore line of the Northwest Angle. The Canadian front meander line of these lakes and the numerous bays which stretch away north beyond the line of the Canadian Pacific railway seventy-five miles north, undoubtedly reach ten times the length of our shore line. We pause only to note concerning these streams that they are among the most beautiful and romantic to be found in any country. Lake of the Woods is filled with almost innumerable islands. Various estimates have been made, all reaching into the hundreds, but all undoubtedly too small, varying in size from the nearly hidden rock or reef up to 300 square miles, making a perfect labyrinth of channels which would bewilder and lose any but the most expert woodsman or mariner with a compass. The great Rainy lake has also all of these characteristics. The waters of both are clear as crystal and far colder than even Lake Superior. The grand peculiarity of this body of water is the inestimable quantity, superior quality and vast variety of the fish found in it. Muscalonge, white fish, lake trout, pike, pickerel, bass, perch and sunfish of extraordinary size and flavor abound.

This leads us to comment on the wisdom of the legislature of Minnesota in prohibiting the small boy and the amateur fishermen from taking fish out of most of the lakes and streams of the state, yet permitting a foreign corporation to net and seine thousands of tons of these delicious fishes out of Rainy lake and ship them out of the state by the carload to Eastern cities. The Canadian government has absolutely prohibited this wholesale destruction of fish in their half of the lake, but in spite of this, this paradise of the sportsman will soon be denuded of its supply and one of the chief charms of this wonderful locality will be gone forever.

This territory may properly be termed the home of the moose, caribou, deer, bear, wolf, fox, porcupine, pheasant, goose, duck, brant, gull and snipe. It is the great hatching ground of the water fowl, where they congregate in vast numbers each successive summer. Nature seems to have especially designed this part of the world to completely satisfy the ambitious hunter and angler. About the only drawback, in this respect, is the quantity and blood-thirsty disposition of the mosquitoes and flies, which evening and morning in summer, will make the tourist long for home and its protection.

Of the timber in the Rainy valley the most important is the pine. The aggregate quantity of white and Norway pine, of course, cannot even be approximated in figures, but from all sources of information extending through a period of twenty-five years, I feel safe in saying that there is more pine timber in the Rainy River valley than ever grew in

the Upper Mississippi valley proper. The Indians and hunters have burned up vast quantities, particularly in the Upper Pigeon River country, at the head of the Rainy valley, and around the Net Lake country, where many hundreds of millions of feet have been ruthlessly destroyed. On the Canadian side of the river, south of the Canadian Pacific railway, there is a vast quantity of pine of two varieties. The hardwoods, consisting of oak, elm (three kinds), birch (three varieties), ash (three kinds), maple, "balm-Gilead," moosewood, wild cherry, plum, thorn apple, haw, blue beach, aspen, willow, red cedar and ironwood, are found in groves all over the region; and generally the undergrowth of prickly ash, blackberry, raspberry and hazel with numerous vines and creepers is so dense as to make life a burden to the surveyor and explorer who undertakes to penetrate these jungles. No words can picture the swamps of this region, which occupy a considerable per cent of the whole area,—tamarac, spruce and white cedar, with a thick matting of hazel, beach, willow and ironwood, and sand cherries, red and black haws, serviceberries (only name I know), wintergreen berries, high and low bush cranberries.

The meadows are among the most remarkable features of the country; vast stretches of the finest red-top and blue-joint grass are found, running in strips around the margins of the lakes and streams or stretching away off through the grand old pine forests or reaching like alleys through the dense hardwood. These grasses are the choicest food for horses and cattle, which can live on them the year round without care and keep fat. Cattle raising will eventually be one of the chief industries of the section, while sheep raising will undoubtedly thrive under the cover of these dense forests and abundant food.

The soil in the pine is generally sand on top of blue clay, while in the hardwood is found a rich black or brown vegetable mould from one to three feet thick, which will produce the finest tubers and roots which grow anywhere. Potatoes, turnips, carrots, beets and radishes grow to a size and delicacy of flavor hard to equal anywhere, and it has been demonstrated on the Canadian side of the Rainy river, between Rainy and Lake of the Woods, that wheat, rye, oats and barley grow to perfection there.

Of the mineral resources little can be said because little is known. The silver mines of the Arrow lake region are now being opened and give promise of great value. The gold mines of the Lake of the Woods are now known to be a grand success and a huge reduction plant has just been put up by the Minneapolis owners of the new gold mines of that section. Indications of silver are abundant, while the whole area seems to give promise of inexhaustible supplies of iron and possibly copper.

Another feature of the country worth mentioning is the abundance of water-powers along the Rainy river and especially on Rapid river and on Little Fork river, while the falls at the foot of Rainy Lake (Alburton) and at Rat

Portage at the foot of Lake of the Woods, are among the greatest in the world. None of them are improved.

Although there is no data at hand to prove the average temperature, it is asserted by all who are acquainted in that section and have spent winters there that the great ranges, which surround the valley on the northeast and south, and the dense timber so modify the climate as to make it far preferable to the bleak shores of Lake Superior, notwithstanding the greater altitude.

From time immemorial this territory has been occupied and claimed by the Chippewa originally (jibway) Indians, and strolling bands of them during the summer roam at will over the whole basin, in small hunting and trapping parties in winter, or in families in summer. Bands are located at each of the following places, so far as the writer knows: Fort William, Arrow Lake, Bois Fort (or Net Lake), on the Canadian side at the mouth of Rainy river. A family or two are on the Big Fork river. The most numerous band is that located on the north end of the Rainy Lake reserve, on Lake of the Woods, known as the "murderer's band," although they never harmed a white man, so far as known.

Six brothers run it. who are credited with being the best specimens of their race now alive. They hold almost no communication with the whites and consequently have acquired fewer of their vices than the most of their race. They seldom visit other bands, and so far as can learn, have a lively appreciation of the natural "hankering" the average American has to rob and debauch their race. They are mixed up with the Canadian Indians and do their trading on that side of the line, where, it is suspected, they draw annuities with alacrity and regularity only equalled by the real they show in drawing their annuities on this side from Uncle Sam.

Poor and degraded by association with vicious whites, they are scarcely to be blamed if they could draw ten times the pittance they get from the people who found them the richest and happiest uncivilized people on earth and reduced them to a mere handful of outcasts eking out a bare existence in most abject poverty. In the trade which Uncle Samuel's children forced upon the Red Lake bands some four years ago the Indians were losers, on a fair valuation, of some \$3,000,000 or \$4,000,000, and all done in the name of civilization and Christianity! These are unpardonable truths, it is true, but more than just. Could an accurate history of this great race be written it would make all just men feel that this people ought to "welcome" the white man among them, as Tom Corwin said at the outbreak of the Mexican war: "Were I a Mexican as I am an American, I would welcome the Americans with hospitable hands into bloody graves."

A few pioneer settlers have pushed into the last two years, but the honor of being the original settler belongs to Mr. Baker, who has a fine place opened up on the Rainy River opposite Fort Francis at the foot of Rainy Lake. E. S. Sheppard has laid out a new town at the mouth of Big Fork and built log-booms and piers in the main Rainy River. He holds down a most eligible town-site. Some claims have been made on the south

shore of Rainy lake, and up in the Arrow lake region. The state and general government have had to surrender the lands to a company of speculators. The long delay in opening up Red Lake reservation is a great drawback. As to the lands outside of the reservations, Minnesota's congressmen should be held responsible for the foolish withdrawal of this territory from market and wiping out the pre-emption law and leaving it possible for the speculators and mining companies to monopolize this territory to the exclusion of all others.

I cannot close this article without alluding to the sacrilegious, willful, inexcusable blunders which have permitted probably two thousand million feet of the choicest pine of the state to be gobbled up by citizens of her majesty's dominion, who, for fifteen or eighteen years, have been slaughtering it at the rate of from 150,000,000 to 200,000,000 feet per year and running the logs free of duty over to Rat Portage and Keewatin to be there manufactured into lumber, to supply the Northwest territory, to the complete exclusion of our lumber, and the infinite damage of the Northwestern states in the near future, whose prospective supply of timber is thus rapidly melting away.

On the Rainy river between the Rainy lake and Lake of the Woods, a distance of some forty miles, a line of settlers already occupy most of the territory, nearly all being new comers; many of them Americans who prefer to settle under a more liberal, comprehensive, sensible land system—one which is in sharp contrast with that of the United States, especially in regard to the timber-limit system under which this timber has been bought up and is being husbanded for future use, while the owners have been able so far to secure a present supply from the Minnesota side. I remark in parenthesis that it is more than hinted that a small ring of Minnesota politicians were partners of the Canadian syndicate and own a share with them in the plunder.

But as to Rainy valley. It would delight the eye of the lover of nature to take a look at some of the vegetable and flower gardens along the north side of the river. The perfection and beauty of the natural flora of that country makes it one of the most beautiful lands, but the cultivated flowers to be found in the Canadian gardens of the Rainy valley can scarcely be surpassed in loveliness in the world. An endless variety of flowers adorn all parts of the country, from the high range tops down into the silent depths of the dark swamp, where hundreds of curious and beautiful plants are found which are never seen elsewhere.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer, and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered since with a cold or cold since. I have recommended it to others, and all speak well of it." Fifty cent bottles for sale by druggists.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Feb. 19.
Comment by Rev. S. H. Doyle.

Topic.—Hindrances. How to meet them.

In the fourth chapter of Nehemiah we have the opposition of the heathen natives to the rebuilding of the walls of Jerusalem, the way in which this opposition was met by the Jewish leaders and the final result, in which God's people came off more than conquerors, illustrating that they could do all things through Him that strengthened them (Phil. iv. 13). Thus by example we see the character of the hindrances of life and how they may be successfully met. Notice:

1. The hindered. The hindered in the illustration referred to were the children of God who were attempting to rebuild the walls of the city of their God. They may represent the hindered of all time. So long as men travel the downward road purposely or carelessly they do not meet with much opposition. They are like the boat gliding down the stream. But let them "about face"; let them head the boat up the stream; let them turn their backs upon evil associates and associations and face Godward and heavenward; let them deny allegiance to Satan and the world and declare loyalty to God and Christ, and soon they find themselves hindered in more ways than one. The hindered in particular are those who are striving to serve Christ, to uphold His cause and kingdom within themselves and in the world. In general they may be classified as all who are striving to forsake evil for good.

2. The hinderers. In those who hindered the work at Jerusalem we see a good illustration of those who oppose good and good people at all times. Note the characteristics of the hinderers as here expressed. (a) They were numerous. They "conspired all of them together." (b) They were of different interests. They were one when it comes to opposing the work of God's people. "Herod and Pilate were that day made friends together." How necessary, therefore, that God's people should present a solid and united front. (c) They were crafty. They laid plans and plots which were not to be revealed to the Israelites. Evil always opposes good stealthily. It strikes its blows in the dark and from behind; therefore the great need of vigilance upon God, who sees all things, constant watchfulness, wisdom and shrewdness in battling against wrong and evildoers. (d) They were determined. They were ready to take life, for they said, "We will come and slay them." Opposers of good stop at nothing. To them the ruin of character, of honor, of hopes, of life itself, is as nothing, as they accomplish their foul purposes.

3. The hindrances. The hindrances to a Christian life or to even an honest moral life are many and varied. They are within us and without us. They meet us at every turn of life. They can only be successfully met by prayerfulness and watchfulness and in humble dependence upon God and Christ to strengthen us.

Bible References.—Gen. xxiv. 36; Job. xxii. 27; Ps. l. 13; xci. 16; Isa. xiv. 4-8.

Christian Endeavor Church No. 1.

The Bethel Reformed church at Edgerton, Minn., has nearly completed a neat church edifice and hopes soon to occupy it. This will be known as Christian Endeavor church No. 1, as the appropriation of the board toward the building (\$800) has been paid into the board by Christian Endeavor societies, the result of their offerings on "Endeavor day" for the past three years. How soon shall we have Christian Endeavor church No. 2? We could have a new one each year if every Y. P. S. C. E. in the Reformed church would send an annual offering to the board for that purpose.

Bethel church is now supplied by the Rev. G. Dangremont, pastor at Churchville, Minn. The building is 44 by 28 feet, all finished except plastering and painting. The church has had a donation of 117 chairs for the seating and a gift of \$10 toward a stove, which is already in the church and to cost \$22. May it be a real Christian Endeavor church and a blessing to the community in which it is placed.—Christian Intelligence.

Christian Endeavor Notes.

Cleveland has recently bidden good-speed to one of her earnest Endeavorers, Miss Schanfler, who has gone to Syria as a missionary. The missionary spirit is hers by inheritance; the names of both her father and her grandfather being conspicuous in the history of modern missions, and her father being now an apostle to the Bohemians in the city of Cleveland. The Endeavor cause is greatly honored by these its missionary daughters.

The general aspect of the work in the District of Columbia is decidedly encouraging. Several new societies have been recently formed, and everything seems to point to the formation of others in the near future. There can be, however, no great increase in the number of societies for the present, as nearly every evangelistic church in the district has already a society of Christian Endeavor.

When the Christian Endeavor society was founded only three officers were chosen—a president, vice president and secretary. There were three committees appointed—a prayer meeting, a social and a lookout committee. Granville Stevens, now of John Wanamaker's establishment in Philadelphia, was the first president.

A junior society near Boston got much good lately out of this little contest. The superintendent gave each junior a penny. They were to spend them in the best ways they could think of, and at the next meeting they were to tell how they spent the money. The juniors would then vote to decide which was the best way to use the penny, and a little prize was to be given to the best. The prize for the best good deed was given to a junior who with her penny bribed a little girl to go to the junior prayer meeting.

A WELL FILLED WEEK.

There Will be Plenty to Attract Theater Goers at Either of Duluth's Play-houses Next Week.

Lottie Collins at the Lyceum on Monday Evening—The Travesty Club on Wednesday.

R. D. McLean and Marie Prescott at the Temple in "L'Absintheur," a New Play.

While the past week has been devoid of theatrical attractions the coming one promises to make up for it in a measure. "Miss Helyett" will be produced at the Lyceum on Monday with Mrs. Leslie Carter in the leading role. The great attraction however, of "Miss Helyett" is Lottie Collins, and the big theater will be packed to the doors without a doubt. On Wednesday evening the Travesty Club will present "Romeo and Juliet," a burlesque, at this theater.

At the Temple R. D. McLean and Marie Prescott will appear on Tuesday and Wednesday evenings. They have been seen in Duluth several times and need no introduction. Suffice it to say that they are among the foremost artists in the country. On Thursday evening George W. Lederer's company will present "U and I." On Monday, February 27, James J. Corbett, champion pugilist of the world will appear at the Temple in "Gentleman Jack." On the same evening the Edith Ross Grand Scottish Concert company will appear at the Lyceum.

A DOUBLE ATTRACTION.

Miss Helyett and Lottie Collins at the Lyceum Monday.

"Miss Helyett" with Louise Leslie Carter as the droll little Quakeress, and Miss Lottie Collins in her unique creation "Ta-ra-boom-de-ay" will be the double attraction at the Lyceum on Monday. In "Miss Helyett," an entertainment everywhere accorded much favor, are blended the wit and humor of David Belasco's adroit adaptation, with the sparkling melodies of Edmond Andran. It is an odd entertainment, quite different from anything else in the field. The little Pennsylvania Quakeress who causes all the fun by her tumble down the Spanish mountain, has been played continuously with great success by Louise Leslie Carter, and there are such favorite performers as Mark Smith, J. W. Herbert, George Lyding, Lottie Nicol Furst, Fannie Hall, with a chorus of pretty girls.

Miss Lottie Collins in "Ta-ra-boom-de-ay," will be the strong special card. She has been talked about for months. London lost its head over her unique creation, and in New York, Boston, Philadelphia and Chicago, she has been the craze. It seems to be conceded that her manner of intoning the words of her song, and her exuberant, but refined antics in the dance, are altogether dissimilar to those of any other woman who has attempted "Ta-ra-boom-de-ay." She is more a pantomimist than a dancer. As grotesque as a clown, as pliant as a contortionist and as agile an acrobat as she has more varieties of twisting, bending and turning, more vagaries of gait, of coquetry and absurdity than was ever before expressed on the stage. And yet her performance has no taint of vulgarity. It is just fun gone mad; a cyclone of exuberant vital force.

MCLEAN AND PRESCOTT.

They Will Appear in a New Play Written by Marie Prescott.

R. D. McLean and Marie Prescott will appear at the Temple on Tuesday and Wednesday next. On Tuesday evening they will produce "L'Absintheur," which interpreted into English means "The Absinthe Drinker." The play is written by Marie Prescott herself and her friends predict for her great success in it. She has developed a character in "L'Absintheur" to display the special ability of R. D. McLean. The heroine of this "fin de siècle" drama will be played by herself. Mr. McLean and Marie Prescott, his talented wife, will confine themselves to this play for the rest of their professional tour.

MUSIC AND MAGIC.

The Edward Maro Combination at the Temple Next Friday.

The Edward Maro combination has been engaged by the Y. M. C. A. for an entertainment at the Temple on Friday next. The attraction is headed by Edward Maro, one of the most eminent prestidigitators before the public, although only 25 years old. He is best known in the West and has received great ovations in many of the Pacific coast towns.

Mr. Maro is the originator of many

of his illusions, his greatest being, perhaps the "Meteoric Ribbons," in which from a small piece of paper he throws among the audience long strips of tissue paper, then enlarging into hundreds of yards of silken ribbons representing all the colors of the rainbow and ranging in width from 1 to 6 inches and from 20 to 60 feet long. After doing all

this he takes from without the large pile of ribbon two mammoth Japanese umbrellas leaving the audience completely bewildered.

He will be assisted by Edwin L. Barker, a very original humorist and impersonator, whose quaint bearing and natural methods are said to distinguish him prominently from the stereotypical droll. A high grade of mandolin and guitar music will be furnished by the Orpheus trio.

"ROMEO AND JULIET."

Magnificent Burlesque to be Produced by the Travesty Club.

It is some months since Duluth has had a local dramatic or operatic entertainment and the announced appearance of the Travesty club in "Romeo and Juliet" has aroused great anticipations. The best talent in the city has been secured and an entertainment overabundant with brilliant comedy, excellent music and furnished dramatic effect may be confidently expected. It will be given Wednesday afternoon and evening.

"Romeo and Juliet" which the Travesty club will present, it had best be said right here, is not William Shakespeare's. C. H. Eldridge, a Duluthian, is the parent and he is pleased to term it a musical operatic burlesque. The arrangement is entirely his and he need not be ashamed to own it for it reflects great credit upon his ability. During the progress of the burlesque some of the brightest operatic gems are introduced, for instance, "The Finkers' Chorus" from "Kobin Hood," the grand finale from "Erminie," as well as selections from "The Mikado," "Wang," "The Musketeers," "Don Quixote," and many others of equal popularity. Of comedy there is an abundance, of the most pleasing and fascinating nature and everything will move with admirable smoothness.

The cast has been selected with great care and among those taking part will be found several who have in the past found great favor with Duluth audiences. It is as follows:

Romeo..... C. H. Eldridge
Juliet..... F. W. Preston
Mercutio..... E. H. Hanson
Nurse..... G. V. Gulliard, Jr.
Capulet..... J. E. Austin
Tybalt..... Joseph Davis
Polliceman..... Fred Reynolds
Friar..... J. D. Fowler

The costumes will be gorgeous and will excel the expectations of the most exacting. The Lyceum will put forth its best in the staging, and Manager Miller is lying awake nights thinking of original and novel arrangements of the Lyceum's magnificent stock of scenery.

TWO PETITE ARTISTS.

They Are Young, Ambitious, Talented and Pretty.

Miss Gladys Wallis, the ingenue of William H. Crane's comedy company, has made a hit in an important part in "On Probation," Matthews and Jessop's highly aced "comic play," which is now on for a run at the Star theater, New York city.

Miss Wallis is a thoroughly American girl. She was born in New York 10 years ago, her father being at the time a prominent retail merchant of that city. When she was 10 years old, little Gladys traveled with a repertory company, doing child parts in a number of plays. She remained with this organization but one season, and then very sensibly returned to her school books.

About three years ago Miss Wallis began her serious stage career with a "summer snap" presenting a play called "Jack Gordon," which had a brief and not particularly brilliant career. She next joined "Raglan's Way" as the ingenue, and it was in this piece that she discovered her true place in theatrical work, for she has been an ingenue ever since. Edwin Arlen and Selma Fetter, now Mrs. Edwin Milton Royle, were members of the "Raglan's Way" company. During the following January Miss Wallis signed with Crane to join him in September.

Two years ago it was announced that Lilian Baird, the 9-year-old daughter of J. W. Baird of Brighton, England, was the composer of great problems of great merit—or at least of extraordinary merit—for one so young. Her problems were published in nearly all the important chess papers in the world and in chess corners of innumerable daily and weekly papers. Lilian knew 11 years of age, and she is still as interested in the great, hard game as ever, and better than ever.

Lilian Baird, new problem that she turns out is every bit as good as the ones she has already solved. Lilian's talent is undoubtedly inherited from her mother, who has been well known among chess players for many years as a composer of excellent problems. Lilian recently won a special prize in a tournament for persons who have never competed before, held by The Hackney Mercury, London, which was probably the youngest competitor, but she easily carried off first honors.

Miss Gladys Wallis, the ingenue of William H. Crane's comedy company, has made a hit in an important part in "On Probation," Matthews and Jessop's highly aced "comic play," which is now on for a run at the Star theater, New York city.

as a young gentleman of Danbury, Conn., expects to lead her to the altar before long. Miss Wallis says that her principal ambition is one which she knows will never be realized—she wishes to be tall. She is less than 5 feet high and weighs exactly 100 pounds. She plays the piano, sings prettily and is a beautiful little creature of unassuming demeanor and charming conversational powers. Miss Wallis is what is known in the profession as a "quick study," and the work of memorizing her parts is a pleasure to her. She thinks Miss Martha Morton's new play, "Brother John," will be a success, as it is a straight comedy and is exactly suited to Mr. Crane.

When the "County Fair" had its phenomenal run at the Union square theater, New York, Miss Clara Throppe, the sonnette, who played the part of Taggs, made almost as great a hit as Neil Burgess himself. She was a veritable little bundle of energy and soon became very popular with theater goers. A single euphonic hit during a long run in New York city is usually sufficient to make a national reputation for an actress, and thus it proved in the case of Miss Throppe, for ever since she played Taggs her services have been in constant demand, and this too, despite the fact that she exacts a very large salary.

MISS CLARA THROPPE.

Miss Throppe is barely 30 years old. She was born in Washington. When she was a little tot of 3, she was put on the stage by John T. Ford in a comedy called "Lemons." She has been an actress ever since. At the age of 8 she was engaged for the child parts in John McCullough's repertory, and the promise then held out by her remarkable precocity has been more than realized by her subsequent work.

Miss Throppe's income is not entirely dependent upon her stage work. She is a literary woman of no mean pretensions, and her poetry, she says, finds a ready market in the principal American periodicals. She will star next year in "Queen Mab," a light comedy written by herself. She will of course encephalate the title role.

Cupid has not yet captured Miss Clara Throppe. She declares that she is too great a student to bother her head about marriage. She says she is a linguist, an elegant horseback rider, is not fond of dress and dresses well and that she has already sold several pictures.

JACKSON TO PLAY UNCLE TOM.

The Big Negro Pugilist Also Wants to Try His Hand.

A pugilist who is not an actor, too, nowadays is not much of a pugilist. It does not follow, however, that if a pugilist is also an actor he necessarily is very much of an actor. But, be that as it may, every prominent fighter in the country has shield his cantor over the footlights and at present has their heads in Champion Corbett's straitjacket.

None of these new stars has avowed any intention of elevating the stage, but a chance right hand upper cut may do the business. Jackson is probably the most ambitious of the pugilist-theaters. From Uncle Tom to Othello requires a long march—longer, perhaps, than from Jackson to Uncle Tom—but as Jackson has already played Marquis of Queensbury with such flattering success, he may also get along famously with the Prince of Morocco. Jackson will need very little makeup for either Uncle Tom or Othello. A dash of paint in his kinky hair to give it a gray look and an old suit of clothes will transform him into Little Eva's famous friend, while a Moorish wig will give him his magnificent figure the royal air of the Moor of Venice.

If Jackson attempts to play Othello, he will not be the first colored man to do so. Nearly 20 years ago Ira Aldridge, better known as the African Roscius, a full-blooded negro, made a great hit in England in "Othello" and other tragedies. Jackson's debut as Uncle Tom will no doubt occur in San Francisco.

Two years ago it was announced that Lilian Baird, the 9-year-old daughter of J. W. Baird of Brighton, England, was the composer of great problems of great merit—or at least of extraordinary merit—for one so young. Her problems were published in nearly all the important chess papers in the world and in chess corners of innumerable daily and weekly papers. Tobacco & Snuff of the best quality & flavor,
At the Manufactory, No. 4, Chatham street, near the Gaol
By Peter and George Lorillard,
Where may be had as follows:

Cut tobacco,	Prig or carrot do.
Common kistfoot do.	Maccuba snuff,
Common smoking do.	Rappee do.
Segars do.	Stralburgh do.
Ladies twist do.	Common rappee do.
Pigtail do. in small rolls,	Scented rappee do. of diff.
Plug do.	ferent kinds,
Hogtail do.	Scotch do.

The above Tobacco and Snuff will be sold reasonable, and warranted as good as any on the continent. It not found to prove good, any part of it may be returned, if not damaged.

N. B. Proper allowance will be made to those that purchase a quantity. May 27—1m.

When this advertisement appeared, the LORILLARD firm was 29 years old. In the 103 years intervening, the little store on the Boston Turnpike (now Park Row) has grown into the largest Tobacco manufactory in the world. The enterprise, energy and skill which has kept the head of the procession so long, finds its best expression to-day in CLIMAX PLUS, the choicest chewing tobacco in the world. CLIMAX is sold everywhere. It's much the best.

Made only by the P. LORILLARD COMPANY, the oldest tobacco manufacturers in America, and the largest in the world.

The stock book for the transfer of stock for the payment of dividends will be closed March 1st, 1893.

LEWIS J. M

BILL NYE'S ROAMINGS.

Stay at the Pompadour Hotel Where the Cook Locks Up the Doughnuts and Leaves Early.

How William Sang on the Stage and Prevented a Panic From Gaining Much Headway.

Visit to Kentucky During the Cold Spell When the Vertebra of His Nose Cracked.

Last evening we stopped at the Pompadour Hotel. It is a good house, but at 9 o'clock the cook goes home, after locking up the doughnuts, and spends the night at his residence over beyond the fair ground. This makes it impracticable to get a good lunch at 11 o'clock at the house.

We have formed the habit of eating at this hour, as we are not very hungry at 6, and at half past 10 we are quite fatigued with our dramatic and artistic programme, so we have our bouquets and floral horseshoes sent to the hotel and go out scrambling for a late tea.

Last evening the town being a small one with a college to it, we found the streets all dark, save here and there where the soft light from some gilded but sinful lager beer place seemed to invite one.

Oh, it is a fearful thing to be on the streets of a town, a stranger and hungry, while all seems so dark and cold except this. Ah, think of it as you sit by your own warm fire with children clambering over your knee! Think of it if you have never been hungry, and yet you murmur at the rich warm food!

Think of it if you have never gone forth in the darkness not knowing where the next meal was coming from, while each door was locked and even the great figure of the clothing store statue taken inside where it is secure. Then the rich rays shoot out from the wicked lager beer place, where you know that light and warmth and a glad welcome await you.

It was suggested that we go in here and get a sausage and some other of the delicacies. "But, no," I said as I recalled the vivid description of John B. thought and of the gay company sailing toward Niagara falls and at last going over with an eternal plunge, "we will not go in there. If we take these now, we will some day want something stronger."

So we talked on till at last we came to a confectionery place where six or eight men, revellers who had come from a distance by sleigh were eating oysters and caramels before going home. Half of these were girls who conversed all at the same time, and the other half were young men who laughed at what the girls said.

The saloon was used for ice cream in summer, and in winter oysters almost as large as lima beans are served with large circular pickles fresh from the brine—if one could get such a tempting paradox. You can also get a steak here for 15 cents. I took one of them, and when I got back to my room I repaired my trunk with it.

We had some crackers, too, that had been carefully looked over by other people. They were all powdered and seemed to have stood on the lunch counter all day for dawd to peck at, as Shakespeare says.

The room was rich in decoration, with a little piece at one end of the room painted by some unknown man and O. K'd by the homely in the summer time. The proprietor was a man who had been a great scholar. He had always taken and read The Great Fire Companion and was reading it when we came in. We spoke to him, and he looked at us with dazed eyes, for he was still watching the Indians sculpting some people who were on their way through Death valley for a straw ride.

REPAIRING THE TRUNK.

We looked in the showcase for quite awhile admiring things. There were all kinds of imperishable candies in boxes. Some of the candy was captured during the war.

It was hard and had been felt of by people who have long since passed on to their reward.

The young people were gay and full of life. I like that. It makes me feel sometimes that again I am a young idiot in a small way myself, as I used to be before I had better opportunities.

Earl was one of the young men. He was a young man from the salons of Paris, Ill., about 19 years of age, and could pass tobacco, or cigarette smoke, rather, entirely around through the inside of his head and out at the nose without injuring the brain, although the flavor of the smoke was somewhat injured.

Everything he said was with the air of one who had seen all of life, had tasted every pleasure and only hoped to meet with a dramatic death. He came very near it, too, while doing a sword swallowing act with his cane.

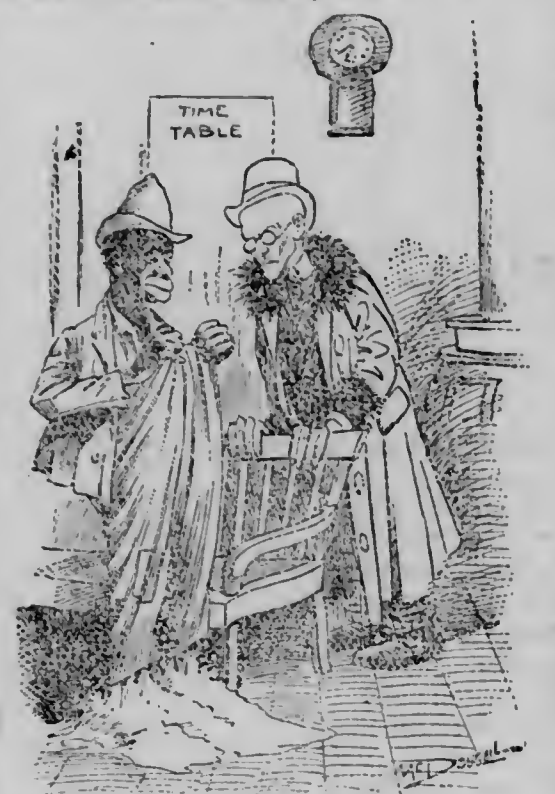

Earl aimed to be considered a wild and willful man who had, after all, a big, generous heart—a man who could raise a mustache and yet disclaimed to do so.

We ate our stews and listened to him. Then we went home to our room at the hotel, where there were no hooks to hang clothing on, but a large flannel butterfly on the wall, caught in a natural colch.

An alarm of fire broke out in the audience on two successive evenings lately, and at one place we feared that there would be a terrible stampede, for the house was full and the one exit narrow and down a winding stairway. I have always said that the exit should be more ample where we speak, but I cannot seem to get any one to listen to it.

Women fainted, for the rumors were that the fire was in the store below, at the academy and at the depot. The engine house was across the street, and the firemen made considerable noise, many of them being in the audience when the alarm was given.

A panic was well started, and crazed men stood up on the seats and yelled while the ladies wrung their hands, but showed more sense than the men. One stranger arranged his overcoat so that it resembled a fainting woman and politely passed through the crowd "to save the life of one who was dear to him." When he got out, he put on his overcoat and asked to have his money back.

SHAKING OUT THE SNOW.

It was a terrible scene and one long to be remembered. The crowd surged toward the door, and little children cried as they were trampled and crushed. It was then that I came upon the stage, and kicking aside the heliotropes and tuberoses with which the stage had been covered on my former appearance, I even tossed back my hair I burst forth into song.

I sang "Oh, Dary Me Not In the Deep, Deep Sea" till there was breathless silence, and people came back to their seats in wonder and amazement. Even the fire company came back and listened to it while the fire went out.

It is a wonderful gift to be able thus to appeal to the hearts of humanity and make people forget other horrors by calling them to confront a greater one.

Last month we visited Kentucky for a short time. It was during the cold spell which surprised and astonished one and all. The Kentucky hotels are not made generally for Siberian weather, and we were very little blubber on the bill of fare, but every landlord did the best he could. It is not possible, though, to warm a large, airy room in such weather with a little watch pocket grateful of coal. You might as well fire a bottle of kerosene into the heart of a snowman and expect to get up a healthy glow.

Our entire troupe and the business manager slept in the same room at a hotel in West Virginia, and at 3:30 a. m. we arose, picked out our different clothes, put them on and walked across the Kanawha river on an elevated iron bridge.

Oh, how cold it was! The wind cut like a knife. How cold the sky looked! "Shall I perish here alone?" I asked myself, but could get no reply, only a low moan. The moon came out, but seemed to retire that it might not see my suffering.

I was so cold that the vertebra of my nose cracked when I tried to rub it into life. Frost formed on my spectacles so that I could not see. Now and then I could see the light of a happy home where the husband had just returned from his work at that early hour staggering, for he was trying to support a jag instead of those who loved him. Then frost would obscure my vision as my breath lit on my glasses.

"My patience!" I exclaimed with an agonized shriek, "must I freeze here in the south and be found here by strangers?" The train was an hour late. Eight colored men, who were fully the equals of the white men in intellect—if you will let me pick the white men—were slumbering in the waiting room. One of them slumbered like a crouching elephant. His shirt was open, and I could see his dark throat where it fastened on his massive trunk. I could also see his trunk.

He had a home near by, but he would not go to it. He had been told many times to go there, but he still loitered and slept in the waiting room. Now and then the agent would go out and get a coal scow full of snow and put it in the colored man's trunk. It did not crack the snow. When he woke up he would get on his feet, let the snow fall out at the lower end of his trousers legs, and then he would seek much needed rest. A heavily colored man is not easily irritated.

The agent did this several times, but the man did not say anything even when he went to sleep with his mouth ajar and kind friends put an icicle in it. At Paris, Ky., we found Colonel Craddock. He is unmarried, but would be glad to hear from those who want a good home and who belong to an entirely different sex.

He is the editor of The Kentuckian and Citizen, published in Paris, Bourbon county, Ky. He does not tell his age, but is very active indeed, though he re-

members very well about Daniel Boone and has often been in swimming with him.

Colonel Craddock showed me where Henry Clay made, as an awkward boy, his first speech, it being on "Emancipation." Very few know that Clay's first speech was on this subject. Clay was a good talker afterward and spoke frequently, turning many away sometimes.

Daniel Boone was not so good an off-hand speaker, but used to kill Indians in defiance of the game laws of Kentucky up to the time of his death.

Colonel Craddock is chiefly noted as being the first man to welcome Columbus on his arrival in this country and to suggest the possibility of bringing dagoes to New York for the purpose of supplying policemen with freshly roasted peanuts.

So he is identified with much of the history of our country, and yet seems to be almost in his prime. He never misses a sociable or a political convention, and a pink tea on the Rue St. Honore in Paris never becomes uproarious till he comes.

He is certainly a very interesting man. He writes a good deal for The Kentuckian, besides interviewing all the great men who pass through the city. His memory is said to weigh four ounces more than that of B. F. Butler and Daniel Webster combined.

If I happily wedded, I see no reason why he should not make some woman a happy wife. He does not object to youth and inexperience. He has enough himself for both and is a large cyclopedon in a revolving chair.

Colonel Craddock knows as much as I thought I knew when I was 20 years old, and I can say no more than that.

He told me about a Cincinnati man who bought a high bred horse recently with a pedigree that went back to a team that Noah used to drive when he was doing his hauling from the sawmill to the dock where he was building his boat.

By and by the Cincinnati man felt unable to keep such a valuable horse and offered him for sale to a Kentuckian who knew the horse.

The Cincinnati man produced his pedigree, which was as follows: Bay horse Blue Grass, foaled in 1887, sire Black Sampson, dam Young Phyllis; Black Sampson, by Brestplate, dam Lady Waverly; Young Phyllis, by Blue Jeans, dam Mattie J.; Mattie J., by Cyclone Wilkes, dam Miss Tormentor; Miss Tormentor, by Tuscarora II, dam Ada V.; Brestplate, by Frank, dam Jellico; Jellico, by Bucephalus, dam Princess; Bucephalus, by Sir William, dam Galena.

The Cincinnati man said, "We will go around and see the horse," and they did so. The Kentuckian shook his head.

"Your horse has a strain of vulgar blood," he said. "Notice he eats like a horse that has lived and lunched out of a noselug like a calf horse. He has no refinement. I can pick out a horse that has had good parents and been brought up tenderly. That horse has been belted around the trail with the back of a curry-comb, and he is a jay horse."

"Well, he is not, begging your pardon. He only needs to point to his pedigree, which I bought him on largely. Read it, and you will find no break in the title. I bought him of a Kentuckian who knows horses."

This Kentuckian glanced over the pedigree and said: "There is something singular about this pedigree. I know all these names, but you see, Black Sampson when he was alive was a jackass. Of course we cannot tell where he went when he died. This is no time to raise theological questions and get the whole presbytery after you."

"Young Phyllis was a Shorthorn cow. Brestplate was a Shorthorn bull. Lady Waverly was a saddle horse. Mattie J. is a pacing mare. Tuscarora II is a gray mule down on Four Mile. Ada V. is a steambot on the Kentucky river. Frank is a yellow dog in Simpson's livery stable, and Jellico is an old mare while that runs extra on one of Brown's coal carts."

In the language of the poet:
It is not all of life to live.
Nor all of death to die.

Bill Nye
The Hungry Little Boy.
Mother (reverely)—Johnny, where is that piece of cake I left here when I went out?
Johnny—I gave it to a hungry little boy, mamma, and, oh, he was so glad to get it.

Mother—Come to my arms, you dear, dear angel. Who was the little boy?
Johnny—Me—Detroit Free Press.

A Fair Reasoner.
Disappointed Suitor—Do you ever reason?
Miss Flight—Reason? I should say I did. I took up a paper only yesterday and reasoned out all the points in the joke column.—New York Weekly.

Just the Place.
"Aw, do you think that fashionable women appreciate rising young men?"
"Yes, in the street cars."—Philadelphia Record.

The Clerk's Bad Break.
Clerk (who was not aware of customer's misfortune)—I can recommend these stockings. They will keep your feet warm and dry.

Legless Veteran—No sarcasm, young man. What I want is a pair of umbrella covers.—Texas Sittings.

Telephone Lutes' laundry to call for your washing.

farthest extreme and are beginning to settle toward the middle. Let us free ourselves from our kitchen burdens that if reconstructed will give employment to many who choose or need such occupation, and leave mothers free to prepare children to be the best of a newly-vivified race; to leave wives free to support, comfort and sustain husbands, leave each woman free to work in the work her Maker has fitted her for, which is not always cooking. The rest of household, outside of the kitchen, is not heavy and does not need all day's attention to prepare three meals each day, and dispose of the conditions belonging to meals.

Decidedly Shaky.
A trembling hand, an uncertain step, fidgetiness, indicated by restless shifting from one place or posture to another, usually mental annoyance at unexpected noises, are among the indications of extreme nervousness. These seem trifling, but the health of men or women in this condition is "decidedly shaky," liable to be overthrown disastrously by causes which the vigorous might defy. To fortify the nervous system, general vigor must, through the medium of reinforced digestion, and a renewal of an impaired power of sleeping at night, be raised to a healthy standard. A sure evidence of this is Hostetter's Stomach Bitters, which re-establishes digestion, bile secretion and the habit of body on a permanently regular basis, thus renewing that healthy equilibrium, which is followed by a gain of strength and nerve tranquility. For kidney complaint, rheumatism, neuralgia, and as a preventive of the first attack or subsequent return of malarial disorders, this medicine is without a peer. Thrice daily take a wineglassful.

THE HOUSEHOLD WORK

affords an excellent opportunity for the pick-pocket to get your watch. If you would be proof against his skill, be sure that the bow (or ring) is a

This wonderful bow is now fitted to the Jas. Boss Filled Watch Cases,

which are made of two plates of gold soldered to a plate of composition metal. Look equally as well as solid gold cases, and cost about half as much.

Guaranteed to wear 20 years. Always look for this trade mark.

None genuine without it. Sold only through watch dealers. Ask any jeweler for pamphlet or send to the manufacturers.

Keystone Watch Case Co., PHILADELPHIA.

STILL AT HIS CIPHER

Continued from page 9.

politician—worse yet; in the opinion of his opponents, a "hayseed" politician. Strange paradox, that a man who stands so high in the cultured circles of the United States and all over the old world should at home, where he ought to be best known, be classed on a par with the legislator and politician from the "way-back" districts. Isn't it? The people of Minnesota cannot estimate him as a scholar, because they don't know enough. The outside world looks upon Ignatius Donnelly as a man of wonderful industry, wonderful ingenuity, wonderful perspicacity and broad scholarship. Yet up in Minnesota, especially in the Twin Cities, he is regarded as a man who is wasting his life in the pursuit of a jack-o'-lantern—a sort of a chimerical fellow generally. Queer people out there. Suppose that he should, after all, demonstrate himself all capill the existence in Shakespeare of a Bacon cipher story and revolutionize the literary world. What would his fellow citizens say then?

Lieutenant governor of Minnesota at 27 years, congressman and publicist for thirty-seven years; luminous literary light—every man and woman in this commonwealth ought to be proud of him.

LAKESIDE

We wish to Call Attention at this time to the Many Attractions Lakeside Possesses as a Place of Residence.

Lakeside has city water, a sewer system established and in operation, fine schools, beautiful churches, well graded streets and magnificent parks.

We have many lots for sale in all parts of this best residence portion of Duluth.

We are already beginning to take contracts for building in the spring.

Remember that your leases run out May 1, and now is the time to look about, secure a lot and arrange for a home of your own.

We are building on easy terms, so see us at once and take advantage of the best opportunity of a lifetime to get a home.

For a steady increase in value or for residence purposes we have the best property in the market.

Call at our office for maps and full particulars.

LAKESIDE LAND COMPANY,

WM. C. SARGENT, Manager,

507 First National Bank Building, Duluth.

Railway Conundrums.

What is the railway mileage of the United States? 170,601 miles.
What has been the cost? Over ten billion dollars.

What state heads the list in point of mileage? Illinois—10,079 miles.
What is the average cost of constructing a railroad? About \$30,000.

Who built the first locomotive in the United States? Peter Cooper.
What is the cost of a palace sleeping car? About \$15,000, or \$17,000 if vestibuled.

What road carries the largest number of passengers? The Manhattan Elevated railroad, New York—\$25,000 a day or 101,625,000 yearly.

What are the chances of fatal accident in railway travel? Statistics show one killed in every 100,000,000.

What road runs the famous vestibuled, electric lighted and steam heated
